1. Company overview

Boribunder Finance and Investments Private Limited (“the Company”) is a private limited company incorporated in 1983 under the Companies Act, 1956 as a subsidiary of Britannia Industries Limited. The Company is a Core Investment Company as per Reserve Bank of India (‘RBI’) guidelines.

2. Significant accounting policies

(i) *Basis for preparation of financial statements*

The financial statements have been prepared and presented under the historical cost convention, on the accrual basis of accounting and in accordance with the provisions of the Companies Act, 2013 (‘the Act’) and the accounting principles generally accepted in India and comply with the accounting standards notified under Section 133 of the Act read with Rule 7 of Companies (Accounts) Rules, 2013 to the extent applicable.

(ii) *Use of estimates*

The preparation of financial statements in conformity with Generally Accepted Accounting Principles (‘GAAP’) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities as of the date of financial statements, and the reported amount of revenue and expenses during the reporting period. The estimates and assumptions used in the accompanying financial statements are based upon management’s evaluation of the relevant facts and circumstances as of the date of the financial statements. Actual results may differ from those estimates used in preparing the accompanying financial statements.

(iii) *Current-non-current classification*

The Schedule III to the Act requires assets and liabilities to be classified either Current or Non-current.

a) An asset shall be classified as current when it satisfies any of the following criteria:

- i) it is expected to be realized in, or is intended for sale or consumption in, the company’s normal operating cycle;
- ii) it is held primarily for the purpose of being traded;
- iii) it is expected to be realized within twelve months after the reporting date; or

(iii) *Current-non-current classification (Continued)*

- b) All assets other than current assets shall be classified as non-current.

Current investments are stated at lower of cost and fair value. Profit or loss on sale of investments is determined on the basis of weighted average carrying amount of investments disposed of.

(v) *Revenue recognition*

Dividend income

Boribunder Finance and Investments Private Limited

Notes to the financial statements (*Continued*)

(Currency: Indian rupees)

2. Significant accounting policies (*Continued*)

(vii) Taxes

Income tax expense comprises of current tax (i.e. amount of tax for the period determined in accordance with the income tax law) and deferred tax charge or credit (reflecting the tax effect of timing difference between the accounting income and taxable income for the period). The deferred tax charge or credit and the corresponding deferred tax liability or asset are recognised using the tax rates that have been enacted or substantively enacted by the balance sheet date. Deferred tax assets are recognised only to the extent if there is reasonable certainty that the asset can be realised in future; however, where there is unabsorbed depreciation or carried forward loss under taxation laws, deferred tax assets are recognised only if there is virtual certainty of realisation of such assets. Deferred tax assets are reviewed as at each balance sheet date and written down or written up to reflect the amount that is reasonably/virtually certain (as the case may be) to be realised.

(viii) Provisions and contingencies

The Company creates a provision when there is present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made. Loss contingencies arising from claims, litigation, assessment, fines, penalties, etc are recorded when it is probable that a liability has been incurred and the amount can be reasonable ascertained.
