The financial statements are presented in Indian rupees and rounded off to the nearest Rupee.

c. Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles in India requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent liabilities on the date of the financial statements and the results of operations during the reporting period end. Actual results could differ from those estimates. Any revision to accounting estimates is recognized prospectively in current and future periods.

d. Revenue recognition

Interest on investments is booked on a time-proportion basis taking into account the amounts invested and the rate of interest.

Dividend income is accounted for in the year in which the right to receive the same is established.

e. Investments

Long term investments are stated at cost. A provision for diminution is made to recognise a decline, other than temporary, in the value of long term investments.
