ANNUAL REPORT
2017 - 2018

100

YEARS OF DELIGHT

Our Journey So Far

1892

Established operations

It was 1892 when people got a taste for the biscuits in our oven. Word spread faster than the butter on the bread and sure enough, 26 years later, the fabric of Britannia was woven.

1918

Incorporated as a Public Limited Company

It wasn't long before the taste became word of mouth. We grew and grew, bigger than we had ever been, we became a public limited company, present from north to south.

1954

Launched Bread

Come 1954, the nation was free, but the taste of bread wasn't forgotten. So, we launched our own bread and breakfast took on a new notion.

1963

Launched Cake

And by 1963, we'd widened our repertoire and raised the stakes. With Britannia's very own range of delectable cakes.

1975

Set up own distribution network

Of course, the more we dared, the more people cared. What we made became part of the nation's culinary framework. So in 1975, we created our very own distribution network.

1986

Launch of Good Day

Our own distribution network ensured that our customers got closer. We got to see what our products meant to them at every hour. And so, to appreciate all that the everyday brings, we created Good Day, to celebrate the little things.

1993

Wadia group acquires stake in Britannia & 50-50 is launched

18 years passed. A horizon had been reached and another beckoned. Britannia shook hands with the Wadia group and new doors opened. Just as the two forces came together and the business had a new flavour, 50-50 was created and we saw a whole new taste to cater.

1997

Introduced the corporate identity – “Eat healthy, Think Better” & entered the dairy business

With one eye now on the horizon, we made our offering more complete. So we took the dairy business head on and synced our credo to the consumers' beat.

2007

First ever overseas manufacturing through acquisition of SFIC and Al Salan in Dubai & Oman

Dubai and Oman first got a taste of Britannia as we went overseas. And before you knew it, we were expanding our capabilities.

2016

Established world class R&D facility in Bangalore

With our very own state of the art R&D and manufacturing facilities.

2018

Setting up an integrated mega food park in Maharashtra

We've travelled many miles and have many more to go, many courses to chart and many seeds to sow. We are readying for the Exciting Goodness ahead with a mega food park, fully integrated.

The Britannia Biscuit Company Limited

Making A Difference To The Community

Nutritious ProBisk High Protein biscuits being distributed to school children under one of the Company's many special Nutritional Research feeding programmes.

We developed ProBisk, a high protein biscuit to combat malnutrition and distributed those through relief agencies, in 1974.

Mother Teresa at the Calcutta Branch with Mr.K. Julian Scott, Chairman, and Mr. J. Mukherjee.

To mark the occasion of Mother Teresa's visit to Britannia's Calcutta branch, in 1976, the Company distributed clothes and biscuits, among other items, to those in need.

It all began way back in the years of taking baby step in the world of baked biscuits. Our service to communities was the key to our sustainability as a business and as a people's organisation. It soon became an essential part of our growth story.

Adopted school a matter of pride

Britannia adopted a village school in Padi, Tamil Nadu in 1976.

Personal involvement: 'We Care'

Britannia's employees donated blood for the cause of community health and welfare, in 1977.

In 1978, we made cash donations to the Tamil Nadu and Andhra Pradesh relief funds. The Company gifted bread and sponsored a play, 'Androcles and the Lion', in Madras, to help generate further funds for the Tamil Nadu relief fund.

Britannia Nutrition Foundation (BNF) currently spearheads our mission to secure every child's right to healthy growth and development through the 'Right to Nutrition' programme.

80,000 biscuit packs distributed every quarter in **FY 2017-18**

We developed special biscuits to address anaemia among kids and pregnant women and reached 43,000 children in the age group of 3 to 6 years, across 2,684 Anganwadis in northern Karnataka FY 2017-18.

Nowrosjee Wadia Maternity Hospital provides specialised affordable obstetric and gynaecological services to women.

Bai Jerbai Wadia Hospital for children is one of Asia's largest paediatric hospitals. It has the largest neo-natal intensive care unit in the world for underprivileged children.

February 6, 2018: Twins Love and Prince had been conjoined at the abdomen and hip, leading them to share three vital organs: liver, intestine and urinary bladder. A team of 20 doctors at the Bai Jerbai Wadia Hospital for Children performed a 12-hour surgery on the twins and successfully separated them.

Doctors at the Bai Jerbai Wadia Hospital for Children recovered a light bulb, mistakenly swallowed by a baby while playing with a toy mobile phone.

DIRECTORS' REPORT

Dear Shareholders,

On 21 March 2018, your Company completed 100 years. As we celebrate this momentous occasion, we would like to convey our deepest gratitude to you, our valued shareholders, for the trust and support that you have extended through this inspiring journey. This journey has also been possible because of the support and contributions of all the stakeholders – our consumers, business partners, associates and employees.

Your Directors present their Report together with the audited financial statements for the year ended 31 March 2018.

I. FINANCIAL PERFORMANCE

a. Standalone Financial Results

Particulars	₹ in Crores	
	Year ended 31 March 2018	Year ended 31 March 2017
Sale of goods	9,282.04	8,581.55
Profit before tax	1,445.20	1,251.16
Profit after tax	947.89	843.69
Profit available for appropriation	2,515.05	1,979.86
Proposed dividend (including tax thereon)	361.84	317.75

b. Overview of Company Performance

Your Company achieved a consolidated revenue growth of 9.7% and strengthened its market leadership in a year that continued to experience sluggish category growth. The slowdown in growth that started from the second half of FY 2016-17, continued for a good part of the FY 2017-18. Later half of the year saw growths coming back albeit on a base that was muted. Growth in International business continued to be under pressure due to general economic slowdown in key export markets for the Company. To minimise the impact of all this, your Company focused on:

- Strengthening distribution by increasing direct reach to 18.4 lakhs outlets.
- Growing the weak geographies viz the Hindi belt, significantly faster.
- Driving Product innovation which resulted in many new launches during the year such as Treat Vanilla, Treat Chocolate, 50-50 Jeera, Goodday Choco Almond, Milk Bikis Good Morning, Tiger cream variants etc.

(iv) Driving Cost Efficiency Program in the organisation which helped the Company achieve consolidated profit growth of 13.5% during the year.

(v) Creating a focused group to work on Adjacent bakery & other businesses for stimulating growth.

Your Company will continue to scout for opportunities to enter new categories in Food and new geographies in its endeavour of becoming a Total Foods and a Truly Global Company.

c. Consolidated Financial Performance

Consolidated Financial Statements prepared in accordance with Section 133 of the Companies Act, 2013 read with the rules made thereunder and applicable Indian Accounting Standards (Ind AS) along with the Auditor's Report form part of this Annual Report.

Consolidated Sale of your Company for the financial year ended 31 March 2018 is ₹ 9,905.63 Crores vis-à-vis ₹ 9,232.30 Crores in the previous year, registering a growth of 7.3%. Consolidated Net Profit for the financial year ended 31 March 2018 is ₹ 1,004.23 Crores vis-à-vis ₹ 884.47 Crores in the previous year, registering a growth of 13.5%.

d. Subsidiaries, Associates and Joint Ventures Financial Performance

A report on the financial performance of each of the Subsidiaries and Associates included in the Consolidated Financial Statements is provided in Form AOC-1 and forms part of this Annual Report. The audited financial statements of all the subsidiaries are available on the website of the Company: www.britannia.co.in

Significant Development during the year

During the year under review, the Company incorporated a wholly owned Subsidiary in Nepal under the name of Britannia Nepal Private Limited.

e. Dividend

Your Board is pleased to recommend a dividend of 1250% which amounts to ₹ 25/- per share (face value ₹ 2 per share) for consideration and approval by the Members at the ensuing Annual General Meeting. The total dividend payout amounts to ₹ 361.84 Crores including dividend distribution tax of ₹ 61.70 Crores.

f. **Reserves**

Your Company has transferred an amount of ₹ 94.79 Crores to the General Reserve for the financial year ended 31 March 2018.

g. **Share Capital**

During the year under review, your Company has allotted 58,333 equity shares of ₹ 2 each upon exercise of 58,333 options under Employee Stock Option Scheme. Consequently, the paid up equity share capital of your Company has increased by ₹ 1,16,666 in the current year.

II. OPERATIONAL PERFORMANCE

a. **The Britannia Promise to Spread Delight**

Your Company's oath to deliver a unique and ecstatic experience to its consumers, by maximizing on aspiration-worthiness, cost-effectiveness and quality has continued to be the guiding principle of operations. Guided by the Britannia Promise, the Management of your Company constantly assesses the current state of its products versus the desired state. The rigour and commitment behind product innovations which delivered new-to-market experiences is a testimony to the promise forming the core of your Company. This reflects your Company's performance in the market place as well. Several opportunities are in the pipeline and will be rolled out in the coming year, each delighting consumers and strengthening our brand credentials.

Your Company recognizes that it is only as good as the last product it has delivered to consumers. Keeping this in mind, all employees of your Company continuously challenge themselves to ensure that the products that reach consumers are not only superior to competitors in their design but they also reach them with consistently high quality. Consequently, each employee of your Company maintains market-place-vigilance on a regular basis and is effectively an independent market information source reporting back into a mechanism designed to identify and correct market place deficiencies; if any, quickly and comprehensively.

b. **Supply Chain**

Your Company has been focusing on developing a competitive edge in manufacturing by deploying Cost Efficiency and Operational Excellence Programs across the value chain.

Your Company increased capacity at its plants in Perundurai, Bidadi, Jhagadia and successfully commissioned the lines at the greenfield facility in Guwahati. The lines at Mundra SEZ facility were commissioned in April 2018.

These initiatives have helped in creating the right capacity and capability using cost-efficient yet superior technology to meet the growing demand.

c. **Environment, Health and Safety**

Environment, Health and Safety are treated as core values at your Company. In order to promote a Zero Accident culture, your Company has strengthened its work place systems and practices through several accident prevention programs. A structured program to review and assess risks at machine levels has been initiated across the Company's manufacturing units. The new unit at Perundurai was certified for compliance to OHSAS 18001 system requirements and the unit at Bidadi is expecting its certification shortly. All other units are already certified under the OHSAS 18001 standard. A central EHS steering committee reviews the overall strategy and the status of actions implemented across all factories, on a monthly basis. This year, the Khurda factory was recognised by the Government of Odisha for the longest accident free hours and lowest reportable accident record for the year 2016.

d. **Quality Programs**

Your Company continued the journey to excel in food safety and quality delivery to provide delightful, safe and compliant products to consumers in every pack. Global food safety standards compliance through American Institute of Baking (AIB) confirmed to six of the manufacturing units on the back of significant capability building programs and food safety initiatives in units. One of the manufacturing units successfully cleared the USFDA Audit. All the existing manufacturing units are now certified for the International Food Safety Standards ISO 22000 and new units are under the certification process.

Your Company has a robust Vendor Quality Assurance Program which ensures delivery of quality materials on the back of capable vendor selection and performance monitoring through regular audits.

You would be happy to know that your Company's "Consumer Care Cell" is compliant to the 'Global Standards on Customer Satisfaction & Guidelines on Complaint Handling' and it sustained the ISO 10002 certification during the year.

e. **Research and Development (R&D)**

Your Company's investment in building R&D capacity and capability has started delivering results with the launch of new-to-market innovations, renovation of existing products, product and packaging value engineering and building readiness for launch of new adjacent category products in coming years. This should steer the Company into becoming a "Total Foods Company".

A new to the market product "Pure Magic Deuce" developed with a very unique, delightful and indulgent combination of crispy, chocolaty, thin biscuit and melt in mouth moulded chocolate. Your Company also launched three premium and great tasting cookies i.e. *Berries & Nuts*, *Choco & Nuts* and *Butter Almond* under a new sub brand "Good Day Wonderfulls". Good Day product range was further strengthened during the year with the launch of organoleptic superior *Choco Almond* and renovation of *Cashew* and *Chocochips*.

Your Company's journey to provide healthier choices to consumers continued with the launch of *Nutrichoice Oats Chocolate and Almond* made with goodness of whole wheat flour, oats and almond and delightful taste of choco chips. Your Company also launched a very tasty, chocolaty, fortified *Milk Bikes Good Morning* biscuits.

Your R&D team invested significantly to understand consumer expectations on cream sandwich category which led to development of organoleptically superior *Treat Funky Choco* and *Treat Kool Vanilla*.

Anemia among children is a big concern and to address this, micro-nutrients fortified and highly palatable biscuit delivering 50% RDA of Iron, Folic acid, Vit B1, B6 and B12 per serve has been developed for children. These biscuits are being distributed through Anganwadi program in North Karnataka district.

Your Company continued its work programs to optimize and reduce the usage of laminate and paper based products. You will be glad to know that your Company's Chemical and Mechanical testing laboratories are accredited now by the "National Accreditation Board for Testing and Calibration Laboratories (NABL) in accordance with ISO/IEC 17025:2005

f. **Conservation of Energy, Research and Development, Technology Absorption, Foreign Exchange Earnings and Outgo**

Details of energy conservation, technology absorption, foreign exchange earnings and outgo in accordance

with the provisions of Section 134 (3) (m) of the Companies Act, 2013 read with Rule 8 of the Companies (Accounts) Rules, 2014 are given as Annexure 'A' to this Report.

g. **Brands**

The mother brand Britannia is a household name – it has been dominating the biscuit category for 100 years, over 70% of Indian households consume Britannia products, which becomes 80% in urban India and a staggering 90%+ in metros. The number of Britannia packs sold in a month is the same size as the population of the country! As a Company, our true pride comes from the fact that Britannia products are as loved and relished by a 2 year old as they are by an octogenarian, across the length and breadth of the country.

2017 was another year of solid business performance with robust growth on topline and bottom line. We further consolidated our market leadership by widening the gap between us and our next competitor.

For the mother brand and the flagship brands, 2017 was a defining year. This year, we took up the task of addressing certain consumer segments where Britannia's connection was not so strong. At the same time, we strengthened our connections with our core consumers. We managed to do both of these by firstly identifying which of our brands could have meaningful conversations with which consumer constituencies. As the sole custodians of each constituency, our brands then had to push themselves to get insightful understanding of their 'most valued consumer' and develop messaging that is truly resonated with them.

In the process what emerged was our ability to address different consumers through different flagship brands and thereby enable the mother brand to come alive across the entire spectrum of consumers.

While Good Day spread optimism & happiness with families through its 'Smile more for a Good Day' campaign, 'Swasth Khao, Tan Mann Jagao' campaign of Marie Gold was focused on 'fueling the everyday athletes' in homemakers. Britannia Bourbon got youth together by being a 'fulfilling snack for fulfilling friendships' through its Bourbon Friends Forever (BFF) campaign, Treat inspired kids & tweens to have 'fun in the middle' of the mundane. Little Hearts on the other hand spoke the language of today's teens by urging them to 'Break

Some Hearts' and have some fun through its Break Some Hearts campaign.

While Nutri Choice championed the 'power of a good choice' among health seeking adults through its 'It all starts with a good choice' campaign, Milk Bikis focused on kids nutrition by urging them to focus on every day through its 'kalkeliyeroz' campaign. On the other end of the spectrum, Pure Magic brought an exciting proposition to indulgence lovers through the 'It's so Deuce' campaign.

Not only were these brand ideas brought alive through thematic campaigns, some brands took it a step further into experiential activations such as #GoPlaces on Britannia Marie Gold, #The Great International Family Holiday campaign on Good Day and #MyMilkBikisMyExperiences on Milk Bikis and built solid connections with consumers.

The real magic in our successful campaigns has come from the fact that they spoke of higher order life truths almost as easily as they brought alive the consumption context for each product.

Good Day & Marie Gold have democratized their offering and successfully upgraded consumers by breaking the price point & pack barriers. Good Day also drove the agenda of premiumisation by adding new, more indulgent variants such as Good Day Chocolate at the top end.

Nutri Choice being the dominant player in the health biscuits segment has the onus of expanding this niche category by leading the agenda on healthy products. The brand did this successfully with products like Digestive Zero and Oats cookies which not only broke the barrier of perceived lack of taste in healthy biscuits, but also made them extremely accessible.

We focus on innovations in 2 ways - plugging gaps in existing portfolio and truly path breaking, new-to-market product formats. While there were many innovations done in 2017, Good Day Wonderfulls and Treat were our biggest successes from the perspective of plugging portfolio gaps. On Treat, we ensured a superior mix coupled with a differentiated positioning and personality. On Good Day Wonderfulls, we premiumized cookies and gave consumers a superior experience.

On the disruptive innovation front, our single biggest innovation of the year has been the launch of Pure Magic Deuce. We believe, it is the first disruptive innovation in biscuits as well over 8 years.

The product which combines a slab of chocolate with a crispy biscuit has been the biggest step yet towards bringing together the two categories of biscuit & chocolate and creating a bridge product which keeps the original identity of its constituents intact.

The market success of our 2017 innovations have fueled our appetite to have an audacious, ambitious and consistent innovation pipeline, going forward.

In 2017, we crafted a robust digital marketing strategy for Britannia. We began by laying down a structured approach to address specific brand objectives through the digital medium. The five key digital marketing objectives that were identified were premiumisation, driving thought leadership, strengthening health credentials, strengthening youth connect and building niche brands solely through the digital medium. The content strategy that followed has emerged from an in-depth understanding of the digital consumer and how content is consumed on various platforms.

We have therefore had many digital firsts this year-whether it was the Good Day campaign done from the point of view of a Royal Indian Guard, or our decision to make Little Hearts a digital-only brand with an edgy take on heartbreaks, or setting up a digital radio channel called 'Campus Radio', in partnership with Gaana and Radio Mirchi, to enable everyday conversations with the younger audience. However, younger audience will continue to remain a challenge that we will work on innovatively over the next couple of years.

On our core bakery business, we will continue to see big gains from strengthening our core brands. At the same time, innovations will remain a focus area to tap into new consumer/consumption opportunities.

III. DIRECTORS

a. Appointment/Re-Appointment

In accordance with the provisions of Section 152 of the Companies Act, 2013 and the Articles of Association of the Company, Mr. Jehangir N Wadia, Non-Executive Director, retiring by rotation at the ensuing Annual General Meeting is eligible for re-appointment.

VIII. INTERNAL FINANCIAL CONTROLS

The details of adequacy of Internal Financial Controls are given in Clause (H) of the Management Discussion and Analysis Report.

IX. PENSION

In the suit filed by Britannia Industries Limited Pensioners Welfare Association (PWA), the Company received a judgement on 21 September 2015 from Honourable City Civil Court, Bangalore, in the matter of pension payable to its eligible beneficiaries. The Board of Directors of the Company reviewed the judgement and after obtaining legal opinion from eminent lawyers resolved to file an appeal in the higher court against the said judgement. Accordingly, the Company as well as the Pension Funds appealed against the Honourable City Civil Court's judgement in the Honourable High Court of Karnataka. In response to the appeals filed, the Honourable High Court of Karnataka, in its order dated 18 December 2015, referred the matter to Bangalore Mediation Centre for exploring the possibilities of a settlement. The PWA through their legal counsel had submitted that they will not precipitate execution before the trial court during mediation.

As a result of the mediation process, a Memorandum of Settlement (MoS) dated 29 August 2016 was entered into between the PWA, the Company and Pension Funds. As per the terms of the MoS and the Decree passed by the Honourable High Court of Karnataka dated 18 October 2016, the Company, inter alia, filed an application with the Honourable High Court at Calcutta for obtaining approval to use the fixed deposit held in the name of Covenanted Staff Pension Fund (CSPF) and interest thereon. In response to the petition filed by the CSPF, the Honourable High Court

at Calcutta passed an order wherein it directed the CIT, Kolkata to consider the representations made by the PWA, the Company and Pension Funds.

On 9 January 2017, the CIT passed an order wherein, in continuation to the show cause notice dated 11 April 2007, the approval accorded to the CSPF was withdrawn w.e.f. AY 2003-04 in view of Rule 91(2) of the Income Tax Rules, 1962. The CSPF filed a Writ Petition with the Honourable High Court at Calcutta against the said order of CIT, Kolkata. On 3 February 2017, while admitting the Writ, the Honourable High Court at Calcutta did not pass any interim order or grant stay against the order of the CIT, Kolkata. Aggrieved by the same, the CSPF filed an appeal in the Division Bench of Calcutta High Court which was heard on 10 March 2017 and the Calcutta High Court granted the stay. However, it restrained the Company from encashing the fixed deposit of ₹ 12.12 Crores. It also directed the single bench of the Calcutta High Court to dispose off the Writ Petition expeditiously. On 28 August 2017, the single bench of the Calcutta High Court remanded back the matter to CIT, Kolkata for deciding the original show-cause notice and the reply thereto in accordance with law. CIT, Kolkata passed an order on 6 October 2017 withdrawing the

original show cause issued and revoking the earlier CIT order de-recognizing the Pension Fund.

The Company and Pension funds, since then, have settled the amount payable to eligible pensioners, who have submitted the required document, under the Memorandum of Settlement approved by the Honourable High Court of Karnataka.

Related matters have been dealt within Note No. 41 of the Standalone Financial Statements and Note No. 43 of the Consolidated Financial Statements, which are self-explanatory.

X. ACKNOWLEDGEMENTS

Your Directors would like to thank all stakeholders, namely customers, shareholders, dealers, suppliers, bankers, employees and all other business associates for the continuous support given by them to the Company and its Management.

ANNEXURE 'A' TO THE DIRECTORS' REPORT

The information as required under Section 134 (3) (m) of the Companies Act, 2013 read with Rule 8 of the Companies (Accounts) Rules, 2014 is as follows:

A. CONSERVATION OF ENERGY

(a) Some of the energy conservation measures undertaken during 2017-18 are:

- (i) The program for deploying air pre heaters for energy recovery in ovens has been completed and is now being extended to third party manufacturing units as well.
- (ii) The Company has started sourcing solar power from a third party supplier in Karnataka. It has also finalised sourcing arrangements for wind power in Tamil Nadu, which is expected to operationalise shortly.

The Company has a structured energy reduction program. As part of the program, factories with high energy consumption, benchmark themselves against the factory with the lowest consumption. A cross functional team then studies the best practices that can be replicated and implement them as per time bound plan.

(b) Additional investments and proposals, if any, being implemented for reducing energy consumption:

The Company invested about ₹ 3.8 Million in capital expenditure at its various units towards the energy reduction program in FY 2017-18.

(c) Impact of measures at (a) and (b) above:

- (i) Overall specific heat energy consumption (energy consumed per ton of product), has reduced by about 8% and specific power consumption has reduced by about 4%.
- (ii) The Company expects to save approximately ₹ 1.28 Crores in power sourcing costs in FY 2018-19.

B. TECHNOLOGY ABSORPTION

(a) Efforts in brief made towards absorption, adaptation and innovation:

During the year, your Company initiated pilot runs in the areas of automation and technology upgradation:

- (i) Primary packaging automation was completed in the hard dough line at the Jhagadia factory in Gujarat.
- (ii) Design upgrades were finalised to the thermic fluid oven designs for the upcoming Ranjangaon greenfield plant. This should increase the throughput and efficiencies of these ovens.
- (iii) The imported rusk line commissioned at SEZ, Mundra in April 2018.
- (iv) The minor and micro ingredient handling system was successfully commissioned in IBPL. Pondicherry unit last year has been installed and has been commissioned in the greenfield plant at Guwahati. Another unit will be installed in the Jhagadia unit later in FY 2018-19.

(b) Benefits derived as a result of the above:

- (i) Significant increase in labour productivity.
- (ii) The Company expects an increase in throughput capability of its thermic fluid oven designs and consequently a lower specific fuel consumption in the Ranjangaon greenfield plant.
- (iii) Improved labour productivity and superior product quality.
- (iv) Enhanced process capability to give superior and consistent product quality.

(c) Details of imported technology:

- (i) Your Company commissioned the imported rusk line at SEZ, Mundra in April 2018.
- (ii) The operation of the state of the art cookie capper line at Bidadi commissioned in last year March, has been stabilised. A new differentiated product has been identified and is proposed to be rolled out of this line later this year.

C. RESEARCH AND DEVELOPMENT

i. Core areas of Research by the Company:

Your Company's R&D team is building significant capabilities in delivery of consumer winning innovations, new-to-the-market

products, renovation of the core to meet the expectations of evolving consumer taste requirements. Also, stronger health and wellness work programs and food safety programs were carried out to ensure safety of the delivered products to consumers.

ii. **Benefits delivered as a result of above R&D initiatives:**

On the back of above, your Company is able to innovate in the core categories, launch new to the market disruptive innovations, renovate the core, build delightful healthier product offerings, and offer organoleptically superior products at affordable price.

2	Promoting preventive health Care at Nowrosjee Wadia Maternity Hospital (NWMH)		Mumbai, Maharashtra		₹ 7.77		Direct

This year, the Company joined hands with Sir Ness Wadia Foundation by contributing ₹ 14.37 Crores of its CSR funds towards health care projects for mother, child and nutrition. In continuation to the commitment of the refurbishment of Nowrosjee Wadia Maternity Hospital, the Company contributed ₹ 7.77 Crores to this project. The refurbishment and upgradation of the hospital is now in the second year and is scheduled to be completed by 2020.

The healthcare projects include upgradation of Nowrosjee Wadia Maternity Hospital and continuous improved service delivery at Bai Jerbai Wadia Hospital for Children & Research Centre and a Nutrition Program with Britannia Nutrition Foundation.

i. Sir Ness Wadia Foundation:

Sir Ness Wadia Foundation (SNWF), a registered non-profit organization was established in 1969; set up to work for the empowerment of the underprivileged sections of our society. It aims to fulfil their basic needs of health, education and livelihood, and strives to create empowered, self-sustainable communities.

Inspired by the life and work of the renowned industrialist and philanthropist Sir Ness Wadia, SNWF is one of India's oldest philanthropic institutions, and has played a pioneering role over the years in bringing about a positive change in the society.

The Foundation provides hope, empowerment and an improved quality of life to less fortunate individuals. Through a long journey from its inception, SNWF has evolved into an organization of exceptional repute, providing incomparable services in the fields of education, health care, community development and relief & rehabilitation.

ii. Upgradation of Nowrosjee Wadia Maternity Hospital (NWMH)

Nowrosjee Wadia Maternity Hospital, established in the year 1926 in Mumbai to provide affordable comprehensive healthcare and super speciality services for women. The hospital specialises in offering affordable obstetric and gynaecological services to women across all sections of society, catering to their changing needs through different stages of their lives. It also acts as a tertiary level referral centre as well as helps rehabilitate these women and their families by showing them methods of improving the health and sanitation around their environment and thus ensuring a healthy life for their whole family.

A 305 bedded hospital, which treats over 1,00,000 outpatients and 10,000 inpatients annually. In addition, as a teaching hospital, it also has a constant influx of aspiring doctors who get trained under some of the best specialists in the country. The refurbishment and upgradation of the hospital would be carried out over the period 2017 – 2020.

The upgraded hospital will have 7 operation theatres, dedicated labour wards and oncology units along with additional scope of services and increased specialities to provide comprehensive care to all women under one roof.

iii. Continuous Improved Service Delivery at Bai Jerbai Wadia Hospital for Children (BJWHC)

Bai Jerbai Wadia Hospital for Children and Research Centre (BJWHC) established in 1929, strongly focusses on providing preventive healthcare to children in rural, semi-urban and urban communities. Today BJWHC is the leading pediatric teaching institute with one of the largest Neonatal Intensive Care Unit (NICU) in the world with 155 beds. The hospital can accommodate around 525 patients equipped with more than 30 sub-specialties, providing comprehensive care to children under one roof. BJWHC has well established centres of excellence in Paediatric Cardiology, Neurology, Nephrology, Orthopaedics and Haematology to name a few.

BJWHC sees an inflow of over 1,50,000 patients on an outpatient basis and more than 15,000 children on an inpatient basis. BJWHC also reaches out to the community by conducting outreach medical camps to benefit the tribal population in Palghar district. During this year, the hospital has identified and treated 2390 SAM and MAM children of which 166 children were referred to the hospital for further treatment. Similarly, 487 pregnant women were medically examined of which 27 were referred to the hospital for further treatment.

To meet the continuous demand of patients and in order to provide services under one roof, there is constant need for upgradation of services and technology at Bai Jerbai Wadia Hospital for Children. The current need is for upgrading of imaging services with MRI machine and providing ventilators to meet the demand for NICU services to new born babies and hence reducing mortality rates. More than 6000 patients are referred out of the hospital annually for advanced imaging magnetic resonance imaging (MRI). All patients cannot afford MRI in private setups. With cardiac surgery department commencing operations and neurology department expanding along with other speciality services, it is essential to start an in-house imaging set up within BJWHC to cater to children who cannot afford these services in private hospitals with the available clinical teams.

Similarly, over 3,500 babies were seen in the NICU last year at BJWHC. Today, the City of Mumbai requires additional 500 NICU beds to cater to the demand arising from patients within the city and immigrant patients. The waiting list per day is not less than 10 patients who require ventilator support. With the aim of reducing the waiting list and providing NICU services to the needy at affordable costs, the hospital will be supported by 14 ventilators.

Bai Jerbai Wadia Hospital for Children and Research Centre has received multiple National and International awards and recognitions such as **International Quality Award for Excellence in Child Health Care Services; Outstanding Achievement Award in HealthCare – Social Cause and the Best use of Six Sigma in Healthcare** to name a few.

iv. **Britannia Nutrition Foundation (BNF)**

Britannia Nutrition Foundation (BNF) was set up in 2009 to help secure every Child's Right to Nutrition and Growth by implementing sustainable and replicable programs, pursuing product innovation and research, addressing core and allied causes for malnutrition and assuming responsibility for the nourishment and vitality of the community.

The key initiatives of the BNF in FY 2017- 18 were as follows:

Community development and nutrition programs were undertaken across 6 states, reaching a total of 12,750 children. The programs were executed in geographies around 9 of Britannia's factories with a focus on reducing malnutrition among children & women. The programs had participation from local government bodies and anganwadis, local primary schools and primary health centres to distribute fortified biscuits to children. Other support programs like counselling programs for parents, organizing health checks in villages, infrastructure improvement of anganwadis have also been taken up.

The BNF partnered with the Govt. of Karnataka to provide Iron fortified Tiger choco glucose biscuits to anganwadi children in Uttar Kannada district, Karnataka. The program reaches 43,260 children between 3- 6 years of age across 2,684 anganwadis. Each child gets 10 biscuits a week as part of the overall nutrition program in the anganwadis.

Around 55 metric tons of specially formulated, Iron Fortified Tiger Choco Glucose biscuits have been distributed, free of cost, this year, with the aim of addressing Iron deficiency Anemia.

Britannia launched the first Employee Volunteering Program called 'Britannia Big Hearts'. The program aimed to provide meaningful volunteering opportunities to employees, motivate social responsibility and creating Volunteer Champions. 236 employees were engaged in the initiative, 944 volunteering hours clocked, and 1,735 students were reached across 17 schools.

6. **The CSR committee confirms that the implementation and monitoring of CSR Policy is in compliance with CSR objectives and Policy of the Company.**

AUDITOR'S CERTIFICATE

To the Board of Directors of Britannia Industries Limited

Independent Auditor's Certificate on compliance of regulations for Employee Stock Option Scheme of the Company

This certificate is issued in accordance with the terms of our engagement letter dated 13 November 2017 and addendum letter dated 1 May 2018.

As requested, we have examined the Britannia Industries Limited Employee Stock Option Scheme ('the ESOS') of Britannia Industries Limited ('the Company') to determine whether the ESOS implemented thereof is in accordance with the provisions of the Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014 ('the SEBI Guidelines') for the period 1 April 2017 to 31 March 2018. We understand that this certificate is required to be submitted to the National Stock Exchange of India Limited and the BSE Ltd., Mumbai for the purposes of complying with their regulations. The ESOS was approved by the shareholders at its Annual General Meeting held on 28 July 2008 and duly amended by the special resolutions passed by the shareholders at its Annual General Meeting held on 9 August 2010 and 6 August 2011.

Management responsibility

Management is responsible for maintaining the information and documents which are required to be kept and maintained under the relevant laws and regulations, implementing the ESOS in accordance with the SEBI Guidelines and the resolutions passed at the annual general meeting of the Company and establishing and maintaining effective internal control for properly recording the information related to the ESOS in the records maintained by the Company.

Auditor's responsibility

Pursuant to this, our responsibility is to express reasonable assurance in the form of a certificate whether the Company has implemented the ESOS in accordance with the relevant provisions of the SEBI Guidelines.

We conducted our examination in accordance with the 'Guidance Note on Reports or Certificates for Special Purposes' issued by the Institute of Chartered Accountants of India. The Guidance Note requires that we comply with the ethical requirements of the Code of Ethics issued by the Institute of Chartered Accountants of India.

We have complied with the relevant applicable requirements of the Standard on Quality Control (SQC) 1, Quality Control for firms that Perform Audits and Reviews of Historical Financial Information, and Other Assurance and Related Services Engagements.

Opinion

In our opinion and to the best of information and according to the explanations given to us and representations made by the Management, we state that the Company has complied with the relevant provisions of the SEBI Guidelines.

We state that such compliance is neither an assurance as to the future viability of the Company nor as to the efficiency or effectiveness with which the Management has conducted the affairs of the Company.

Restrictions on use

This Certificate is issued solely for the purpose of complying with the SEBI Guidelines for the period 1 April 2017 to 31 March 2018 and may not be suitable for any other purpose.

(Pursuant to Section 204 (1) of the Companies Act, 2013 and Rule No. 9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014)

To,
The Members,
Britannia Industries Limited

We have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by Britannia Industries Limited (hereinafter called "the Company"). Secretarial Audit was conducted in a manner that provided us a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing our opinion thereon.

Based on our verification of the Company's books, papers, minute books, forms and returns filed and other records maintained by the Company, the information provided by the Company, its officers, agents and authorised representatives during the conduct of secretarial audit, the explanations and clarifications given to us and the representations made by the Management, we hereby report that in our opinion, the Company has, during the audit period covering the financial year ended on 31 March 2018, generally complied with the statutory provisions listed hereunder and also that the Company has proper Board processes and compliance mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

We have examined the books, papers, minute books, forms and returns filed and other records made available to us and maintained by the Company for the financial year ended on 31 March 2018 according to the applicable provisions of:

- (i) The Companies Act, 2013 (the Act) and the rules made thereunder;
- (ii) The Securities Contract (Regulation) Act, 1956 ('SCRA') and the rules made thereunder;
- (iii) The Depositories Act, 1996 and the Regulations and Bye-laws framed thereunder;
- (iv) Foreign Exchange Management Act, 1999 and the rules and regulations made thereunder to the extent of Foreign Direct Investment, Overseas Direct Investment and External Commercial Borrowings;
- (v) The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act'):

- (a) The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;

MANAGEMENT DISCUSSION AND ANALYSIS

(A) INDUSTRY STRUCTURE AND DEVELOPMENT

Your Company operates in the packaged food segment.

Bakery

India's Bakery Industry comprises several sub-categories, of which Biscuit is the largest category accounting for nearly two-third of the revenue. Bread, cake and rusk constitute the majority of its remaining one-third. Bakery categories have experienced healthy growths ranging from 8-12% over the past 5 years.

Biscuit

India's biscuit market stands at ₹ 32,000 Crores and is projected to grow at a CAGR of 11.27% in value terms, during 2018-2022. Rising number of health-conscious consumers, expanding working population and increasing urbanization are boosting the country's biscuit market. Moreover, augmenting disposable income along with changing lifestyle, increasing health and hygiene awareness and change in food consumption patterns are expected to propel demand for biscuits over the next five years.

The biscuit category has witnessed strong and sustained growth in the last decade based on two factors viz. per capita volume of consumption and premiumisation of products. But India does continue to be at the lower end of the scale on both these critical factors. The low per capita consumption relative to certain developed economies points to significant headroom and opportunity for category growth. The upside of course is that biscuits is a hugely penetrated category (90%+ households) in the country and the large category foundation should aid companies in trying out innovative offerings and scaling them up.

The key attributes of the category are a highly convenient form, above par organoleptic delivery and the baking process itself which has a strong health quotient attached to it. Also strong competitive activity has prodded each player to focus on innovations to spur sustainable growth.

An overall stable and growing economy will benefit the biscuits category.

Cake

Cake continues to be an under-developed category, although has witnessed some developments in the last few years. However, the category is developing fast with new formats, new price points, and development of eggless packaged cake. Your Company is also keeping abreast of such market developments and working on its portfolio and intends to keep pace and lead the market in new product development to retain its strong market share and competitive position.

Rusk

Double baked bread, otherwise known as Rusk or Toast, is a traditional category, but has seen a revival in recent years, driven by efforts by your Company. Your Company which is already the leader in this space, has launched a new brand "Toastea", offered innovative milk rusk to its consumers and has further enhanced product quality.

Bread

Bread, which is mostly sliced bread in India has been a bastion of strength for your Company for over sixty years. In the face of enhanced competition, your Company has taken steps to upgrade its manufacturing capabilities, product quality, and also range of offerings beyond sliced bread. Your Company has also grown its whole wheat and brown bread range well. Though bread has short shelf life and great price competitiveness, your Company has taken painstaking efforts to continuously use various business models to make sure that more and more consumers enjoy our bread.

Adjacent Business

Your Company endeavours to enter into categories which are adjacent to the current businesses to ensure that it captures business opportunities that might otherwise be lost. One such opportunity is filled croissants, which the Company intends to enter in the coming year. This is in collaboration with a world leader Chipita, a leading Greek snack food Company. Your Company will also, on an ongoing basis evaluate other segments to enter into so that it continuously makes progress towards becoming a "Total Foods Company".

Dairy

India has remained the largest producer and consumer of dairy. The milk processing sector has been growing in double digits in the last few years. However, 80% of milk produced is still unprocessed and sold loose or consumed by producer farmer. As the demand from processing industry continues to grow and outpace the milk production growth, milk collection for processing will remain a challenge and a big driver for milk economics in future.

With rising urbanization and higher proportion of working women, time has become a precious commodity and there is higher tendency to use ready to eat quality products of milk such as curd and ghee. With changing lifestyles there is significant change in eating habits as well, which has made value added products (such as cheese and butter) an essential item in the monthly grocery list; at least in urban India and the trend is expected to follow in rural areas as well. Rising disposable income and availability of quality products from private dairy players has aided the growth of value added milk products in last decade. Consumers have become more brand conscious as there is consistency in quality and taste in products supplied by private dairy players vis a vis that of traditional milkmen.

Over the last two decades with increasingly hectic lifestyles and rising consciousness over health issues, urban consumers do not mind paying a premium for quality products leading to opportunities in premiumization. The key levers of success going forward are likely to be:

- a) Access to quality milk as basic raw material and efficient manufacturing capabilities.
- b) Right product portfolio.
- c) Building an appropriate cold chain infrastructure across the chain.
- d) An advantaged Go-To-Market system.

(B) BUSINESS STRATEGY

Strengthen position in bakery

Your Company accelerated growth by a three-pronged approach in the Biscuit, Cake and Rusk category. First, in categories where we are strong, we built category relevance thereby building penetration and consumption. Secondly, for

categories where we are relatively weak, competitive mixes were built; third, we focused on innovations in 2 ways - plugging gaps and white spaces in existing portfolio that could be high value yielders and truly path breaking, new-to-market, disruptive product formats.

On our core bakery business, we will continue to see big gains from focusing on upgrades from value to core segments, strengthening our core brands and expanding their distribution footprint.

Product innovation, 'premiumisation and democratization' have been a focused relentlessly by your Company: Making premium products available at affordable price points to address the consumer at lower end of pyramid has driven reach, strengthened brand equity and grown our margins.

The LUP (Low Unit Packs) have become a significant growth driver for the portfolio. Not only do the LUP packs work well in rural geographies to recruit consumers into the premium category but have in fact also become the preferred SKUs for on - the - go, convenience seekers across urban geographies as well.

Your Company handled rising competitive intensity with agility and fortified all key parts of the portfolio, maintaining strong focus on profitability and market share.

Your Company strengthened and expanded sales and distribution network in rural areas, introduced the right price points, drove them aggressively and activated our brands in semi-urban and rural areas through visibility and brand experiences. The Rural Preferred Dealers Program was further strengthened in the year.

With these initiatives, your Company is establishing a wide and reliable pipeline, which will be of great value as more and more consumers switch from local or home-made foods to packaged foods.

Cake

The key strategic task in cake is to expand the size of the segment, by including more consumers into the fold, and widening distribution. The former will be achieved by offering organoleptic experiences at affordable price points including eggless offerings which allow for continuous category development and growth for your Company's business.

Rusk

The strategic intent for rusk is to gain from the unorganized segment, by offering superior products in terms of organoleptic delivery at affordable price points. The other thrust shall be on being category leaders in thought as we have been for the last decade, and drive category development.

Bread – Managing profitability, while growing the business is the key thrust area of your Company. We will achieve this through managing our product mix, as well as ensuring that we have the right balance of business evolution in high volume as well as high profit markets. Healthier segments are still small, but are attractive to target, but equally, managing manufacturing economics by selling large volumes of mass sliced bread remains a critical factor.

Adjacency Businesses

The JV with Chipita for filled croissants is but a first step in the direction of taking your Company into adjacent spaces. Your Company will also be evaluating other spaces and then create a pipeline of products to launch over the coming years in order to have new engines of growth and profitability. The intention will be to launch products which also target the same snacking occasions that we target today but with new and innovative products.

Dairy

Your Company continues to drive the development of a differentiated portfolio and in line with the overarching corporate strategy has been working on further strengthening the organoleptic performance of its products.

While, there are multiple players entering this industry, your Company is also evaluating various options to strengthen its position in this industry. Your Company is continuously extracting benefits from an integrated sales and distribution system and is also evaluating the viability of a fully integrated business model.

As a strategic thrust to strengthen back end capabilities, your Company has commenced a milk procurement pilot in Maharashtra and the results have been encouraging. In the coming year, the approach will be to scale up the pilot. In addition, your Company is investing in people capability

and creating domain expertise to take the business forward as we expand our front end and create an efficient back end.

Your Company recognizes the importance of a strong cold chain and will implement various initiatives across our back end and front end to enable portfolio growth. The business will also identify more opportunities to optimize cost structurally across the value chain.

International Business

Your Company has promoted Biscuit and Bakery business beyond India to the world and now present in 79 countries with an addition of 13 new markets in 2017-18. Your Company ranks as No. 2 or No. 3 in almost all lower gulf countries and a key challenger in Kingdom of Saudi Arabia (KSA). In Nepal, your Company has achieved leadership position as No.1 player.

Your Company will work upon expanding business in GCC Countries through improving distribution network, penetration in Arab households with innovations and brand building in prioritized segments namely premium creams, digestives and rusks. It will further activate new plans for non-Indian Asian consumers, enlist more products in modern trade and drive this channel aggressively.

In all other export markets across Americas, Asia and Africa, your Company will develop business through enhancing distribution, listing in mainstream channels and strong in-market activation to build consumer connect.

Your Company commissioned a dedicated Exports unit in SEZ location in Mundra in April 2018. Further, your Company is in process of setting up of local manufacturing facility in Nepal to enhance its international presence.

(C) SEGMENT INFORMATION

The primary business segment of your Company is Foods.

(D) OUTLOOK

Indian economy has faced headwinds in the past couple of years. Consumer facing businesses which were on the path to historical growth were impacted by some significant economic events in November/

December but have since been inching back to normalcy with some distance to cover. We expect that full recovery and a restoration of growth rate to the previous levels may start in the coming fiscal year.

This overall economic environment will impact all our businesses but we expect that we will be able to tide over it better than industry on account of strong brand, relatively lower dependence on wholesale channel and a culture of thrift that has been institutionalised.

(E) OPPORTUNITIES AND THREATS

Bakery

Rising aspiration of consumers enabled by higher income is the largest opportunity for your Company.

Past work in exploration and capability building, positions your Company to uniquely undertake the following growth journey:

1. Disruptive innovations in the core bakery categories of Biscuit, Cake and Rusk;
2. Expansion into adjacent bakery categories;
3. Exploit the large and profitable international markets leveraging brand Britannia heritage and bakery expertise and
4. Strengthening of footprint in hitherto weaker geographies in India e.g. North and Rural.

Primary threat will be from competitors who see the same opportunities and are investing to tap them.

A combination of consumer relevant innovations, superior quality delivery, further expansion of distribution and the inherent strength of Brand Britannia made more potent through judicious investments will help your Company address these threats.

Cake, Rusk, Bread & Adjacencies

Sharper economic growth, increasing consumer expectations, busier lifestyles and consumption occasions are likely to benefit these businesses greatly:

1. New cake formats and the availability of delightful products in convenient packages at affordable price points.

2. Gaining from the unorganized segment, as well as opportunities to offer consumers new rusk experiences.
3. Healthier segment in bread, as well as geographical expansion are key opportunities.
4. Widening the ambit of adjacent businesses, and gaining in entirely new categories can be a high growth opportunity for your Company.

These segments are however, seeing heightened competitive activity, and the entry of and emergence of a new generation of competitors who did not hitherto exist. Your Company has taken serious note of such developments, and is putting in place steps to address this.

Dairy

The Dairy industry is witnessing tailwinds across most categories. These include both value added and commoditized segments. Making the right category choices and building differentiated capabilities and momentum in these will be critical as we build our portfolio.

Infrastructure improvement including cold chain that aids easier distribution is another opportunity. This will be especially important in the front end, in retail shops.

Increased competitive activity and good quality milk availability are two of the biggest challenges seen by your Company. Differentiation in the products and leveraging the larger sales system will be key to meeting competitive challenges. As already mentioned, your Company has started the process of building milk procurement capabilities in order to derisk our sourcing funnel and to ensure consistency in quality of raw material.

International Business.

The overall economic environment in GCC continues to be volatile resulting into sluggish market demand and biscuit category growth continues to be flat or declining in some markets. Slowdown environment and decline in consumer demand is further accentuated through various inflationary interventions like introduction of VAT, job layoffs & exodus of Indian diaspora in markets like KSA. Also the Qatar crisis is envisaged

to continue and impact demand and cost to serve the market. Other large markets for Britannia like Yemen and Libya continue to decline due to ongoing political instability/war situation.

In the above environment, your Company's growth will come largely through share gain and the Company has geared up for stimulating demand through acquiring new consumers and consumption occasions. This will be delivered through innovation in products, packs and promotions.

Developed markets such as USA, Canada and Australia have also experienced a slowdown in immigration. However, the Company expects rapid growth through distribution expansion and entering new markets.

(F) RISKS AND CONCERNS

The growth of our portfolio is linked to the overall economic growth. Primary risk to the business will be on account of adverse changes to the economy. Volatility in commodity prices is the other significant risk.

(G) FINANCIAL AND OPERATIONAL PERFORMANCE

The key standalone financials are as under:

Particulars	₹ in Crores	
	2017-18	2016-17
Sale of goods	9,282.04	8,581.55
Profit before tax	1,445.20	1,251.16
Net profit	947.89	843.69

(H) INTERNAL CONTROL SYSTEMS AND ADEQUACY

Your Company's Internal Control Systems are commensurate with the nature, size and complexity of its business and ensure proper safeguarding of assets, maintaining proper accounting records and providing reliable financial information.

The Directors have laid down internal financial controls to be followed by the Company and such policies and procedures have been adopted by the Company for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting

records and the timely preparation of reliable financial information.

An external independent firm carries out the internal audit of the Company operations and reports its findings to the Audit Committee on a regular basis. Internal Risk & Control function also evaluates organisational risk along with controls required for mitigating those risks. Internal Audit provides assurance on functioning and quality of internal controls along with adequacy and effectiveness through periodic reporting.

Your Company has a Code of Business Conduct for all employees and a clearly articulated and internalized delegation of financial authority. These authority levels are periodically reviewed by management and modifications, if any, are submitted to the Audit Committee and Board for approval. Your Company also takes prompt action on any violations of the Code of Business Conduct by its employees.

During the year under review, the Internal Financial Control (IFC) Audit was carried out by the Statutory Auditors, the Report of which is forming part of the Annual Report.

(I) HUMAN RESOURCES AND INDUSTRIAL RELATIONS

Your Company is committed to create an environment of openness, drive an effective and transparent performance culture and build a culture of appreciation and transparent communication. Your Company continues to build on the engagement level of the employees as measured through annual employee engagement survey. The feedback of the employees on HR practices are improving which is helping your Company to have a collaborative, open and transparent culture. Your Company has improved its feedback score on all HR practice areas and continues to strengthen its practices basis the feedback received. Recognition and Appreciation culture in the Company has been further strengthened. Your Company continues to drive "Britannia for Britanniains" and "Young Manager Council" for better engagement of employees and inclusion of different generations in decision making. Young Manager travelled to different countries to understand food products and youth preference of those countries and presented to

management their ideas and recommendations on new products some of which are being incorporated in this year plans.

During the year under review, your Company has focused on building Online training system by getting into a tie up with one of the leading online training provider. Online system will provide your employees with flexibility in choosing learning courses for themselves at their own learning pace. Your Company has continued to maintain amicable Industrial Relation footprint by focusing on increased worker level engagement through formal and informal communication and training forums.

As of 31 March 2018, your Company had 3,794 employees on its rolls.

(J) CAUTIONARY STATEMENT

Statements in this Management Discussion and Analysis describing the Company's objectives, expectations or predictions may be forward looking within the meaning of applicable laws and regulations. Actual results could differ materially from those expressed or implied. Important factors that could make a difference to your Company's operations include raw material availability and prices, cyclical demand and pricing in the Company's principal markets, competitive actions, changes in Government regulations, tax regimes, economic developments in India and in countries in which the Company conducts business and other incidental factors.

AUDITORS' CERTIFICATE ON CORPORATE GOVERNANCE

To the Members of Britannia Industries Limited

Independent Auditor's Certificate on Compliance of Corporate Governance Report

This certificate is issued in accordance with the terms of our engagement letter dated 13 November 2017 and addendum dated 1 May 2018.

Britannia Industries Limited ('the Company') requires Independent Auditor's Certificate on Corporate Governance as stipulated in Regulations 17 to 27, Clauses (b) to (i) of Regulation 46(2) and paragraphs C and D of Schedule V of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ('Listing Regulations') for the period 1 April 2017 to 31 March 2018.

Management Responsibility

The preparation of the Corporate Governance Report is the responsibility of the Management of the Company along with the maintenance of all its relevant supporting records and documents. The Management is responsible for ensuring that the Company complies with the requirements as stipulated in Regulations 17 to 27, Clauses (b) to (i) of Regulation 46(2) and paragraphs C and D of Schedule V of the Listing Regulations for the period 1 April 2017 to 31 March 2018. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the report and applying an appropriate basis of preparation.

Auditor's Responsibility

Pursuant to the requirements of the Listing Regulations, our responsibility is to certify whether the Company has complied with the above said compliances of the conditions of Corporate Governance for the period 1 April 2017 to 31 March 2018.

We have examined the compliance of conditions of Corporate Governance by the Company for the period 1 April 2017 to 31 March 2018 as per Regulations 17 to 27, Clauses (b) to (i) of Regulation 46(2) and paragraphs C and D of Schedule V of the Listing Regulations. Our examination was limited to procedures and implementation thereof, adopted by the Company for ensuring the compliance of the conditions of the Corporate Governance. It is neither an audit nor an expression of opinion on the financial statements of the Company.

We conducted our examination in accordance with the 'Guidance Note on Reports or Certificates for Special Purposes' issued by the Institute of Chartered Accountants of India. The Guidance Note requires that we comply with the ethical requirements of the Code of Ethics issued by the Institute of Chartered Accountants of India.

We have complied with the relevant applicable requirements of the Standard on Quality Control (SQC) 1, Quality Control for firms that Perform Audits and Reviews of Historical Financial Information, and Other Assurance and Related Services Engagements.

Opinion

In our opinion and to the best of information and according to the explanations given to us and representations made by the Management, we certify that the Company has complied with the conditions of Corporate Governance as specified in Regulations 17 to 27, Clauses (b) to (i) of Regulation 46(2) and paragraphs C and D of Schedule V of the Listing Regulations, as applicable.

We state that such compliance is neither an assurance as to the future viability of the Company nor as to the efficiency or effectiveness with which the Management has conducted the affairs of the Company.

Restriction on use

This certificate is issued solely for the purpose of complying with the relevant regulations of the Listing Regulations for the period 1 April 2017 to 31 March 2018 and may not be suitable for any other purpose.

SECTION E: PRINCIPLE-WISE PERFORMANCE

Principle 1: Businesses should conduct and govern themselves with Ethics, Transparency and Accountability

1.	Does the policy relating to ethics, bribery and corruption cover only the Company? Yes/ No. Does it extend to the Group/Joint Ventures/Suppliers/Contractors/NGOs /Others?	The Company has defined the Code of Conduct for its Directors and employees that cover issues related to ethics, workplace responsibilities and conflict of interest. It also covers all dealings with suppliers, customers and other business associates. Further, the Company has adopted a Whistle Blower Policy to provide a mechanism for employees and Directors of the Company to approach the Ethics Committee or Chairman of the Audit Committee and Risk Management Committee of the Company for reporting unethical behaviour, actual or suspected, fraud or violation of the Company's code of conduct.
2.	How many stakeholder complaints have been received in the past financial year and what percentage was satisfactorily resolved by the management?	During the year, a total of 6 complaints and issues from employees/other stakeholders were reported under Code of Business Conduct (COBC) and the same have been satisfactorily resolved in accordance with the COBC procedures.

Principle 2: Businesses should provide goods and services that are safe and contribute to sustainability throughout their life cycle

Environment, health and safety continue to be key focus areas and the Company strives to reduce its environmental impact through various initiatives in the field of Energy Efficiency and Conservation.

<p>1. List up to 3 of your products or services whose design has incorporated social or environmental concerns, risks and/or opportunities:</p>	<p>As an environmentally conscious Company, we continue to innovate and use efficient technologies to bring down our strain on ecology, for example- all our products have got “Keep your city clean” symbol on the pack.</p> <p>We constantly re-engineer package laminate and paper based packaging in order to use less plastic and paper.</p>
<p>2. For each such product, provide the following details in respect of resource use (energy, water, raw material etc.) per unit of product (optional):</p>	<p>Details of conservation of energy are given in Annexure-A of the Directors’ Report.</p>
<p>3. Does the Company have procedures in place for sustainable sourcing (including transportation)?</p>	<p>Across the entire supply chain, the Company endeavours to integrate social, ethical and environmental factors in its operating/ strategic decisions. The Company endeavours to reduce the distance travelled overall by its products, thereby reducing emissions on account of transportation.</p>
<p>4. Has the Company taken any steps to procure goods and services from local & small producers, including communities surrounding their place of work?</p>	<p>The Company believes its factories must benefit the communities in which they are located. It sources most of the raw materials from areas near the factories. It extensively works with its vendors to improve capacities and capabilities.</p>
<p>5. Does the Company have a mechanism to recycle products and waste? If yes what is the percentage of recycling of products and waste (separately as <5%, 5-10%, >10%)?</p>	<p>The Company while pursuing energy efficiency programs in the factories also takes initiatives for recycling of wastes generated during production. Most of the Company’s factories are committed to zero discharge. About 5% of the exhaust gases generated in the ovens are recycled to recover heat and also water from the effluent treatment plants is recycled within the factories to maintain greenbelts / gardens/ landscapes.</p>

Principle 3: Businesses should promote the wellbeing of all employees

Britannia firmly believes that the knowledge, expertise and passion of its employees drive the growth of the Company. It provides the work environment that promotes well-being of its employees while giving them various opportunities to grow. It has adopted various policies, procedures, manuals and conducted various training programs for the protection and welfare of the employees.

<p>1. Total number of employees on rolls</p>	<p>3,794</p>
<p>2. Total number of employees hired on temporary/contractual/casual basis</p>	<p>7,460</p>
<p>3. Number of permanent women employees</p>	<p>196</p>
<p>4. Number of permanent employees with disabilities</p>	<p>Nil</p>

INDEPENDENT AUDITOR'S REPORT

To the Members of Britannia Industries Limited

Report on the Audit of the Standalone Ind AS Financial Statements

We have audited the accompanying standalone Ind AS financial statements of Britannia Industries Limited ("the Company"), which comprise the Balance Sheet as at 31 March 2018, the Statement of Profit and Loss, the Statement of Changes in Equity, the Cash Flow Statement for the year then ended and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the standalone Ind AS financial statements").

Management's Responsibility for the Standalone Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone Ind AS financial statements that give a true and fair view of the state of affairs, profit/loss and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibility

Our responsibility is to express an opinion on these standalone Ind AS financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit of the standalone Ind AS financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the standalone Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the standalone Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the standalone Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the standalone Ind AS financial statements.

We are also responsible to conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the entity's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in the auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify the opinion. Our conclusions are based on the audit evidence obtained up to the date of the auditor's report. However, future events or conditions may cause an entity to cease to continue as a going concern.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with

the accounting principles generally accepted in India of the state of affairs of the Company as at 31 March 2018, its profit and other comprehensive income, its changes in equity and its cash flows for the year ended on that date.

Report on Other Legal and Regulatory Requirements

ANNEXURE B TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE STANDALONE IND AS FINANCIAL STATEMENTS OF BRITANNIA INDUSTRIES LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to the financial statements of Britannia Industries Limited ("the Company") as of 31 March 2018 in conjunction with our audit of the standalone Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control with reference to the financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting ('Guidance Note') issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to the financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to the financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to the financial statements and their operating effectiveness. Our audit

of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to the financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to the financial statements.

Meaning of Internal Financial Controls with reference to the financial statements

A Company's internal financial control with reference to the financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control with reference to the financial statements includes those policies and procedures that:

- (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;
- (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and
- (iii) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to the financial statements

Because of the inherent limitations of internal financial controls with reference to the financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial

controls with reference to the financial statements to future periods are subject to the risk that the internal financial control with reference to the financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system with reference to the financial statements and such internal financial controls with reference to the financial statements were operating effectively as at 31 March

2018, based on the internal control with reference to the financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by ICAI.

NOTES TO STANDALONE FINANCIAL STATEMENTS

1 Reporting entity

Britannia Industries Limited (the 'Company') is a company domiciled in India, with its registered office situated at 5/1A, Hungerford Street, Kolkata, West Bengal - 700017. The Company has been incorporated under the provisions of Indian Companies Act and its equity shares are listed on the National Stock Exchange (NSE) and Bombay Stock Exchange (BSE) in India. The Company is primarily involved in manufacturing and sale of various food products.

2 Basis of preparation

A. Statement of compliance

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules 2015, as amended, notified under Section 133 of Companies Act, 2013, (the 'Act') and other relevant provisions of the Act.

The standalone financial statements were authorised for issue by the Company's Board of Directors on 15 May 2018.

Details of the Company's accounting policies are included in Note 3.

B. Functional and presentation currency

These standalone financial statements are presented in Indian Rupees (₹), which is also the Company's functional currency. All amounts have been rounded-off to two decimal places to the nearest crores, unless otherwise indicated.

C. Basis of measurement

The standalone financial statements have been prepared on the historical cost basis except for the following items:

Items	Measurement basis
Certain financial assets and liabilities	Fair value
Shared-based payments	Fair value
Net defined benefit (asset)/ liability	Fair value of plan assets less present value of defined benefit obligations

D. Use of estimates and judgements

In preparing these standalone financial statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

Judgements

Information about judgements made in applying accounting policies that have the most significant effects on the amounts recognised in the standalone financial statements is included in the following notes:

- Note 36 - leases: whether an arrangement contains a lease and lease classification.

Assumptions and estimation uncertainties

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment in the year ending 31 March 2018 is included in the following notes:

- Note 45 - measurement of defined benefit obligations: key actuarial assumptions;
- Note 40 - recognition and measurement of provisions and contingencies: key assumptions about the likelihood and magnitude of an outflow of resources;
- Note 4 - useful life of property, plant and equipment;
- Notes 7 to 9 and Notes 12,13,15 and 16 - impairment of financial assets.

NOTES TO STANDALONE FINANCIAL STATEMENTS (CONTINUED)

E. Measurement of fair values

Certain accounting policies and disclosures of the Company require the measurement of fair values, for both financial and non financial assets and liabilities.

The Company has an established control framework with respect to the measurement of fair values.

The valuation team regularly reviews significant unobservable inputs and valuation adjustments.

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into a different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

Further information about the assumptions made in the measuring fair values is included in the following notes:

- Note 5 - investment property
- Note 18 (d) - share-based payments
- Note 53 - financial instruments.

3. Significant accounting policies

(a) Property, plant and equipment

i. Recognition and measurement

Items of property, plant and equipment, are measured at cost (which includes capitalised borrowing costs, if any) less accumulated depreciation and accumulated impairment losses, if any.

Cost of an item of property, plant and equipment includes its purchase price, duties, taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

The cost of a self-constructed item of property, plant and equipment comprises the cost of materials, direct labour and any other costs directly attributable to bringing the item to its intended working condition and estimated costs of dismantling, removing and restoring the site on which it is located, wherever applicable.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognised in profit or loss.

ii. Subsequent expenditure

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Company.

NOTES TO STANDALONE FINANCIAL STATEMENTS (CONTINUED)

iii. Depreciation

Depreciation is calculated on cost of items of property, plant and equipment less their estimated residual value using straight line method over the useful lives of assets estimated by the Company based on an internal technical evaluation performed by the management and is recognised in the statement of profit and loss. Assets acquired under finance lease are depreciated over the shorter of the lease term and their useful lives unless it is reasonably certain that the Company will obtain ownership by the end of the lease term. Depreciation for assets purchased / sold during the period is proportionately charged.

The range of estimated useful lives of items of property, plant and equipment are as follows:

Asset	Useful life
Plant and equipment*	7.5 - 15 years
Furniture and fixtures	10 years
Motor vehicles	8 years
Office equipment	3 - 5 years
Buildings	30 - 60 years
Leasehold land	Lease period

Freehold land is not depreciated.

*The Company believes the useful lives as given above best represent the useful lives of these assets based on internal assessment where necessary, which is different from the useful lives as prescribed under Part C of Schedule II of the Companies Act, 2013.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year-end and adjusted prospectively, if appropriate.

iv. Reclassification to investment property

When the use of a property changes from owner-occupied to investment property, the property is reclassified as investment property at its carrying amount on the date of classification.

v. Capital work-in-progress

Capital work-in-progress includes cost of property, plant and equipment under installation / under development as at the balance sheet date.

(b) Investment property

Investment property is property held either to earn rental income or for capital appreciation or for both, but not for sale in the ordinary course of business, use in the production or supply of goods or services or for administrative purposes. Upon initial recognition, an investment property is measured at cost. Subsequent to initial recognition, investment property is measured at cost less accumulated depreciation and accumulated impairment losses, if any.

Based on technical evaluation and consequent advice, the management believes a period of 60 years as representing the best estimate of the period over which investment properties (which are quite similar) are expected to be used. Accordingly, the Company depreciates investment properties over a period of 60 years on a straight-line basis.

Any gain or loss on disposal of an investment property is recognised in profit or loss.

The fair values of investment property is disclosed in the notes accompanying these financial statements. Fair values is determined by an independent valuer who holds a recognised and relevant professional qualification and has recent experience in the location and category of the investment property being valued.

NOTES TO STANDALONE FINANCIAL STATEMENTS (CONTINUED)

(c) Intangible assets

Internally generated: Research and development

Expenditure on research activities is recognised in the Statement of Profit and Loss as incurred.

Development expenditure is capitalised as part of the cost of the resulting intangible asset only if the expenditure can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable, and the Company intends to and has sufficient resources to complete development and to use or sell the asset. Otherwise, it is recognised in profit or loss as incurred. Subsequent to initial recognition, the asset is measured at cost less accumulated amortisation and any accumulated impairment losses.

Others

Other intangible assets including those acquired by the Company in a business combination are initially measured at cost. Such intangible assets are subsequently measured at cost less accumulated amortisation and any accumulated impairment losses.

Amortisation

Amortisation is calculated to write off the cost of intangible assets less their estimated residual values over their estimated useful lives using the straight-line method, and is included in depreciation and amortisation in Statement of Profit and Loss.

The estimated useful lives are as follows:

Asset	Useful life
Computer software	6 years

Amortisation method, useful lives and residual values are reviewed at the end of each financial year and adjusted if appropriate.

(d) Impairment

(i) *Financial assets*

The Company recognises loss allowances using the expected credit loss (ECL) model for the financial assets which are not fair valued through profit or loss. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognised is recognised as an impairment gain or loss in profit or loss.

(ii) *Non-financial assets*

Intangible assets and property, plant and equipment

Intangible assets and property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the CGU to which the asset belongs. If such assets are considered to be impaired, the impairment to be recognised in the Statement of Profit and Loss is measured by the

NOTES TO STANDALONE FINANCIAL STATEMENTS (CONTINUED)

amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the Statement of Profit and Loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortisation or depreciation) had no impairment loss been recognised for the asset in prior years.

(e) Leases

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

As a lessee

Leases of property, plant and equipment where the Company, as lessee, has substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalised at the lease's inception at the fair value of the leased property or, if lower, the present value of the minimum lease payments. The corresponding rental obligations, net of finance charges, are included in borrowings or other financial liabilities as appropriate. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to the profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the Company as lessee are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to profit or loss on a straight-line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

As a lessor

Lease income from operating leases, where the Company is a lessor, is recognised in income on a straight-line basis over the lease term unless the receipts are structured to increase in line with expected general inflation to compensate for the expected inflation.

(f) Inventories

Inventories are valued at the lower of cost (including prime cost, non-refundable taxes and duties and other overheads incurred in bringing the inventories to their present location and condition) and estimated net realisable value, after providing for obsolescence, where appropriate. The comparison of cost and net realisable value is made on an item-by-item basis. The net realisable value of materials in process is determined with reference to the selling prices of related finished goods. Raw materials, packing materials and other supplies held for use in production of inventories are not written down below cost except in cases where material prices have declined, and it is estimated that the cost of the finished products will exceed their net realisable value.

The provision for inventory obsolescence is assessed regularly based on estimated usage and shelf life of products.

Raw materials, packing materials and stores and spares are valued at cost computed on moving weighted average basis. The cost includes purchase price, inward freight and other incidental expenses net of refundable duties, levies and taxes, where applicable.

Work-in-progress is valued at input material cost plus conversion cost as applicable.

Stock-in-trade is valued at the lower of net realisable value and cost (including prime cost, non-refundable taxes and duties and other overheads incurred in bringing the inventories to their present location and condition), computed on a moving weighted average basis.

NOTES TO STANDALONE FINANCIAL STATEMENTS (CONTINUED)

Finished goods are valued at lower of net realisable value and cost (including prime cost, non-refundable taxes and duties and other overheads incurred in bringing the inventories to their present location and condition), computed on a moving weighted average basis.

(g) **Financial instruments**

i. *Recognition and initial measurement*

The Company initially recognises financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are measured at fair value on initial recognition. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, that are not at fair value through profit or loss, are added to the fair value on initial recognition.

ii. *Classification and subsequent measurement*

Financial Assets

Financial assets carried at amortised cost

A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through other comprehensive income

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through profit or loss

A financial asset which is not classified in any of the above categories are subsequently fair valued through profit or loss.

Financial liabilities

Financial liabilities are subsequently carried at amortised cost using the effective interest method. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

Investment in subsidiaries, joint venture and associates

Investment in subsidiaries, joint venture and associates is carried at cost in the financial statements.

iii. *Derecognition*

Financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the right to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial assets are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset.

If the Company enters into transactions whereby it transfers assets recognised on its balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognised.

NOTES TO STANDALONE FINANCIAL STATEMENTS (CONTINUED)

Financial liabilities

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire.

The Company also derecognises a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and a new financial liability with modified terms is recognised in the Statement of Profit and Loss.

iv. Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or realise the asset and settle the liability simultaneously.

(h) Revenue recognition

Revenue from sale of goods and sale of scrap is recognised, when the significant risks and rewards of ownership have transferred to the buyer, recovery of the consideration is probable, the associated costs and possible return of goods can be estimated reliably, there is no continuing effective control over, or managerial involvement with, the goods, and the amount of revenue can be measured reliably. Revenue from the sale of goods and sale of scrap is measured at the fair value of the consideration received or receivable, exclusive of sales tax, Goods and Service Tax (GST) and net of sales return, trade discounts and volume rebates. Sales are presented gross of excise duties.

Income from royalties are recognised based on contractual agreements.

Dividend income is recognised when the Company's right to receive the payment is established, which is generally when shareholders approve the dividend.

For all financial instruments measured at amortised cost, interest income is recorded using the effective interest rate (EIR), which is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset. Interest income is included in other income in the Statement of Profit and Loss.

Deferred revenue

The Company has a customer loyalty programme for selected customers. The Company grants credit points to those customers as part of a sales transaction which allows them to accumulate and redeem those credit points. Consideration received from these customers have been allocated between the goods sold and the credit points granted. The consideration allocated to the credit points have been deferred and will be recognised as revenue when the reward points are redeemed or lapsed.

(i) Business combination

Business combinations arising from transfers of interest in entities that are under the control of the shareholder that controls the Company are accounted for as if the acquisition had occurred at the beginning of the earliest comparative period presented or, if later, at the date that common control was established; for this purpose comparatives are revised. The assets and liabilities acquired are recognised at their carrying amounts. The identity of the reserves is preserved and they appear in the financial statements of the Company in the same form in which they appeared in the financial statements of the acquired entity. The difference, if any, between the value of net assets and the consequent reduction in value of investment held by the Company is transferred to the capital reserve or to the accumulated balance of profit and loss.

NOTES TO STANDALONE FINANCIAL STATEMENTS (CONTINUED)

(j) **Foreign currencies**

Transactions in foreign currencies are initially recorded by the Company at their functional currency spot rates at the date of the transaction. Monetary assets and liabilities denominated in foreign currency are translated at the functional currency spot rates of exchange at the reporting date. Exchange differences that arise on settlement of monetary items or on reporting at each balance sheet date of the Company's monetary items at the closing rates are recognised as income or expenses in the period in which they arise. Non-monetary items which are carried at historical cost denominated in a foreign currency are reported using the exchange rates at the date of transaction. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined.

(k) **Government grants**

Government grants are recognised where there is reasonable assurance that the grant will be received and all attached conditions will be complied with. When the grant relates to revenue, it is recognised in the Statement of Profit and Loss on a systematic basis over the periods to which they relate. When the grant relates to an asset, it is treated as deferred income and recognised in the Statement of Profit and Loss on a systematic basis over the useful life of the asset.

(l) **Income tax**

Income tax comprises current and deferred tax. It is recognised in profit or loss except to the extent that it relates to a business combination or to an item recognised directly in equity or in other comprehensive income.

i. Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

ii. Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognised in respect of carried forward tax losses and tax credits. Deferred tax is not recognised for:

- temporary differences arising on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss at the time of transaction.
- temporary differences related to investments in subsidiaries, associates and interests in joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used.

Deferred tax assets recognised or unrecognised are reviewed at each reporting date and are recognised / reduced to the extent that it is probable / no longer probable respectively that the related tax benefit will be realised.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is

NOTES TO STANDALONE FINANCIAL STATEMENTS (CONTINUED)

realised or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

The Company offsets, the current tax assets and liabilities (on a year on year basis) and deferred tax assets and liabilities, where it has a legally enforceable right and where it intends to settle such assets and liabilities on a net basis.

(m) Borrowing costs

Borrowing costs directly attributable to the acquisition or construction of those property, plant and equipment which necessarily takes a substantial period of time to get ready for their intended use are capitalised. All other borrowing costs are expensed in the period in which they incur in the Statement of Profit and Loss.

(n) Provisions and contingent liabilities

i. General

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, the expense relating to a provision is presented in the Statement of Profit and Loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

ii. Contingent liabilities

A disclosure for contingent liabilities is made where there is a possible obligation or a present obligation that may probably not require an outflow of resources. When there is a possible or a present obligation where the likelihood of outflow of resources is remote, no provision or disclosure is made.

iii. Onerous contracts

Provision for onerous contracts. i.e. contracts where the expected unavoidable cost of meeting the obligations under the contract exceed the economic benefits expected to be received under it, are recognised when it is probable that an outflow of resources embodying economic benefits will be required to settle a present obligation as a result of an obligating event based on a reliable estimate of such obligation.

(o) Employee benefits

i. Short-term employee benefits

All employee benefits falling due wholly within twelve months of rendering the services are classified as short-term employee benefits, which include benefits like salaries, wages, short-term compensated absences and performance incentives and are recognised as expenses in the period in which the employee renders the related service.

NOTES TO STANDALONE FINANCIAL STATEMENTS (CONTINUED)

ii. *Post-employment benefits*

Contributions to defined contribution schemes such as Provident Fund, Pension Fund, etc., are recognised as expenses in the period in which the employee renders the related service. In respect of certain employees, Provident Fund contributions are made to a Trust administered by the Company. The interest rate payable to the members of the Trust shall not be lower than the statutory rate of interest declared by the Central Government under the Employees' Provident Funds and Miscellaneous Provisions Act, 1952 and shortfall, if any, shall be made good by the Company. To this extent, the Provident Fund scheme could be considered as a defined benefit plan. In respect of contributions made to government administered Provident Fund, the Company has no further obligations beyond its monthly contributions. The Company also provides for post-employment defined benefit in the form of gratuity and medical benefits. The cost of providing benefit is determined using the projected unit credit method, with actuarial valuation being carried out at each balance sheet date. Remeasurement of the net benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interests) and the effect of the assets ceiling (if any, excluding interest) are recognised in other comprehensive income. The effect of any plan amendments are recognised in net profit in the Statement of Profit and Loss.

The Britannia Industries Limited Covenanted Staff Pension Fund Trust ('BILCSPF') and Britannia Industries Limited Officers' Pension Fund Trust ('BILOPF') were established by the Company to administer pension schemes for its employees. These trusts are managed by the Trustees. The Pension Scheme is applicable to all the managers and officers of the Company who have been employed up to the date of 15 September 2005 and any manager or officer employed after that date, if he has opted for the membership of the Scheme. The Company makes a contribution of 15% of basic salary in respect of the members, each month to the trusts. On retirement, subject to the vesting conditions as per the rules of the trust, the member becomes eligible for pension, which is paid from annuity purchased in the name of the member by the trusts.

iii. *Other long-term employee benefits*

All employee benefits (other than post-employment benefits and termination benefits) which do not fall due wholly within twelve months after the end of the period in which the employees render the related services are determined based on actuarial valuation or discounted present value method carried out at each balance sheet date. The expected cost of accumulating compensated absences is determined by actuarial valuation performed by an independent actuary as at 1 January every year using projected unit credit method on the additional amount expected to be paid / availed as a result of the unused entitlement that has accumulated at the balance sheet date. Expense on non-accumulating compensated absences is recognised in the period in which the absences occur.

iv. *Voluntary retirement scheme benefits*

Voluntary retirement scheme benefits are recognised as an expense in the year they are incurred.

(p) *Share-based payments*

The cost of equity-settled transactions is determined by the fair value at the date when the grant is made using an appropriate valuation model. That cost is recognised in employee benefits expense, together with a corresponding increase in share-based payment (SBP) reserves in equity, over the period in which the performance and/or service conditions are fulfilled. The dilutive effect of outstanding options is reflected as additional share dilution in the computation of diluted earnings per share.

(q) *Cash and cash equivalents*

Cash and cash equivalents includes cash on hand, demand deposits with banks, other short-term highly liquid investments with original maturities of three months or less.

NOTES TO STANDALONE FINANCIAL STATEMENTS (CONTINUED)

(r) Earnings per share

Basic Earnings Per Share ('EPS') is computed by dividing the net profit attributable to the equity shareholders by the weighted average number of equity shares outstanding during the year. Diluted earnings per share is computed by dividing the net profit by the weighted average number of equity shares considered for deriving basic earnings per share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as of the beginning of the year, unless issued at a later date. In computing diluted earnings per share, only potential equity shares that are dilutive and that either reduces earnings per share or increases loss per share are included. The number of shares and potentially dilutive equity shares are adjusted retrospectively for all periods presented in case of share splits.

(s) Cash flow statement

Cash flows are reported using indirect method, whereby net profits before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments and items of income or expenses associated with investing or financing cash flows. The cash flows from regular revenue generating (operating activities), investing and financing activities of the Company are segregated.

(t) Recent accounting pronouncements

Standards issued but not effective on Balance Sheet date:

Ind AS 115, Revenue from Contracts with Customers

Ind AS 115, establishes a comprehensive framework for determining whether, how much and when revenue should be recognised. It replaces existing revenue recognition guidance, including Ind AS 18 Revenue, Ind AS 11 Construction Contracts and Guidance Note on Accounting for Real Estate Transactions. Ind AS 115 is effective for annual periods beginning on or after 1 April 2018 and will be applied accordingly.

The core principle of Ind AS 115 is that an entity should recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Specifically, the standard introduces a 5-step approach to revenue recognition.

Step 1: Identify the contract(s) with a customer

Step 2: Identify the performance obligation in contract

Step 3: Determine the transaction price

Step 4: Allocate the transaction price to the performance obligations in the contract

Step 5: Recognise revenue when (or as) the entity satisfies a performance obligation

The Company has completed an initial assessment of the potential impact of the adoption of Ind AS 115 on accounting policies followed in its financial statements. The quantitative impact of adoption of Ind AS 115 on the financial statements in the period of initial application is not reasonably estimable as at present.

i. Sales of goods

For the sale of goods, revenue is currently recognised when related risks and rewards of ownership are transferred. Revenue is recognised at this point provided that the revenue and costs can be measured reliably, the recovery of the consideration is probable and there is no continuing management involvement with the goods.

Under Ind AS 115, revenue will be recognised when a customer obtains control of the goods.

NOTES TO STANDALONE FINANCIAL STATEMENTS (CONTINUED)

For certain contracts that permit the customer to return an item, revenue is currently recognised when a reasonable estimate of the returns can be made, provided that all other criteria for revenue recognition are met. If a reasonable estimate cannot be made, then revenue recognition is deferred until the return period lapses or a reasonable estimate of returns can be made.

Under Ind AS 115, revenue will be recognised for these contracts to the extent that it is probable that a significant reversal in the amount of cumulative revenue recognised will not occur. As a consequence, for those contracts for which the Company is unable to make a reasonable estimate of return, revenue is expected to be recognised sooner than when the return period lapses or a reasonable estimate can be made. A refund liability and an asset for recovery will be recognised for these contracts and presented separately in the balance sheet.

For the loyalty programme operated by the Company, revenue is currently allocated between the loyalty programme and the goods using the residual value method i.e. consideration is allocated to the loyalty programme based on the fair value of the loyalty points and the remainder of the consideration is allocated to the goods. The amount allocated to the loyalty programme is deferred, and is recognised as loyalty points are redeemed or expire.

Under Ind AS 115, consideration will be allocated between the loyalty programme and the goods based on their relative stand-alone selling prices. As a consequence, a lower proportion of the consideration will be allocated to the loyalty programme, and therefore less revenue is likely to be deferred.

ii. *Transition*

The Company plans to apply Ind AS 115 using the cumulative effect method, with the effect of initially applying this standard recognised at the date of initial application (i.e. 1 April 2018) in retained earnings and NCI. As a result, the Company will not present relevant individual line items appearing under comparative period presentation.

Ind AS 21, The effect of changes in Foreign Exchange rates

The amendment clarifies on the accounting of transactions that include the receipt or payment of advance consideration in a foreign currency. The appendix explains that the date of the transaction, for the purpose of determining the exchange rate, is the earlier of the date of initial recognition of the non-monetary prepayment asset or deferred income liability and the date that the related item is recognised in the financial statements. If there are multiple payments or receipts in advance, a date of transaction is established for each payment or receipt. The Company is evaluating the impact of this amendment on its financial statements.

Ind AS 40, Investment Property

The amendment explains that the transfer to, or from, investment property is made when there is an actual change of use, that is, the asset meets or ceases to meet the definition of investment property and there is evidence of change in use. A change in management's intentions for the use of a property does not provide evidence of a change in use. The Company has evaluated the impact of this amendment and concluded that there shall be no impact on its financial statements.

During the financial year 2008-09, the Company introduced Britannia Industries Limited Employee Stock Option Scheme ('the Scheme'). As per the Scheme, the Remuneration / Compensation Committee grants options to the employees and Executive Directors of the Company. The vesting period of the option is one to three years from the date of grant. Options granted under the Scheme can be exercised within a period of three years from the date of vesting.

Under the Scheme, the Company granted 15,000 options on 29 October 2008 at an exercise price of ₹ 1,125.30/-; 15,000 options on 27 May 2009 at an exercise price of ₹ 1,698.15/-; 20,000 options on 27 May 2010 at an exercise price of ₹ 1,668.55/-; 125,000 options on 27 May 2011 at an exercise price of ₹ 391.75/-; 100,000 options on 28 May 2012 at an exercise price of ₹ 528.75/-; 50,000 options on 26 May 2014 at an exercise price of ₹ 870.35/-; 75,000 options on 21 May 2015 at an exercise price of ₹ 2,332.05/-; 100,000 options on 30 June 2016 at an exercise price of ₹ 2,771.40/- and 125,000 options on 25 May 2017 at an exercise price of ₹ 3,533.30/- to the Managing Director of the Company. Each option represents one equity share of ₹ 10/- each (for options granted between the years 2008 to 2010) and one equity share of ₹ 2/- each (for options granted after the year 2010). The said price was determined in accordance with the pricing formula approved by the shareholders i.e. the latest available closing price, prior to the date of the meeting of the Board of Directors or Remuneration / Compensation Committee in which options were granted, on the stock exchange having higher trading volume.

Options exercisable at the end of the year	-	-
Weighted average price per option (₹)	3,037.84	2,583.11

Fair Value Measurement:

The fair value at grant date is determined using the Black Scholes valuation option-pricing model which takes into account the exercise price, the term of the option, the share price at grant date and expected price volatility of the underlying share, the expected dividend yield and the risk free interest rate for the term of the option.

The key inputs used in Black-Scholes model for calculating fair value of options under the scheme as on the date of grant are as follows:

Particulars	31 March 2018	31 March 2017
No. of options granted	125,000	100,000
Date of grant	25-May-17	30-Jun-16
Vesting period (years)	1 to 3	1 to 3
Expected life of option (years)	3	3
Expected volatility	22.12%	23.63%
Risk free rate	6.66%	7.45%
Expected dividends expressed as a dividend yield	0.62%	0.72%
Weighted-average fair values of options per share (₹)	722.52	617.19

- (e) In the Annual General Meeting held on 9 August 2010, the shareholders of the Company approved the sub-division of equity shares, where in each equity share with a face value of ₹ 10/- has been subdivided into 5 equity shares with a face value of ₹ 2/- each. The effective date for the sub-division was 10 September 2010.

Note 41 With respect to the matter related to the refund of excess contribution by Britannia Industries Covenanted Staff Pension Fund (CSPF) to the Company, the Honourable Supreme Court at its hearing on 12 May 2008 set aside the order of the Division Bench of the Honourable High Court, Kolkata and remanded the matter to Commissioner of Income Tax (CIT), Kolkata for disposal. Based on the directions of the courts, the Company was required to deposit ₹ 12.12 with a Nationalised Bank, which the Company did under protest.

In the suit filed by Britannia Industries Limited Pensioners Welfare Association (PWA), the Company received a judgement on 21 September 2015 from Honourable City Civil Court, Bangalore, in the matter of pension payable to its eligible beneficiaries. The Board of Directors of the Company reviewed the judgement and after obtaining legal opinion from eminent lawyers resolved to file an appeal in the higher court against the said judgement. Accordingly, the Company as well as the Pension Funds appealed against the Honourable City Civil Court's judgement in the Honourable High Court of Karnataka. In response to the appeals filed, the Honourable High Court of Karnataka, in its order dated 18 December 2015, referred the matter to Bangalore Mediation Centre for exploring the possibilities of a settlement. The PWA through their legal counsel had submitted that they will not precipitate execution before the trial court during mediation.

As a result of the mediation process, a Memorandum of Settlement (MoS) dated 29 August 2016 was entered into between the PWA, the Company and Pension Funds. As per the terms of the MoS and the Decree passed by the Honourable High Court of Karnataka dated 18 October 2016, the Company, inter alia, filed an application with the Honourable High Court of Calcutta for obtaining approval to use the fixed deposit held in the name of CSPF and interest thereon. In response to the petition filed by the CSPF, the Honourable High Court of Calcutta passed an order wherein it directed the CIT, Kolkata to consider the representations made by the PWA, the Company and Pension Funds. On 9 January 2017, the CIT passed an order wherein, in continuation to the show cause notice dated 11 April 2007, the approval accorded to the CSPF was withdrawn w.e.f. AY 2003-04 in view of Rule 91(2) of the Income Tax Rules, 1962. The CSPF filed a Writ Petition with the Honourable High Court of Calcutta against the said order of CIT, Kolkata. On 3rd February 2017, while admitting the Writ, the Honourable High Court of Calcutta did not pass any interim order or grant stay against the order of the CIT, Kolkata. Aggrieved by the same, the CSPF filed an appeal in the Division Bench of Calcutta High Court which was heard on 10 March 2017 and the Calcutta High Court granted the stay. However, it restrained the Company from encashing the fixed deposit of ₹ 12.12. It also directed the single bench of the Calcutta High Court to dispose off the Writ Petition expeditiously. On 28 August 2017, the single bench of the Calcutta High Court remanded the matter back to CIT, Kolkata to decide on the original show-cause notice and the reply thereto in accordance with law. CIT, Kolkata passed an order on 6 October 2017 withdrawing the original show cause issued and revoking the earlier CIT order of de-recognising the Pension Fund.

The Company and Pension Funds, since then, have settled the amounts payable to eligible Pensioners, who have submitted the required documents, under the Memorandum of Settlement approved by the Honourable High Court of Karnataka. The impact of the settlement has been accounted in the financial statements.

Note 49 During the year ended 31 March 2016, based on queries received from Securities Exchange Board of India ('SEBI'), the Company conducted a preliminary internal investigation and discovered certain irregularities by M/s Sharepro Services (India) Private Limited ('Sharepro'), the Company's erstwhile Registrar and Share Transfer Agent. Subsequently, the Company filed a criminal complaint against Sharepro and its employees. Pursuant to the directions issued by SEBI in its interim order dated 22 March 2016, the Company appointed an independent external agency to conduct an audit of the records and systems of Sharepro with respect to past transactions. The report of the external agency was submitted with SEBI by the Company vide its letter dated 12 July 2016. The Company will evaluate additional steps, if any, based on the directions of SEBI or any other regulatory authorities.

Based on consultations with its legal counsel, the Company has been advised that the liability will not devolve on the Company and thus no provision is considered necessary. Further, the Company has a right to claim losses, if any, from Sharepro and accordingly the Company does not plan to make good the losses on its own account.

Financial risk management

The Company's financial risk management is an integral part of how to plan and execute its business strategies. The Company's management risk policy is set by the Board. The Company's activities expose it to a variety of financial risks: credit risk, liquidity risk and market risk. The Company's primary focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. A summary of the risks have been given below.

Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers and loans given. Credit risk arises from cash held with banks and financial institutions, as well as credit exposure to clients, including outstanding accounts receivables. The maximum exposure to credit risk is equal to the carrying value of the financial assets. The objective of managing counterparty credit risk is to prevent losses in financial assets. The Company assesses the credit quality of the counterparties, taking into account their financial position, past experience and other factors.

Trade and other receivables

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the customer, including the default risk of the industry and country in which the customer operates, also has an influence on credit risk assessment. The Company limits its exposure to credit risk from trade receivables by establishing a maximum payment period of three months for customer. In monitoring customer credit risk, customers are grouped according to their credit characteristics, including whether they are wholesale, retail or institutional customers, their geographic location, industry, trading history with the Company and existence of previous financial difficulties. The default in collection as a percentage to total receivable is low.

The Company's exposure to credit risk for trade receivables by geographic region is as follows:

	Carrying amount	
	31 March 2018	31 March 2017
India	208.27	111.25
Others	28.51	21.11
	<u>236.78</u>	<u>132.36</u>

The Company exposure to credit risk for trade receivables by type of counterparty is as follows:

	Carrying amount	
	31 March 2018	31 March 2017
Institutional	86.69	64.71
Authorised wholesaler	125.24	56.94
Others	24.85	10.71

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The Company manages its liquidity risk by ensuring, that it will always have sufficient liquidity to meet its liabilities when due. The Company's corporate treasury department is responsible for liquidity, funding as well as settlement management. In addition, processes and policies related to such risks are overseen by the senior management.

The Company aims to maintain the level of its cash and cash equivalents and other highly marketable debt investments at an amount in excess of expected cash outflows on financial liabilities (other than trade payables) over the next six months. The Company also monitors the level of expected cash inflows on trade receivables and loans together with expected cash outflows on trade payables and other financial liabilities. At 31 March 2018, the expected cash flows from trade receivables is ₹ 230.32 (31 March 2017: ₹ 126.41). This excludes the potential impact of extreme circumstances that cannot reasonably be predicted, such as natural disasters.

In addition, the Company maintains the following lines of credit, ₹ 224 (31 March 2017: ₹227) overdraft facility with various banks that is unsecured. Interest would be payable basis prevailing MCLR (31 March 2017 : prevailing base rate)

The table below provides details regarding the contractual maturities of significant financial liabilities as at 31 March 2018 and 31 March 2017:

Particulars	As at 31 March 2018		
	Less than 1 year	1-2 years	2 years and above
Non-derivative financial liabilities			
Trade payables	866.36	-	-
Other financial liabilities (Refer note 21 and 23)	182.42	24.97	-
Finance lease obligations	0.20	0.30	-

Particulars	As at 31 March 2017		
	Less than 1 year	1-2 years	2 years and above
Non-derivative financial liabilities			
Trade payables	643.82	-	-
Other financial liabilities (Refer note 21 and 23)	142.75	22.86	-
Finance lease obligations	0.18	0.19	0.25
	<u>786.75</u>	<u>23.05</u>	<u>0.25</u>

Market risk

Market risk is the risk that changes in market prices - such as foreign exchange rates and interest rates - will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

Currency risk

The Company is exposed to currency risk to the extent that there is mismatch between the currencies in which sales, purchase are denominated and the respective functional currencies of Company. The Company has export sales (2% of total sales) primarily denominated in US dollars and Euro. At any point in time, the Company hedges 95% to 100% of its estimated foreign currency exposure in respect of sales and purchases

NOTES TO STANDALONE FINANCIAL STATEMENTS (CONTINUED)

₹ in Crores

over the following 12 months. The Company uses forward exchange contracts to hedge its currency risk, most with a maturity of less than one year from the reporting date.

Exposure to currency risk

The summary quantitative data about the Company's gross exposure to currency risk is as follows:

	31 March 2018		31 March 2017	
	Euro	USD	Euro	USD
Export receivables	-	0.30	-	0.25
Overseas payables	(0.03)	-	(0.25)	-

The Company uses forward exchange contracts to hedge the currency exposure and is therefore not exposed to significant currency risk at the respective reporting dates.

Sensitivity analysis

The impact of strengthening/weakening of currency on the Company is not material as Company hedges 95% to 100% of the foreign currency exposure.

INDEPENDENT AUDITOR'S REPORT

To the Members of Britannia Industries Limited

Report on the Audit of the Consolidated Ind AS Financial Statements

We have audited the accompanying consolidated Ind AS financial statements of Britannia Industries Limited (hereinafter referred to as "the Holding Company"), its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group") and its associates, which comprise the Consolidated Balance Sheet as at 31 March 2018, the Consolidated Statement of Profit and Loss, the Consolidated Statement of Changes in Equity and the Consolidated Cash Flow Statement for the year then ended, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated Ind AS financial statements").

Management's responsibility for the Consolidated Ind AS Financial Statements

The Holding Company's Board of Directors is responsible for the preparation of these consolidated Ind AS financial statements in terms of the requirements of the Companies Act, 2013 (hereinafter referred to as "the Act") that give a true and fair view of the consolidated state of affairs, consolidated profit/loss (and other comprehensive income), consolidated statement of changes in equity and consolidated cash flows of the Group including its associates in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act.

The respective Board of Directors of the companies included in the Group and of its associates are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and its associates and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due

to fraud or error, which have been used for the purpose of preparation of the consolidated Ind AS financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated Ind AS financial statements, the respective Board of Directors of the companies included in the Group and of its associates are responsible for assessing the ability of the Group and of its associates to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated Ind AS financial statements based on our audit.

While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the consolidated Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Holding Company's preparation of the consolidated Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made

as well as evaluating the overall presentation of the consolidated Ind AS financial statements.

We are also responsible to conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and of its associates to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in the auditor's report to the related disclosures in the consolidated Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its associates to continue as a going concern.

We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of their reports referred to in sub-paragraph (a) of the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, and based on the consideration of reports of other auditors on separate financial statements and on the other financial information of the subsidiaries, the aforesaid consolidated Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group and its associates as at 31 March 2018 and their consolidated profit and other comprehensive income, consolidated statement of changes in equity and consolidated cash flows for the year ended on that date.

Other matters

a. We did not audit the financial statements of four subsidiaries included in the annual consolidated Ind AS financial statements incorporated outside India, whose financial statements reflect total assets of INR 468.43 crores and net assets of INR (38.43) crores as at 31 March 2018, total revenues

of INR 535.88 crores and cash inflow of INR 4.33 crores for the year ended on that date. The financial statements of the subsidiaries incorporated outside India as drawn up in accordance with the generally accepted accounting principles of the respective countries ('the local GAAP') has been audited by other auditors duly qualified to act as auditor in those countries. The respective statutory audit reports of the other auditors have been furnished to us. For the purpose of preparation of the consolidated Ind AS financial statement, the aforesaid local GAAP financial statements have been restated by the Management of the said entities so that they conform to the generally accepted accounting principles in India. This has been done on the basis of a reporting package prepared by the Company which covers accounting and disclosure requirements applicable to consolidated Ind AS financial statements under the generally accepted accounting principles in India. Of the above, for two subsidiaries, the reporting packages made for this purpose have been reviewed by the other auditors and limited review reports (on the reporting packages) of the other auditors have been furnished to us. For the other two subsidiaries, the conversion adjustments made by the Company's management have been audited by us. Our opinion on the consolidated Ind AS financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries and our report in terms of sub-section (3) of Section 143 of the Act, insofar as it relates to the aforesaid subsidiaries are based on the aforesaid audit reports, limited review reports received from the other auditors and the conversion adjustments prepared by the management of the Company and audited by us.

b. We did not audit the financial statements of three subsidiaries included in the annual consolidated Ind AS financial statements, whose financial statements reflect total assets of INR 256.36 crores and net assets of INR 171.05 crores as at 31 March 2018, total revenues of INR Nil and cash inflow of INR 0.88 crore for the year ended on that date. The consolidated Ind AS financial statement also includes the Group's share of net loss (and other comprehensive income) of INR 0.18 crore

for the year ended 31 March 2018 in respect of three associates, whose financial statements and financial information have not been audited. These financial statements are unaudited and have been furnished to us by the Management and our opinion on the consolidated Ind AS financial statements, in so far as it relates to the amounts and disclosures included in respect of the subsidiaries and associates, and our report in terms of sub-section (3) of Section 143 of the Act in so far as it relates to the aforesaid subsidiaries and associates, is based solely on such unaudited financial statements and financial information. In our opinion and according to the information and explanations given to us by the Management, these financial statements and financial information are not material to the Group.

Our opinion above on the consolidated Ind AS financial statements and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors and the financial statements and financial information certified by the Management.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit and on the consideration of report of the other auditors on separate financial statements and the other financial information of subsidiaries and associates as noted in the 'Other Matter' paragraph, we report to the extent applicable, that:

- (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated Ind AS financial statements;
- (b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated Ind AS financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors;
- (c) The Consolidated Balance Sheet, the

Consolidated Statement of Profit and Loss, the Consolidated Statement of Changes in Equity and the Consolidated Cash Flow Statement dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated Ind AS financial statements;

- (d) In our opinion, the aforesaid consolidated Ind AS financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act;
- (e) On the basis of the written representations received from the directors of the Holding Company as on 31 March 2018 taken on record by the Board of Directors of the Holding Company and the reports of the other statutory auditors of its subsidiary companies incorporated in India, none of the directors of any such companies are disqualified as on 31 March 2018 from being appointed as a director of that company in terms of Section 164(2) of the Act;
- (f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Holding Company, its subsidiaries and associates, incorporated in India and the operating effectiveness of such controls, refer to our separate Report in Annexure A;
- (g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditor's) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the report of the other auditors on separate financial statements and other financial information of subsidiaries and associates, as noted in the 'Other Matter' Paragraph.
 - i. The consolidated Ind AS financial statements disclose the impact of pending litigations on the consolidated financial position of the Group and its

- associates – Refer Note 38 (i) (a), 42 & 43 to the consolidated Ind AS financial statements.
- ii. The Group did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses – Refer note 59 to the consolidated Ind AS financial statements in respect of such items as it relates to the Group and its associates;
 - iii. There has been no delay in transferring amounts which are required to be transferred to the Investor Education and Protection Fund by the Holding Company and its subsidiary companies and associates incorporated in India,
- wherever applicable during the year ended 31 March 2018; and
- iv. The disclosures in the consolidated Ind AS financial statements regarding holdings as well as dealings in specified bank notes during the period from 8 November 2016 to 30 December 2016 have not been made since they do not pertain to the financial year ended 31 March 2018.

ANNEXURE A TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE CONSOLIDATED IND AS FINANCIAL STATEMENTS OF BRITANNIA INDUSTRIES LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated Ind AS financial statements of the Holding Company as of and for the year ended 31 March 2018, we have audited the internal financial controls with reference to the financial statements of the Holding Company, its subsidiary companies and its associate companies (together referred to as "the Group"), which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The Respective Board of Directors of the Holding company, its subsidiary companies and its associates companies, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control with reference to the financial statements established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the 'Guidance Note') issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to the financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, both issued by ICAI and deemed to be prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to

the financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to the financial statements and their operating effectiveness. Our audit of internal financial controls with reference to the financial statements included obtaining an understanding of internal financial controls with reference to the financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Group's internal financial controls system with reference to the financial statements.

Meaning of Internal Financial Controls with reference to the financial statements

A Company's internal financial control with reference to the financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control with reference to the financial statements includes those policies and procedures that:

- (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;
- (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and

- (iii) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to the financial statements

Because of the inherent limitations of internal financial controls with reference to the financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to the financial statements to future periods are subject to the risk that the internal financial control with reference to the financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company, its subsidiary companies and associates companies which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system with reference to the financial statements and such internal financial controls with reference to the financial statements were operating effectively as at 31 March 2018 based on the internal control with reference to the financial statements established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1 Reporting entity

Britannia Industries Limited (the 'Company') is a Company domiciled in India, with its registered office situated at 5/1A, Hungerford Street, Kolkata, West Bengal - 700017. The Company has been incorporated under the provisions of Indian Companies Act and its equity shares are listed on the National Stock Exchange (NSE) and Bombay Stock Exchange (BSE) in India. These consolidated financial statements comprise the Company and its subsidiaries (referred to collectively as the 'Group') and the Group's interest in associates. The Group is primarily involved in manufacturing and sale of various food products.

2 Basis of preparation

A. Statement of compliance

These consolidated financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015, as amended, notified under Section 133 of Companies Act, 2013, (the 'Act') and other relevant provisions of the Act.

The consolidated financial statements were authorised for issue by the Company's Board of Directors on 15 May 2018.

Details of the Group's accounting policies are included in Note 3.

B. Functional and presentation currency

These consolidated financial statements are presented in Indian Rupees (₹), which is also the Company's functional currency. All amounts have been rounded-off to two decimal places to the nearest crores and unless otherwise indicated.

C. Basis of measurement

These consolidated financial statements have been prepared on the historical cost basis except for the following items:

Items	Measurement basis
Certain financial assets and liabilities	Fair value
Shared-based payments	Fair value
Net defined benefit (asset)/ liability	Fair value of plan assets less present value of defined benefit obligations

D. Use of estimates and judgements

In preparing these consolidated financial statements, management has made judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

Judgements

Information about judgements made in applying accounting policies that have the most significant effects on the amounts recognised in these consolidated financial statements is included in the following notes:

- Note 39 - leases: whether an arrangement contains a lease and lease classification.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

Assumptions and estimation uncertainties

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment in the year ending 31 March 2018 is included in the following notes:

- Note 48 - measurement of defined benefit obligations: key actuarial assumptions;
- Note 42 - recognition and measurement of provisions and contingencies: key assumptions about the likelihood and magnitude of an outflow of resources;
- Note 4 - useful life of property, plant and equipment;
- Notes - 8-10 and Notes - 13-17 - financial assets.

E. Measurement of fair values

Certain accounting policies and disclosures of the Group require the measurement of fair values, for both financial and non financial assets and liabilities.

The Group has an established control framework with respect to the measurement of fair values.

The valuation team regularly reviews significant unobservable inputs and valuation adjustments.

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

When measuring the fair value of an asset or a liability, the Group uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into a different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

Further information about the assumptions made in the measuring fair values is included in the following notes:

- Note 5 - investment property;
- Note 20 (d) - share-based payment; and
- Note 54 - financial instruments.

3. Significant accounting policies

(a) Basis of consolidation

i. Subsidiaries

Subsidiaries are all entities over which the group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

The acquisition method of accounting is used to account for business combinations by the Group.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

The Group combines the financial statements of the parent and its subsidiaries line by line adding together like items of assets, liabilities, equity, income and expenses. Intercompany transactions, balances and unrealised gains on transactions between Group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

ii. Non-controlling interests (NCI)

NCI are measured at their proportionate share of the acquiree's net identifiable assets at the date of acquisition.

Changes in the Group's equity interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions.

iii. Associates

These are entities over which the group has significant influence but not control or joint control over the financial and operating policies.

Interests in associates are accounted using the equity method. They are initially recognised at cost which includes transaction cost. Subsequent to initial recognition, the consolidated financial statements include the Group's share of profit or loss and other comprehensive income of equity accounted investees until the date on which significant influence ceases.

iv. Equity method

Under the equity method of accounting, the investments are initially recognised at cost and adjusted thereafter to recognise the Group's share of the post-acquisition profits or losses of the investee in profit and loss, and the Group's share of other comprehensive income of the investee in other comprehensive income. Dividends received or receivable from associates and joint ventures are recognised as a reduction in the carrying amount of the investment.

When the Group's share of losses in an equity-accounted investment equals or exceeds its interest in the entity, including any other unsecured long-term receivables, the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the other entity.

v. Transactions eliminated on consolidation

Intra-group balances and transactions, and any unrealised income and expenses arising from intra-group transactions, are eliminated. Unrealised gains arising from transactions with equity accounted investees are eliminated against the investment to the extent of the Group's interest in the Investee. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

vi. Subsidiaries and associate companies considered in the consolidated financial statements:

Name of the Company	Country of incorporation	Ownership interest (in %)

(b) Property, plant and equipment

i. *Recognition and measurement*

Items of property, plant and equipment, are measured at cost (which includes capitalised borrowing costs, if any) less accumulated depreciation and accumulated impairment losses, if any.

Cost of an item of property, plant and equipment includes its purchase price, duties, taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

The cost of a self-constructed item of property, plant and equipment comprises the cost of materials, direct labour and any other costs directly attributable to bringing the item to its intended working condition and estimated costs of dismantling, removing and restoring the site on which it is located, wherever applicable.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognised in profit or loss.

ii. *Subsequent expenditure*

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Group.

iii. *Depreciation*

Depreciation is calculated on cost of items of property, plant and equipment less their estimated residual value using straight line method over the useful lives of assets estimated by the Group based on an internal technical evaluation performed by the management and is recognised in the Statement of Profit and Loss. Assets acquired under finance lease are depreciated over the shorter of the lease term and their useful lives unless it is reasonably certain that the Group will obtain ownership by the end of the lease term. Depreciation for assets purchased / sold during the period is proportionately charged.

The range of estimated useful lives of items of property, plant and equipment are as follows:

Asset	Useful life
Plant and equipment*	7.5 - 15 years
Furniture and fixtures	10 years
Motor vehicles	8 years
Office equipment	3 - 5 years
Buildings	30 - 60 years
Leasehold land	Lease period

Freehold land is not depreciated.

* The Group believes the useful lives as given above best represent the useful lives of these assets based on internal assessment where necessary, which is different from the useful lives as prescribed under Part C of Schedule II of the Companies Act, 2013.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year-end and adjusted prospectively, if appropriate.

iv. *Reclassification to investment property*

When the use of a property changes from owner-occupied to investment property, the property is reclassified as investment property at its carrying amount on the date of classification.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

v. **Capital work-in-progress**

Capital work-in-progress includes cost of property, plant and equipment under installation / under development as at the balance sheet date.

(c) **Intangible assets**

Internally generated: Research and development

Expenditure on research activities is recognised in the Statement of Profit and Loss as incurred.

Development expenditure is capitalised as part of the cost of the resulting intangible asset only if the expenditure can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable, and the Group intends to and has sufficient resources to complete development and to use or sell the asset. Otherwise, it is recognised in profit or loss as incurred. Subsequent to initial recognition, the asset is measured at cost less accumulated amortisation and any accumulated impairment losses.

Others:

Other intangible assets including those acquired by the Group in a business combination are initially measured at cost. Such intangible assets are subsequently measured at cost less accumulated amortisation and any accumulated impairment losses.

Goodwill arising on consolidation represents the excess of cost to the Group of its investment in a subsidiary company over the Group's portion of net worth of the subsidiary, and is net of capital reserve.

Amortisation:

Amortisation is calculated to write off the cost of intangible assets less their estimated residual values over their estimated useful lives using the straight-line method, and is included in depreciation and amortisation in Statement of Profit and Loss.

The estimated useful lives are as follows:

Asset	Useful life
Computer software	6 years

Amortisation method, useful lives and residual values are reviewed at the end of each financial year and adjusted if appropriate.

(d) **Investment property**

Investment property is property held either to earn rental income or for capital appreciation or for both, but not for sale in the ordinary course of business, use in the production or supply of goods or services or for administrative purposes. Upon initial recognition, an investment property is measured at cost. Subsequent to initial recognition, investment property is measured at cost less accumulated depreciation and accumulated impairment losses, if any.

Based on technical evaluation and consequent advice, the management believes a period of 60 years as representing the best estimate of the period over which investment properties (which are quite similar) are expected to be used. Accordingly, the Group depreciates investment properties over a period of 60 years on a straight-line basis.

Any gain or loss on disposal of an investment property is recognised in profit or loss.

The fair values of investment property is disclosed in the notes accompanying these consolidated financial statements. Fair values is determined by an independent valuer who holds a recognised and relevant professional qualification and has recent experience in the location and category of the investment property being valued.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

(e) Impairment**(i) Financial assets**

The Group recognises loss allowances using the expected credit loss (ECL) model for the financial assets which are not fair valued through profit or loss. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognised is recognised as an impairment gain or loss in statement of profit or loss.

(ii) Non-financial assets**Intangible assets and property, plant and equipment**

Intangible assets and property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the CGU to which the asset belongs. If such assets are considered to be impaired, the impairment to be recognised in the Statement of Profit and Loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the Statement of Profit and Loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortisation or depreciation) had no impairment loss been recognised for the asset in prior years.

(f) Leases

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

As a lessee

Leases of property, plant and equipment where the Group, as lessee, has substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalised at the lease's inception at the fair value of the leased property or, if lower, the present value of the minimum lease payments. The corresponding rental obligations, net of finance charges, are included in borrowings or other financial liabilities as appropriate. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to the statement of profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the Group as lease are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to profit or loss on a straight-line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

As a lessor

Lease income from operating leases, where the Group is a lessor, is recognised in income on a straight-line basis over the lease term unless the receipts are structured to increase in line with expected general inflation to compensate for the expected inflation.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

(g) Inventories

Inventories are valued at the lower of cost (including prime cost, non-refundable taxes and duties and other overheads incurred in bringing the inventories to their present location and condition) and estimated net realisable value, after providing for obsolescence, where appropriate. The comparison of cost and net realisable value is made on an item-by-item basis. The net realisable value of materials in process is determined with reference to the selling prices of related finished goods. Raw materials, packing materials and other supplies held for use in production of inventories are not written down below cost except in cases where material prices have declined, and it is estimated that the cost of the finished products will exceed their net realisable value.

The provision for inventory obsolescence is assessed regularly based on estimated usage and shelf life of products.

Raw materials, packing materials and stores and spares are valued at cost computed on moving weighted average basis. The cost includes purchase price, inward freight and other incidental expenses net of refundable duties, levies and taxes, where applicable.

Work-in-progress is valued at input material cost plus conversion cost as applicable.

Stock-in-trade is valued at the lower of net realisable value and cost (including prime cost, non-refundable taxes and duties and other overheads incurred in bringing the inventories to their present location and condition), computed on a moving weighted average basis.

Finished goods are valued at lower of net realisable value and cost (including prime cost, non-refundable taxes and duties and other overheads incurred in bringing the inventories to their present location and condition), computed on a moving weighted average basis.

In respect of following subsidiary, inventories are valued at cost, computed under first-in-first-out basis. The value of these inventories are as given below:

	₹ in crores	
	31 March 2018	31 March 2017
Britannia Dairy Private Limited	13.97	24.73

(h) Financial instruments

i. *Recognition and initial measurement*

The Group initially recognises financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are measured at fair value on initial recognition. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, that are not at fair value through profit or loss, are added to the fair value on initial recognition.

ii. *Classification and subsequent measurement*

Financial Assets

Financial assets carried at amortised cost

A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through other comprehensive income

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

Financial assets at fair value through profit or loss

A financial asset which is not classified in any of the above categories are subsequently fair valued through profit or loss.

Financial liabilities

Financial liabilities are subsequently carried at amortized cost using the effective interest method. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

Investment in subsidiaries, associates and joint ventures

Investment in subsidiaries, associates and joint ventures are carried at cost in the financial statements.

iii. Derecognition*Financial assets*

The Group derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the right to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial assets are transferred or in which the Group neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset.

If the Group enters into transactions whereby the transfers assets recognised on its balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognised.

Financial liabilities

The Group derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire.

The Group also derecognises a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and a new financial liability with modified terms is recognised in the Statement of Profit and Loss.

iv. Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when, and only when, the Group currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or realise the asset and settle the liability simultaneously.

(i) Revenue recognition

Revenue from sale of goods and sale of scrap is recognised, when the significant risks and rewards of ownership have transferred to the buyer, recovery of the consideration is probable, the associated costs and possible return of goods can be estimated reliably, there is no continuing effective control over, or managerial involvement with, the goods, and the amount of revenue can be measured reliably. Revenue from the sale of goods and sale of scrap is measured at the fair value of the consideration received or receivable, exclusive of sales tax, Goods and Service Tax (GST) and net of sales return, trade discounts and volume rebates. Sales are presented gross of excise duties.

Income from royalties are recognised based on contractual agreements.

Dividend income is recognised when the Group's right to receive the payment is established, which is generally when shareholders approve the dividend.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For all financial instruments measured at amortised cost, interest income is recorded using the effective interest rate (EIR), which is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset. Interest income is included in other income in the Statement of Profit and Loss.

Deferred revenue

The Group has a customer loyalty programme for selected customers. The Group grants credit points to those customers as part of a sales transaction which allows them to accumulate and redeem those credit points. Consideration received from these customers have been allocated between the goods sold and the credit points granted. The consideration allocated to the credit points have been deferred and will be recognised as revenue when the reward points are redeemed or lapsed.

(j) **Foreign currencies**

Transactions in foreign currencies are initially recorded by the Group at their functional currency spot rates at the date of the transaction. Monetary assets and liabilities denominated in foreign currency are translated at the functional currency spot rates of exchange at the reporting date. Exchange differences that arise on settlement of monetary items or on reporting at each balance sheet date of the Company's monetary items at the closing rates are recognised as income or expenses in the period in which they arise. Non-monetary items which are carried at historical cost denominated in a foreign currency are reported using the exchange rates at the date of transaction. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined.

(k) **Foreign operations**

The assets and liabilities of foreign operations including goodwill and fair value adjustments arising on acquisition, are translated into ₹, the functional currency of the Company, at the exchange rates at the reporting date. The income and expenses of foreign operations are translated into ₹ at the exchange rates at the dates of the transactions or an average rate if the average approximates the actual rate at the date of the transaction.

When a foreign operation is disposed of in its entirety or partially, such that control, significant influence or joint control is lost, the cumulative amount of exchange differences related to that foreign operation recognised in OCI is reclassified to profit or loss as part of the gain or loss on disposal. If the Group disposes off part of its interest in a subsidiary but retains control, then the relevant proportion of the cumulative amount is re-allocated to NCI. When the Group disposes off only a part of its interest in an associate while retaining significant influence, the relevant proportion of the cumulative amount is reclassified to Statement of Profit or Loss.

(l) **Government grants**

Government grants are recognised where there is reasonable assurance that the grant will be received and all attached conditions will be complied with. When the grant relates to revenue, it is recognised in the Statement of Profit and Loss on a systematic basis over the periods to which it relates. When the grant relates to an asset, it is treated as deferred income and recognised in the Statement of Profit and Loss on a systematic basis over the useful life of the asset.

(m) **Income tax**

Income tax comprises current and deferred tax. It is recognised in profit or loss except to the extent that it relates to a business combination or to an item recognised directly in equity or in other comprehensive income.

i. Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

ii. Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

Deferred tax is also recognised in respect of carried forward tax losses and tax credits. Deferred tax is not recognised for:

- temporary differences arising on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss at the time of transaction.
- temporary differences related to investments in subsidiaries, associates and interests in joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used.

Deferred tax assets recognised or unrecognised are reviewed at each reporting date and are recognised / reduced to the extent that it is probable / no longer probable respectively that the related tax benefit will be realised.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Group expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

The Group offsets, the current tax assets and liabilities (on a year on year basis) and deferred tax assets and liabilities, where it has a legally enforceable right and where it intends to settle such assets and liabilities on a net basis.

Minimum Alternate Tax (MAT) credit is recognised as an asset only when and to the extent there is convincing evidence that the respective Group company will pay normal income tax during the specified period. Such asset is reviewed at each balance sheet date and the carrying amount of the MAT credit asset is written down to the extent there is no longer a convincing evidence to the effect that the Company will pay normal income tax during the specified period.

(n) **Borrowing costs**

Borrowing costs directly attributable to the acquisition or construction of those property, plant and equipment, which necessarily takes a substantial period of time to get ready for their intended use are capitalised. All other borrowing costs are expensed in the period in which they incur in the Statement of Profit and Loss.

(o) **Provisions and contingent liabilities**

i. **General**

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Group expects some or all of a provision to be reimbursed, the expense relating to a provision is presented in the Statement of Profit and Loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

ii. **Contingent liabilities**

A disclosure for contingent liabilities is made where there is a possible obligation or a present obligation that may probably not require an outflow of resources. When there is a possible or a present obligation where the likelihood of outflow of resources is remote, no provision or disclosure is made.

iii. **Onerous contracts**

Provision for onerous contracts i.e. contracts where the expected unavoidable cost of meeting the obligations under the contract exceed the economic benefits expected to be received under it, are recognised when it is probable that an outflow of resources embodying economic benefits will be required to settle a present obligation as a result of an obligating event based on a reliable estimate of such obligation.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

(p) Employee benefits

i. *Short-term employee benefits*

All employee benefits falling due wholly within twelve months of rendering the services are classified as short-term employee benefits, which include benefits like salaries, wages, short-term compensated absences and performance incentives and are recognised as expenses in the period in which the employee renders the related service.

ii. *Post-employment benefits*

Contributions to defined contribution schemes such as Provident Fund, Pension Fund, etc., are recognised as expenses in the period in which the employee renders the related service. In respect of certain employees, Provident Fund contributions are made to a Trust administered by the Group. The interest rate payable to the members of the Trust shall not be lower than the statutory rate of interest declared by the Central Government under the Employees' Provident Funds and Miscellaneous Provisions Act, 1952 and shortfall, if any, shall be made good by the Group. In respect of contributions made to government administered Provident Fund, the Group has no further obligations beyond its monthly contributions. The Group also provides for post-employment defined benefit in the form of gratuity and medical benefits. The cost of providing benefit is determined using the projected unit credit method, with actuarial valuation being carried out at each balance sheet date. Remeasurement of the net benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interests) and the effect of the assets ceiling (if any, excluding interest) are recognised in other comprehensive income. The effect of any plan amendments are recognized in the Statement of Profit and Loss.

The Britannia Industries Limited Covenanted Staff Pension Fund Trust ('BILCSPF') and Britannia Industries Limited Officers' Pension Fund Trust ('BILOPF') were established by the Group to administer pension schemes for its employees. These trusts are managed by the Trustees. The Pension Scheme is applicable to all the managers and officers of the Group who have been employed up to the date of 15 September 2005 and any manager or officer employed after that date, if he has opted for the membership of the Scheme. The Group makes a contribution of 15% of basic salary in respect of the members, each month to the trusts. On retirement, subject to the vesting conditions as per the rules of the trust, the member becomes eligible for pension, which is paid from annuity purchased in the name of the member by the trusts.

iii. *Other long-term employee benefits*

All employee benefits (other than post-employment benefits and termination benefits) which do not fall due wholly within twelve months after the end of the period in which the employees render the related services are determined based on actuarial valuation or discounted present value method carried out at each balance sheet date. The expected cost of accumulating compensated absences is determined by actuarial valuation performed by an independent actuary as at 1 January every year using projected unit credit method on the additional amount expected to be paid / availed as a result of the unused entitlement that has accumulated at the balance sheet date. Expense on non-accumulating compensated absences is recognised in the period in which the absences occur.

iv. *Voluntary retirement scheme benefits*

Voluntary retirement scheme benefits are recognised as an expense in the year they are incurred.

(q) Share-based payments

The cost of equity-settled transactions is determined by the fair value at the date when the grant is made using an appropriate valuation model. That cost is recognised in employee benefits expense, together with a corresponding increase in share-based payment (SBP) reserves in equity, over the period in which the performance and/or service conditions are fulfilled. The dilutive effect of outstanding options is reflected as additional share dilution in the computation of diluted earnings per share.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

(r) Cash and cash equivalents

Cash and cash equivalents includes cash on hand, demand deposits with banks, other short-term highly liquid investments with original maturities of three months or less.

(s) Earnings per share

Basic Earnings Per Share ('EPS') is computed by dividing the net profit attributable to the equity shareholders by the weighted average number of equity shares outstanding during the year. Diluted earnings per share is computed by dividing the net profit by the weighted average number of equity shares considered for deriving basic earnings per share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as of the beginning of the year, unless issued at a later date. In computing diluted earnings per share, only potential equity shares that are dilutive and that either reduces earnings per share or increases loss per share are included. The number of shares and potentially dilutive equity shares are adjusted retrospectively for all periods presented in case of share splits.

(t) Cash flow statement

Cash flows are reported using indirect method, whereby net profits before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments and items of income or expenses associated with investing or financing cash flows. The cash flows from regular revenue generating (operating activities), investing and financing activities of the Group are segregated.

(u) Recent accounting pronouncements

Standards issued but not effective on Balance Sheet date:

Ind AS 115, Revenue from Contracts with Customers

Ind AS 115, establishes a comprehensive framework for determining whether, how much and when revenue should be recognised. It replaces existing revenue recognition guidance, including Ind AS 18 Revenue, Ind AS 11 Construction Contracts and Guidance Note on Accounting for Real Estate Transactions. Ind AS 115 is effective for annual periods beginning on or after 1 April 2018 and will be applied accordingly.

The core principle of Ind AS 115 is that an entity should recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Specifically, the standard introduces a 5-step approach to revenue recognition.

- Step 1: Identify the contract(s) with a customer
- Step 2: Identify the performance obligation in contract
- Step 3: Determine the transaction price
- Step 4: Allocate the transaction price to the performance obligations in the contract
- Step 5: Recognise revenue when (or as) the entity satisfies a performance obligation

The Group has completed an initial assessment of the potential impact of the adoption of Ind AS 115 on accounting policies followed in its financial statements. The quantitative impact of adoption of Ind AS 115 on the financial statements in the period of initial application is not reasonably estimable as at present.

i. Sales of goods

For the sale of goods, revenue is currently recognised when related risks and rewards of ownership are transferred. Revenue is recognised at this point provided that the revenue and costs can be measured reliably, the recovery of the consideration is probable and there is no continuing management involvement with the goods.

Under Ind AS 115, revenue will be recognised when a customer obtains control of the goods.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For certain contracts that permit the customer to return an item, revenue is currently recognised when a reasonable estimate of the returns can be made, provided that all other criteria for revenue recognition are met. If a reasonable estimate cannot be made, then revenue recognition is deferred until the return period lapses or a reasonable estimate of returns can be made.

Under Ind AS 115, revenue will be recognised for these contracts to the extent that it is probable that a significant reversal in the amount of cumulative revenue recognised will not occur. As a consequence, for those contracts for which the Group is unable to make a reasonable estimate of return, revenue is expected to be recognised sooner than when the return period lapses or a reasonable estimate can be made. A refund liability and an asset for recovery will be recognised for these contracts and presented separately in the balance sheet.

For the loyalty programme operated by the Group, revenue is currently allocated between the loyalty programme and the goods using the residual value method i.e. consideration is allocated to the loyalty programme based on the fair value of the loyalty points and the remainder of the consideration is allocated to the goods. The amount allocated to the loyalty programme is deferred, and is recognised as loyalty points are redeemed or expire.

Under Ind AS 115, consideration will be allocated between the loyalty programme and the goods based on their relative stand-alone selling prices. As a consequence, a lower proportion of the consideration will be allocated to the loyalty programme, and therefore less revenue is likely to be deferred.

ii. *Transition*

The Group plans to apply Ind AS 115 using the cumulative effect method, with the effect of initially applying this standard recognised at the date of initial application (i.e. 1 April 2018) in retained earnings and NCI. As a result, the Group will not present relevant individual line items appearing under comparative period presentation.

Ind AS 21, The effect of changes in Foreign Exchange rates

The amendment clarifies on the accounting of transactions that include the receipt or payment of advance consideration in a foreign currency. The appendix explains that the date of the transaction, for the purpose of determining the exchange rate, is the earlier of the date of initial recognition of the non-monetary prepayment asset or deferred income liability and the date that the related item is recognised in the financial statements. If there are multiple payments or receipts in advance, a date of transaction is established for each payment or receipt. The Group is evaluating the impact of this amendment on its financial statements.

Ind AS 40, Investment Property

The amendment explains that the transfer to, or from, investment property is made when there is an actual change of use, that is, the asset meets or ceases to meet the definition of investment property and there is evidence of change in use. A change in management's intentions for the use of a property does not provide evidence of a change in use. The Group has evaluated the impact of this amendment and concluded that there shall be no impact on its financial statements.

(b) Impairment analysis was performed for the goodwill on consolidation. In case of indication of impairment, the recoverable amount was determined using value in use of the cash generating units. The recoverable amount exceeds the carrying value, accordingly no impairment charge is required for the year ended 31 March 2018 (31 March 2017: Nil).

Following key assumptions were considered while performing impairment testing:

Weighted Average Cost of Capital % (WACC) before tax	10%-12%
Average sale value growth	9%
Average gross margin growth	5%

The projections cover a period of five years, as we believe this to be the most appropriate time scale over which to review and consider annual performances before applying a fixed terminal value multiple to the final year cash flows. The growth rates used to estimate future performance are based on conservative estimates from past performance.

During the financial year 2008-09, the Company introduced Britannia Industries Limited Employee Stock Option Scheme ('the Scheme'). As per the Scheme, the Remuneration / Compensation Committee grants options to the employees and Executive Directors of the Company. The vesting period of the option is one to three years from the date of grant. Options granted under the Scheme can be exercised within a period of three years from the date of vesting.

Under the Scheme, the Company granted 15,000 options on 29 October 2008 at an exercise price of ₹ 1,125.30/-; 15,000 options on 27 May 2009 at an exercise price of ₹ 1,698.15/-; 20,000 options on 27 May 2010 at an exercise price of ₹ 1,668.55/-; 125,000 options on 27 May 2011 at an exercise price of ₹ 391.75/-; 100,000 options on 28 May 2012 at an exercise price of ₹ 528.75/-; 50,000 options on 26 May 2014 at an exercise price of ₹ 870.35/-; 75,000 options on 21 May 2015 at an exercise price of ₹ 2,332.05/-; 100,000 options on 30 June 2016 at an exercise price of ₹ 2,771.40/- and 125,000 options on 25 May 2017 at an exercise price of ₹ 3,533.30/- to the Managing Director of the Company. Each option represents one equity share of ₹ 10/- each (for options granted between the years 2008 to 2010) and one equity share of ₹ 2/- each (for options granted after the year 2010). The said price was determined in accordance with the pricing formula approved by the shareholders i.e. the latest available closing price, prior to the date of the meeting of the Board of Directors or Remuneration / Compensation Committee in which options were granted, on the stock exchange having higher trading volume.

Options exercisable at the end of the year	-	-
Weighted average price per option (₹)	3,037.84	2,583.11

Fair Value Measurement:

The fair value at grant date is determined using the Black Scholes valuation option-pricing model which takes into account the exercise price, the term of the option, the share price at grant date and expected price volatility of the underlying share, the expected dividend yield and the risk free interest rate for the term of the option.

The key assumptions used in Black-Scholes model for calculating fair value of options under the scheme as on the date of grant are as follows:

Particulars	31 March 2018	31 March 2017
No. of options granted	125,000	100,000
Date of grant	25-May-17	30-Jun-16
Vesting period (years)	1 to 3	1 to 3
Expected life of option (years)	3	3
Expected volatility	22.12%	23.63%
Risk free rate	6.66%	7.45%
Expected dividends expressed as a dividend yield	0.62%	0.72%
Weighted-average fair values of options per share (₹)	722.52	617.19

- (e) In the Annual General Meeting held on 9 August 2010, the shareholders of the Company approved the sub-division of equity shares, where in each equity share with a face value of ₹ 10/- has been subdivided into 5 equity shares with a face value of ₹ 2/- each. The effective date for the sub-division was 10 September 2010.

Note 43 With respect to the matter related to the refund of excess contribution by Britannia Industries Covenanted Staff Pension Fund (CSPF) to the Company, the Honourable Supreme Court at its hearing on 12 May 2008 set aside the order of the Division Bench of the Honourable High Court, Kolkata and remanded the matter to Commissioner of Income Tax (CIT), Kolkata for disposal. Based on the directions of the courts, the Company was required to deposit ₹ 12.12 with a Nationalised Bank, which the Company did under protest.

In the suit filed by Britannia Industries Limited Pensioners Welfare Association (PWA), the Company received a judgement on 21 September 2015 from Honourable City Civil Court, Bangalore, in the matter of pension payable to its eligible beneficiaries. The Board of Directors of the Company reviewed the judgement and after obtaining legal opinion from eminent lawyers resolved to file an appeal in the higher court against the said judgement. Accordingly, the Company as well as the Pension Funds appealed against the Honourable City Civil Court's judgement in the Honourable High Court of Karnataka. In response to the appeals filed, the Honourable High Court of Karnataka, in its order dated 18 December 2015, referred the matter to Bangalore Mediation Centre for exploring the possibilities of a settlement. The PWA through their legal counsel had submitted that they will not precipitate execution before the trial court during mediation.

As a result of the mediation process, a Memorandum of Settlement (MoS) dated 29 August 2016 was entered into between the PWA, the Company and Pension Funds. As per the terms of the MoS and the Decree passed by the Honourable High Court of Karnataka dated 18 October 2016, the Company, inter alia, filed an application with the Honourable High Court of Calcutta for obtaining approval to use the fixed deposit held in the name of CSPF and interest thereon. In response to the petition filed by the CSPF, the Honourable High Court of Calcutta passed an order wherein it directed the CIT, Kolkata to consider the representations made by the PWA, the Company and Pension Funds. On 9 January 2017, the CIT passed an order wherein, in continuation to the show cause notice dated 11 April 2007, the approval accorded to the CSPF was withdrawn w.e.f. AY 2003-04 in view of Rule 91(2) of the Income Tax Rules, 1962. The CSPF filed a Writ Petition with the Honourable High Court of Calcutta against the said order of CIT, Kolkata. On 3rd February 2017, while admitting the Writ, the Honourable High Court of Calcutta did not pass any interim order or grant stay against the order of the CIT, Kolkata. Aggrieved by the same, the CSPF filed an appeal in the Division Bench of Calcutta High Court which was heard on 10 March 2017 and the Calcutta High Court granted the stay. However, it restrained the Company from encashing the fixed deposit of ₹ 12.12. It also directed the single bench of the Calcutta High Court to dispose off the Writ Petition

expeditiously. On 28 August 2017, the single bench of the Calcutta High Court remanded the matter back to CIT, Kolkata to decide on the original show-cause notice and the reply thereto in accordance with law. CIT, Kolkata passed an order on 6 October 2017 withdrawing the original show cause issued and revoking the earlier CIT order of de-recognising the Pension Fund.

The Company and Pension Funds, since then, have settled the amounts payable to eligible Pensioners, who have submitted the required documents, under the Memorandum of Settlement approved by the Honourable High Court of Karnataka. The impact of the settlement has been accounted in the financial statements.

Note 49 With respect to Al Sallan Food Industries Co. SAOC, the Company's income tax assessments for the year 2012 to 2015 have not been agreed with the Secretariat General for Taxation at the Ministry of Finance, Oman. Management believes that additional taxes, if any, that may become payable on finalisation of the assessments in respect of these open years would not be material to the Company's financial position as at 31 March 2018. No tax has been recognised due to carried forward accumulated losses of prior years.

Note 50 Government grant

During the year ended 31 March 2013, an amount of ₹ 5 was received towards capital subsidy for the Hajipur Factory, Bihar in accordance with the State Industrial Policy of Bihar. Out of this, an amount of ₹0.71 (31 March 2017: ₹ 0.71) has been credited to the Statement of Profit and Loss (by reducing the depreciation charge for the year) and the outstanding amount of ₹ 1.43 (31 March 2017: ₹ 2.15) has been classified as government grant in the balance sheet [Refer note 3 (l)].

The fair value of cash and cash equivalents, bank balances, trade receivables, loans, investments in tax-free bonds, investments in debentures/bonds, borrowings, trade payables and other financial assets and liabilities approximate their carrying amount largely due to the short-term nature of these instruments. The Group's loans have been contracted at market rates of interest. Accordingly, the carrying value of such loans approximate fair value.

Investments in liquid and short-term mutual funds, which are classified as FVTPL are measured using net assets value at the reporting date multiplied by the quantity held.

Financial risk management

The Group's financial risk management is an integral part of how to plan and execute its business strategies. The Group's management risk policy is set by the Board. The Group's activities expose it to a variety of financial risks: market risk, credit risk and liquidity risk. The Group's primary focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. A summary of the risks have been given below.

Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's receivables from customers and loans given. Credit risk arises from cash held with banks and financial institutions, as well as credit exposure to clients, including outstanding accounts receivables. The maximum exposure to credit risk is equal to the carrying value of the financial assets. The objective of managing counterparty credit risk is to prevent losses in financial assets. The Group assesses the credit quality of the counterparties, taking into account their financial position, past experience and other factors.

Trade and other receivables

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the customer, including the default risk of the industry and country in which the customer operates, also has an influence on credit risk assessment. The Group limits its exposure to credit risk from trade receivables by establishing a maximum payment period of three months for customer. In monitoring customer credit risk, customers are grouped according to their credit characteristics, including whether they are wholesale, retail or institutional customers, their geographic location, industry, trading history with the Group and existence of previous financial difficulties. The default in collection as a percentage to total receivable is low.

The Group's exposure to credit risk for trade receivable by geographic region is as follows:

	Carrying amount	
	31 March 2018	31 March 2017
India	232.04	127.02
Others	79.47	58.45
	<u>311.51</u>	<u>185.47</u>

The Group's exposure to credit risk for trade receivables by type of counterparty is as follows:

	Carrying amount	
	31 March 2018	31 March 2017
Institutional	86.69	64.71
Authorised wholesaler	199.97	110.05
Others	24.85	10.71

Liquidity risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they become due. The Group manages its liquidity risk by ensuring, that it will always have sufficient liquidity to meet its liabilities when due. The Group's corporate treasury department is responsible for liquidity, funding as well as settlement management. In addition, processes and policies related to such risks are overseen by the senior management.

The Group aims to maintain the level of its cash and cash equivalents and other highly marketable debt investments at an amount in excess of expected cash outflows on financial liabilities (other than trade payables) over the next six months. The Group also monitors the level of expected cash inflows on trade receivables and loans together with expected cash outflows on trade payables and other financial liabilities. At 31 March 2018, the expected cash flows from trade receivables is ₹ 304.60 (31 March 2017: ₹179.16). This excludes the potential impact of extreme circumstances that cannot reasonably be predicted, such as natural disasters.

In addition, the Group maintains the following lines of credit, ₹ 224 (31 March 2017: ₹ 227) overdraft facility with various banks that is unsecured. Interest would be payable basis prevailing MCLR/LIBOR rates (31 March 2017 : MCLR/LIBOR rates)

The table below provides details regarding the contractual maturities of significant financial liabilities as at March 31, 2018 and March 31, 2017:

Particulars	As at 31 March 2018		
	Less than 1 year	1-2 years	2 years and above

Finance lease obligations	0.18	0.19	0.25
	<u>1,026.99</u>	<u>37.63</u>	<u>16.86</u>

Market risk

Market risk is the risk that changes in market prices - such as foreign exchange rates and interest rates - will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

Currency risk

The Group is exposed to currency risk to the extent that there is mismatch between the currencies in which sales, purchase are denominated and the respective functional currencies of Group companies. The Group has export sales (2% of total sales) primarily denominated in US dollars and Euro. At any point in time, the Group hedges 95% to 100% of its estimated foreign currency exposure in respect of sales and purchases over the following 12 months. The Group uses forward exchange contracts to hedge its currency risk, most with a maturity of less than one year from the reporting date.

The Group's investment in foreign subsidiaries are not hedged.

Exposure to currency risk

The summary quantitative data about the Group's exposure to currency risk is as follows:

	31 March 2018		31 March 2017	
	Euro	USD	Euro	USD
Export receivables	-	0.30	-	0.25
Overseas payables	(0.03)	-	(0.25)	-

The Group uses forward exchange contracts to hedge the currency exposure and therefore, not exposed to significant currency risk at the respective reporting dates.

Sensitivity analysis

The impact of strengthening/weakening of currency on the Group is not material as Group hedges 95% to 100% of the foreign currency exposure.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's debt obligations with floating interest rates. The Group's exposure to risk of changes in market interest rate is minimal.

Sensitivity analysis

The sensitivity analysis have been determined based on the exposure to interest rates for debt obligations with floating rates. The impact of movement in interest rate by 100 basis points higher or lower and considering all other variables constant, the Group's profit before tax for the year ended 31 March 2018 would decrease / increase by ₹ 0.85 (31 March 2017: ₹ 0.18).

Note 55 During the year ended 31 March 2016, based on queries received from Securities Exchange Board of India ('SEBI'), the Company conducted a preliminary internal investigation and discovered certain irregularities by M/s Sharepro Services (India) Private Limited ('Sharepro'), the Company's erstwhile Registrar and Share Transfer Agent. Subsequently, the Company filed a criminal complaint against Sharepro and its employees. Pursuant to the directions issued by SEBI in its interim order dated 22 March 2016, the Company appointed an independent external agency to conduct an audit of the records and systems of Sharepro with respect to past transactions. The report of the external agency was submitted with SEBI by the Company vide its letter dated 12 July 2016. The Company will evaluate additional steps, if any, based on the directions of SEBI or any other regulatory authorities.

Based on consultations with its legal counsel, the Company has been advised that the liability will not devolve on the Company and thus no provision is considered necessary. Further, the Company has a right to claim losses, if any, from Sharepro and accordingly the Company does not plan to make good the losses on its own account.

Note 56 During the year under review, the Company Secretary resigned from the services of the Company w.e.f 30 June 2017. Mr. Jairaj Bham has been appointed as Company Secretary and Compliance Officer of the Company w.e.f 15 May 2018.

THE WADIA GROUP

The Group has scaled great heights in innovation and entrepreneurship, inspired by the centuries-old legacy of goodwill and trust. The British Coat of Arms, granted to Nowrosjee Wadia, symbolises this legacy and the Wadia Group's commitment to advancement and innovation.

The crest is a representation of the Group, its philosophy, beliefs and businesses.

The crest and base of the shield represent the family origins in the shipbuilding industry during the 1700s. The middle and upper parts of the shield depict the Group's interests in cotton growing and its links with England in the form of the Lancastrian rose. The hand holding the hammer atop the shield signifies industriousness, together with workmanship and skill. The sun that surrounds the hand stands for global recognition and merit. The motto, IN DEO FIDE ET PRESERVERANTIA means 'Trust in God and Perseverance'.

but we still have so much to offer,
because everything we have done
and all that we have known
was only possible because
of the seeds you had sown.**

**As we cross this milestone
with your support as the fulcrum,
we resolve to make the world our own.**
