

Many Indias.
ONE LOVE.

Many Indias. **ONE LOVE.**

For any idea about India, the opposite is also true. Futuristic technology start-ups thrive alongside traditional businesses. Opulence co-exists with austerity. For every diet belief, there is an equally beloved opposing one. In this land of contradictions, few products and ideas are cherished by everyone. One of them is Britannia.

A Britannia product is at arm's length for every Indian. Every day, a billion Indians consume one. Every year, we serve billions of consumption occasions to Indians. We have regional favourites, such as Milk Bikis - without which childhood in Tamilnadu is incomplete – or the recently launched 50-50 Golmaal, which reflects the taste palate of West Bengal. Our products adorn the boardrooms while equally satisfying the hunger needs of the common man. While our portfolio caters to every segment of India, most of our brands are truly pan-Indian, cherished across demographics. Good Day and Marie Gold are staples for families in urban and rural India, and synonyms for wholesome snacking everywhere.

Britannia is in sync with the zeitgeist of India. Our products reflect the evolving taste of the Indian consumer. Today's India is charged with youthful energy and we, at Britannia are in step. We connect with young India on their terms, building new layers in a relationship that goes back generations. We are transforming the way we operate and are adopting new technologies in manufacturing and business operations. We are building new digital infrastructure and engaging with consumers in more personalized ways. Our product portfolio also reflects the more diverse tastes and aspirations of new India.

We understand India because Britannia is infused with the spirit of the nation. From the strength of our understanding, comes the conviction in our products. We will continue to innovate and build new products for the many Indias. From such diversity bound by abiding love, we derive strength.

Standalone and Consolidated Financial Statements prepared in accordance with Section 133 of the Companies Act, 2013 read with the rules made thereunder and Indian Accounting Standards (Ind AS) along with the Auditor's Report, form part of the Annual Report.

c. Overview of Company Performance

The year began with the second wave of the Covid-19 pandemic which affected economic activities. Supply side imbalances, especially in crude and edible oils, resulted in unprecedented inflation. This had the effect of increasing input and transportation costs and lowering consumer demand.

Economic recovery was further impacted by the third wave of the Covid-19 pandemic and the Russian Invasion of Ukraine in the latter half of the year. Geopolitical turbulence arising from the war in Ukraine and restraints on trade have resulted in economic volatility. This has rendered companies and economies more vulnerable to commodity price disruptions.

The inflationary pressures resulted in reduced consumer demand, especially in rural markets, as well as an increased preference for products at lower price points.

Your Company is weathering these unprecedented challenges by focusing on the strategic pillars of cost efficiency programs, innovation, brand building and distribution in order to sustain growth and profitability. Judicious price increases were also actioned to mitigate the effects of rising commodity prices.

d. IT Revolution

The transformational digital projects viz., S4 HANA, Arteria and Ariba were fully stabilized during the year to support the entire business. This has helped your Company to achieve efficiencies across the supply chain system, thereby enabling growth.

e. Subsidiaries and Associates

A report on the financial performance of each of the Subsidiaries and Associates included in the Consolidated Financial Statements is provided in Form AOC-1 and forms part of the Annual Report.

The financial statements of the subsidiaries which are audited are available on the website of the Company www.britannia.co.in.

f. Dividend

Pursuant to the Dividend Distribution Policy of the Company, your Directors are pleased to recommend final dividend of 5650% i.e. ₹ 56.50 per equity share of face value of ₹ 1 each for financial year 2021-22 for consideration and approval of the Members at the ensuing Annual General Meeting of the Company. The total dividend payout amounts to ₹ 1,360.91 Crores.

g. Reserves

Your Company does not propose to transfer any amount to the reserves for financial year 2021-22.

h. Share Capital

During the year under review, there is no change in the paid-up share capital of the Company.

i. Material changes affecting the Company

There have been no material changes and commitments affecting the financial position of the Company between the end of the financial year and date of this

report. There has been no change in the nature of business of the Company.

II. OPERATIONAL PERFORMANCE

a. The Britannia Promise to deliver ‘Exciting Goodness’

Your Company’s commitment to deliver ‘Exciting and Responsible Goodness’ led to a reimagining of the Britannia Promise with Sustainability at its core. Our goal is to maximize growth which is healthy, holistic and sustainable for the Company, its consumers, communities and the environment. Consumers can be assured of excitement in each Britannia Product and experience the delight of contributing towards the betterment of the planet.

b. Supply Chain Operations

Your Company ensured uninterrupted supply of food products to consumers throughout the year, in spite of multiple waves of the Covid-19 pandemic. Your Company’s business continuity plan and robust supply chain management processes enabled continuous availability of material, manpower and manufacturing capacity to supply products from all the factories. This was done without compromising on quality of products and safety of employees across the value chain.

Your Company was awarded the Covid-19 – Hero of the Year – Logistics in FMCG by Alden Global Value Advisors Pvt. Ltd, for exemplary performance during Covid times. Your Company was chosen from a list of 450 companies by a jury including Council of Supply Chain Professionals, USA and Singapore Institute of Materials & Management.

During the year under review, your Company successfully commissioned 2 Wafer lines at its Perundurai Factory.

c. Environment, Health and Safety

With an objective to achieve “Zero Accident Goal”, your Company continues to implement various safety initiatives and programs across its units. Your Company has achieved the target of 10% reduction in Total Recordable Accident Frequency Rate (TRAFR) over the previous year in the manufacturing units through site-based initiatives such as critical behaviours awareness program, self-assessments and upkeep of machines and infrastructure.

Your Company manages Occupational Health and Safety by systematically assessing the hazards and mitigating risks through various engineering controls, safety programs and training for employees. All sites have been certified with ISO: 45001 Occupational Health and Safety Management Systems.

Some of the units have won prestigious awards in the Environment Health and Safety domain. While Bidadi unit won ‘Golden Peacock Occupational Health and Safety Award’, JB Mangharam unit won ‘FICCI award for Health & Safety’ and Perundurai, Sunrise Biscuit Company Private Limited and International Bakery Products Limited-2 units won ‘CII EHS Excellence’ award.

Your Company continues to enhance its safety policies and ensured Covid-19 awareness programs, health screening, social distancing, workplace disinfection, sanitization of vehicles, medical insurance for workers and employees and constant monitoring of Covid-19 affected employees and their primary contacts.

Water stewardship is emphasized strongly at your Company and various programs have been implemented at multiple locations to reduce water consumption, reuse/recycle water and recharge ground water in order to achieve water neutrality. As a result of these programs, your Company has achieved the specific water consumption of 0.82 litres/kg of product which is 16% lower than previous year and an overall of 35% reduction from baseline target of 2019.

d. Quality Programs

Your Company has been relentlessly focusing on product quality and safety for more than 100 years to deliver best-in-class products to its consumers. Your Company has a well-defined system to ensure compliance with regulatory requirements and ensures a clear assessment of quality and safety aspects at each stage of the product life cycle.

Your Company participates in several industry led thought leadership programs and represents on various regulatory forums to promote consumer’s health and safety.

Value Chain Partners: Your Company’s value chain partners are mandated to undertake certifications related to product quality compliance, ingredient safety as well as responsible and ethical sourcing. Ingredients are procured only from those partners who have successfully completed the mandatory certifications and screening metrics.

Raw Materials: Your Company has a robust quality inspection system in place to ensure that best quality raw materials and packaging essentials are procured at its factories.

Suppliers: Your Company performs exhaustive suppliers' quality audits and maintains strict control to ensure reliability and traceability. Your Company has also implemented Vendor Quality Assurance Program (VQAP) across the supply chain to integrate, monitor and control quality at all stages. Your Company reviews key supplier scorecards quarterly and drives quality improvements that provide lasting value to suppliers.

Manufacturing: All existing manufacturing units of your Company are ISO -22000, 'Hazard Analysis Critical Control Points' (HACCP) certified and operate in compliance with stringent food safety and quality standards.

Your Company resumed the audits conducted by American Institute of Baking (AIB) in January 2022 and received certification for 14 of its manufacturing units for compliance to Global Food Safety Standards.

Consumer Care Management: Your Company's "Consumer Care Cell" continues to be compliant to the 'Global Standards on Quality Management for complaints handling in organizations'.

e. **Research and Development (R&D)**

Your Company has a state-of-the-art R&D centre and expertise which enables the development of innovative, high quality and consumer centric products. Your Company launched Potazos and Golmaal under '50-50' brand, Britannia Biscuits, Marble Cake, Good Day Harmony, Milk Bikis Atta, Milk Bikis Classic, Jeera Marie Gold (Amma's Kitchen), Wafer Rolls Stix, Coconut Wafer and mixed fruit Croissant under 'Treat' brand and Flavored Milk with 2 variants – 'Kesar' and 'Badam' under the 'Winkin Cow' brand.

Your Company's R&D team is consistently working to enhance positives and reduce negatives in its products. Your Company has successfully developed 'Milk Bikis Atta' with 100% Atta and 13% reduced sugar and also removed 5% sugar content in Good Day Cashew Almond for making portfolio healthier without affecting consumers' experience.

In addition, you will be delighted to learn that R&D has successfully built capabilities to use nutraceuticals for developing functional food products for preventive

healthcare category. R&D has further strengthened its capabilities in inclusion of alternate cereals, whole grains and millets in the product portfolio, while continuing to deliver on taste and excitement.

Your Company continued its efforts to 'Make a Difference' to the community, by investing significantly in R&D to address key nutritional deficiencies. In order to address Iron Deficiency Anaemia (IDA), your Company's R&D team developed a tasty and affordable Iron & Folic Acid fortified biscuit delivering 50-75% Recommended Dietary Allowance (RDA) of these nutrients to the adolescent girls and women.

You will be happy to know 'Suphoshan' nutrition intervention program undertaken by the Britannia Nutrition Foundation, Narayana Health Charitable Trust and National Health Mission in adolescent school-going children with iron and folic acid fortified biscuits developed by R&D team led to significant increase in the haemoglobin levels in adolescents.

Building on the success of the 'Suphoshan' program, your Company has replicated the nutrition intervention programs in manufacturing locations at Assam, Karnataka, Madhya Pradesh, Gujarat, Maharashtra, Uttarakhand and Tamil Nadu and the participation is encouraging. These community nutrition programs have successfully improved the overall quality of life of women in and around the manufacturing locations.

Your Company is continuously working on its goal to use 100% recyclable laminate packaging in its portfolio by the end of 2024. You would be delighted to know that your Company has successfully developed fully recyclable polypropylene based laminate and currently 60% of the laminate consumed is recyclable. The new laminate composition is certified by premier polymer research institute as 100% recyclable. In addition, your Company is also working towards making bread packaging materials 100% biodegradable by 2024.

Your Company has developed options to use special enhancers, fillers and recycled polymer, thereby reducing usage of virgin plastic by around 35% in secondary packaging bags. Research and Development efforts have helped your Company to reduce 17.5% of plastic tray usage during the year.

Your Company redesigned corrugated boxes without altering capacities and reduced the paper usage across its portfolio. This design change resulted in reducing usage of Kraft paper by ~ 7%.

Your Company has committed to retrieve plastics through Extended Producers' Responsibility (EPR) initiatives across India for multilayer and plastic packaging waste collection and energy recovery in association with Producers Responsibility Organisations (PROs). Your Company has achieved plastic neutral status as on March 2022.

Your Company has been awarded by World Sustainability Congress with Global Sustainability Leadership Awards 2021 for sustainable packaging design.

f. Environment, Social and Corporate Governance Reporting

Your Company's vision of sustainable growth is inspired by the trust of its loyal consumers and a desire to contribute positively to society and environment.

The inaugural Sustainability Report published last year outlined your Company's Sustainability Strategy of Responsible Goodness based on 4 key pillars of economic growth, resources (environment), people (social) and governance. Your Company has made good progress on its agenda of sustainable development across the defined program areas.

Resources

Your Company aims to positively address climate change by minimizing its environmental footprint. Consistent with the goal of reducing the share of fossil fuel-based energy, in FY. 2021-22, your Company's use of renewable energy from wind and solar power has increased by more than 10% over the previous year. This augers well for the attainment of your Company's target of sourcing 60% of its energy needs from renewable sources by 2024.

Last year, your Company took on an ambitious target of reducing water consumption by 30% by 2023-24 from the levels consumed in 2019-20. You would be delighted to note that with regular monitoring, arresting of leakages and an increased focus on reusing and recycling of water, your Company has managed to achieve reduction in water consumption of over 27% and is poised to achieve the targeted levels ahead of time.

Continuing with the focus on sustainable packaging which started in FY. 2013-14, your Company has reduced consumption of laminates by 8.3%/kg this year and has become plastic neutral. Your Company has also been successful in reducing consumption of ~7,50,000 kgs of virgin plastic in secondary packaging during the year which is more than twice the 3,50,000 kgs target set for the year.

Your Company extended its Sustainability Commitments to the Supply Chain by sourcing 73% of palm oil, 79% of olein and 100% of fats from members of the Roundtable of Sustainable Palm Oil (RSPO) and ensured support for local manufacturers by procuring 99% of raw materials other than palm oil from local sources.

People

Access to nutrition for all has been central to your Company's legacy of community focused initiatives. Towards this end, the Malnutrition Reduction Program run by the Britannia Nutrition Foundation aims to improve the nutritional status and address malnutrition among children, adolescents and women.

This program has touched the lives of more than 1,15,000 beneficiaries, resulting in the improvement of 47% of the children's nutritional status from severe & moderate acute malnutrition to normal and a corresponding 38% improvement in adolescents' nutritional status from underweight to normal.

Further, your Company's Dairy Farmer Connect Program continued to improve the socio economic condition of farmers with the number of beneficiaries increasing from 1,250 in March 2021 to 2,450 during this financial year. Your Company also provided dairy farmers with 429 loose housings for cows over this period.

The efforts at advancing Occupational Health and Safety of employees through well-established hazard identification and assessments as well as stringent audits and management of risks have resulted in a reduction in Lost Time Injuries (LTIs) and Medical Treatment Care (MTCs) from 15 and 24 in the financial year 2020-21 to 14 and 22 respectively in the financial year 2021-22.

Your Company is also well placed to achieve the target of 50% gender diversity in manufacturing facilities by March 2024.

Growth

Improvements continued to be made in the Healthy Product Portfolio comprising of products with enhanced whole grains and dietary fibres, and reduced sugar and fat, to address increasing customer expectations of healthy eating choices.

Governance

Your Company's established governance mechanisms and strong leadership continue to facilitate and guide the initiatives towards developing a responsible and sustainable business culture. You would be delighted to learn that rating of your Company's ESG performance by internationally recognized rating agencies viz. the Dow Jones Sustainability Index (DJSI) and Carbon Disclosure Project (CDP) is also being carried out from the F.Y. 2021-22 to facilitate objective assessment of the progress towards attainment of sustainability goals.

g. Brands

The financial year 2021-22 was the second year since the Covid-19 pandemic hit the world and your Company witnessed another year of change, in both environment as well as consumer behaviour. Added to this uncertainty, the category also came under huge inflationary pressure during the year, forcing your Company to take price increases across many of its large SKUs and brands. But the power of our brands and a host of marketing strategies and interventions helped us tide over turbulent times and ensured continued market leadership.

Leveraging and riding the health wave amid growing consumer consciousness

The pandemic and its impact have forced consumers to put health first in their daily lives. Riding on this growing consumer consciousness in the second year of the pandemic, your Company's flagship health brand Britannia NutriChoice carried out several campaigns during the year.

Another big change in consumer behavior during the pandemic has been the shift of consumers towards digital platforms for everyday content. With this context, NutriChoice Digestive did a digital campaign based on a social experiment which corroborated the brand insight that people unknowingly tend to reach out for unhealthy snacking options, and it emphasized how making healthier choices, is in our hands.

NutriChoice Sugar Free Cracker also capitalized on the pandemic-led trend of in-home snacking and explosion of DIY (Do-It-Yourself) recipes using ingredients available in kitchens. This was done by launching an activation called 'Snacker Cracker' aimed at expanding Cracker consumption occasions beyond tea time. Through this campaign, the brand urged consumers to discover new ways of whipping up quick and easy snacks throughout the day using the Cracker and other easily available ingredients.

The new campaign on Britannia NutriChoice Oats was based on the insight that despite the benefits of oats being known to all, many people feel disenchanted with the existing options available to them. The brand highlighted the various choices that it provides with 3 different flavors, offering consumers a delicious way to have oats.

Fortifying core brands with advertising campaigns

Our largest biscuit brand Britannia Good Day launched a new campaign along with the renovated product design which now carries multiple smiles on the cookies within every single pack. This category first innovation was launched with an ad which communicated "When we all have such different smiles, then why should Good Day have only one?". This was amplified with an augmented reality print innovation where consumers could scan the newspaper ad to see how they have personally inspired the many new smiles of Britannia Good Day.

Britannia Bourbon brought in a cool, new gang of friends - Indian cricketers Hardik Pandya, Shreyas Iyer and Deepak Chahar – in its latest communication. In this campaign, Hardik is seen pulling a heist on his friends for the last piece of their favourite Britannia Bourbon.

Britannia Milk Bikis strengthened its relationship with multiple generations of Tamil Nadu consumers who have grown up eating their favourite Milk Bikis. This was done by way of launching Milk Bikis Classic with an ad that triggered nostalgia and gave the consumers another reason to consume their favourite Milk Bikis again, with an interesting story of on-upmanship between a father and a son.

The brand also spoke to a different set of consumers in the Hindi speaking belt of India which largely consumes Glucose biscuits. Using the popularity and wit of the new brand ambassador Pankaj Tripathi,

the ad asked moms to upgrade their kids' biscuit from a "Sadharan" one to Britannia Milk Bikis Atta which provides "Doodh Roti Ki Shakti".

The new Britannia Pure Magic Chocolush ad showed a young couple having a sweet moment together, sharing the Chocolush biscuit and its tasty choco filling. The music of the ad gave it a feel that was... 'Pure Magic'.

Market leadership through multiple innovations

Keeping in mind consumer's need for exciting new products, Britannia brought to market several new innovations such as Good Day Harmony, 50-50 Potazos, NutriChoice Seeds, NutriChoice Herbs, Marie Gold Jeera, Britannia Biscafe and 50-50 Golmaal.

h. Conservation of Energy, Research and Development, Technology Absorption, Foreign Exchange Earnings and Outgo

Details of energy conservation, technology absorption, foreign exchange earnings and outgo in accordance with the provisions of Section 134(3)(m) of the Companies Act, 2013 read with Rule 8 of the Companies (Accounts) Rules, 2014 are given as Annexure 'A' to this Report.

III. DIRECTORS

a. Appointment/Re-Appointment/Cessation

During the year under review, Dr. Urjit Patel, Non-Executive and Independent Director of the Company resigned w.e.f. 31 January 2022. He resigned due to his new full time work assignment and confirmed that there is no other material reason for his resignation. The Board of Directors placed on record their sincere appreciation for valuable contribution made by Dr. Urjit Patel during his tenure on the Board.

Mr. N Venkataraman, was appointed as a Whole-time Director designated as Executive Director and Chief Financial Officer of the Company for period of five (5) years w.e.f. 30 July 2021 upto 29 July 2026.

In accordance with the provisions of Section 152 of the Companies Act, 2013 and the Articles of Association of the Company, Mr. Ness N Wadia (DIN:00036049), Non-Executive Director liable to retire by rotation at the ensuing Annual General Meeting (AGM), and being eligible, offers himself for re-appointment.

The Board of Directors at their Meeting held on 2 May 2022 based on the recommendation of Nomination

and Remuneration Committee, has proposed the re-appointment of Mr. Ness N Wadia for approval of the shareholders at the ensuing AGM of the Company.

Mr. Keki Elavia (DIN: 00003940) was appointed as an Independent Director by the shareholders at the 99th Annual General Meeting held on 6 August 2018 for a period of five (5) consecutive years w.e.f. 7 August 2017 upto 6 August 2022. Pursuant to the provisions of Companies Act, 2013, Articles of Association of the Company, performance evaluation and based on the recommendation of the Nomination and Remuneration Committee, the Board of Directors at their Meeting held on 2 May 2022 approved the re-appointment of Mr. Keki Elavia as an Independent Director for second term of two (2) years w.e.f. 7 August 2022 upto 6 August 2024 or the date of 105th Annual General Meeting, whichever is later, subject to the approval of the Members of the Company by special resolution.

The Board is of the opinion that Mr. Ness Wadia and Mr. Keki Elavia possess the requisite knowledge, skills, expertise and experience to contribute to the growth of the Company.

Profile and other information of Mr. Ness Wadia and Mr. Keki Elavia as required under Regulation 36 of SEBI Listing Regulations, 2015 and Secretarial Standard - 2 are given in the Notice of the 103rd AGM of the Company. The above proposals for re-appointment form part of the Notice of the 103rd AGM and the relevant Resolutions are recommended for approval of the Members of the Company.

b. Directors' Responsibility

Pursuant to Section 134(5) of the Companies Act, 2013, the Board of Directors, to the best of their knowledge and ability, confirm that:

- (i) In the preparation of the annual accounts, the applicable accounting standards have been followed;
- (ii) They have selected such accounting policies and applied them consistently and made judgments and estimates that are reasonable and prudent so as to give a true and fair view of the state of affairs of the Company as on 31 March 2022 and of the profit of the Company for the year;

- (iii) They have taken proper and sufficient care for the maintenance of adequate accounting records in accordance with the provisions of the Companies Act, 2013 for safeguarding the assets of the Company and for preventing and detecting fraud and other irregularities;
- (iv) The Annual Accounts are prepared on a going concern basis;
- (v) They have laid down internal financial controls to be followed by the Company and that such internal financial controls are adequate and are operating effectively;
- (vi) They have devised proper systems to ensure compliance with the provisions of all applicable laws and these systems are adequate and operating effectively.

Based on the framework of internal financial controls and compliance systems established and maintained by the Company, work performed by the internal, statutory and secretarial auditors and external consultant(s) and the reviews made by the Management and the relevant Board Committees including the Audit Committee, the Board is of the opinion that the Company's internal financial controls were adequate and operationally effective during the financial year 2021-22.

IV. CORPORATE SOCIAL RESPONSIBILITY (CSR)

Pursuant to the provisions of Section 135 of the Companies Act, 2013 read with the Companies (Corporate Social Responsibility Policy) Rules, 2014, your Company has undertaken projects/programs in accordance with the CSR Policy. The details of the CSR projects are given as Annexure 'B' to this Report.

V. EMPLOYEES

a. Particulars of Remuneration of Directors, KMPs and Employees

A statement containing the details of the Remuneration of Directors, KMPs and Employees as required under Section 197(12) of the Companies Act, 2013 read with Rule 5 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014 is given as Annexure 'C' to this Report.

However, as per the provisions of Section 136 of the Companies Act, 2013, the report and financial statements are being sent to the Members and others

Bai Jerbai Wadia Hospital for Children (BJWHC)

Bai Jerbai Wadia Hospital for Children and Research Centre (BJWHC) established in 1929, strongly focuses on providing preventive healthcare to women & children in rural, semi-urban and urban communities. Today, BJWHC is the leading paediatric teaching institute with one of the largest Neonatal Intensive Care Unit (NICU) in the world with 155 beds. The hospital has more than 30 sub-specialties and can accommodate around 525 patients, providing comprehensive care to children under one roof. BJWHC has well established centres of excellence in Paediatric Cardiology, Neurology, Nephrology, Orthopaedics, Haematology to name a few. In partnership with UNICEF, BJWHC is also addressing child survival and development with equity among the most deprived by providing a state-of-the-art advanced Nutrition Rehabilitation Centre for children with Severe Acute Malnutrition.

BJWHC sees an inflow of over 2,00,000 patients on an outpatient basis and more than 25,000 children on an inpatient basis. The hospital has performed over 2,000 cardiac surgeries since the department was established in February 2017. BJWHC also reaches out to the community by conducting outreach medical camps to benefit the tribal population in Palghar district.

To meet the continuous demand of patients and in order to provide all the services under one roof, there is a constant need for up gradation of services and technology at Bai Jerbai Wadia Hospital for Children to provide state-of-the-art comprehensive health care services which are affordable and convenient for children from lower socio-economic section of the society. It is expected that, these projects will increase accessibility and affordability of basic and specialized medical services among vulnerable children across India.

Nowrosjee Wadia Maternity Hospital (NWMH)

Nowrosjee Wadia Maternity Hospital was established in the year 1926 in Mumbai to provide affordable comprehensive healthcare and super speciality services for women. The hospital specialises in offering affordable obstetric and gynaecological services to women across all sections of society, catering to their changing needs through different stages of their lives. It also acts as a tertiary level referral centre as well as helps rehabilitate these women and their families by showing them methods of improving the health and sanitation around their environment and thus ensuring a healthy life for their whole family.

To meet the continuous demand of patients and in order to provide all the services under one roof, there is a constant need for up gradation of services and technology at Nowrosjee Wadia Maternity Hospital. It is expected that these projects will increase accessibility and affordability of basic and specialized medical services among vulnerable women and children in the community.

Sir Ness Wadia Foundation (SNWF)

A. Covid-19 relief activity

During the second and third wave of Covid-19, the requirement of ready to eat items emerged and SNWF distributed RTE biscuits and dairy products to the health workers, migrants, daily wage workers and other needy people in the community.

Sir Ness Wadia Foundation has distributed 10,48,073 cooked meals in Mumbai, Maharashtra. Around 8,40,000 packets of biscuits were distributed PAN India during the year 2021-22.

The relief activity was continued with supply of nutrition supplementary kit to MAM (Moderately Acute Malnourished) children in the project locations. More than 450 kits were distributed for 3 months in Palghar.

B. Village Development Program

Sir Ness Wadia Foundation is working to improve Health and Nutrition through 'The Village Development Program'. The two main objectives of this project are to reduce malnutrition and ensure sustainable development in villages. The target beneficiaries of this project are children below the age of 6 years, adolescent girls, lactating mothers, pregnant women and farmers.

The key program interventions are given below:

Health Camp: Health Camps were conducted to screen the health status of target beneficiaries namely children, adolescents, pregnant and lactating women. More than 400 target beneficiaries were screened during the health camp.

Counselling, awareness sessions and nutrition related activities were conducted with these beneficiaries to improve knowledge about their nutritional status.

Critical cases were referred to Wadia Hospital for further diagnosis and treatment.

Nutrition Garden, Wadi Distribution and Pullet Distribution: Seed kits and other required materials to set up nutrition gardens were given along with basic training to 3,516 beneficiaries. 3,614 beneficiaries were given 7 varieties of fruit bearing plants. 10 pullets each were distributed among 324 families having SAM and MAM children to promote consumption of eggs and increase the intake of nutritious food. The increase in nutritional intake helps to combat malnutrition.

Awareness Sessions: Awareness sessions were conducted to increase the knowledge about the malnutrition and its causes and effects. 2,695 beneficiaries were made aware on topics like health, hygiene, malnutrition, menstruation, ill effects of early marriage, superstition and many more through street plays, sessions by nutrition experts and demonstration of cooking nutritious food.

Training and Capacity Building: Capacity building sessions are conducted for field coordinators on health and nutrition in order to reach out to our target beneficiaries in a very effective way.

Livelihood: 383 Farmers were given training in vegetable farming and vegetable seeds were distributed to support second farming post harvesting of rice. This activity generates additional income for farmers and helps to curb migration which in turn helps families to avail the benefits provided by anganwadi which they are otherwise deprived of due to migration.

258 landless farmers were provided with alternate means of livelihood in the form of poultry farming viz., 15 pullets and 20 kg pullet feed to each beneficiary.

Water Resource Development: Water Resource Structures were constructed, repaired or refurbished to provide drinking water and water for irrigation. Around 12,000 individuals were benefitted by construction/repair and refurbishment of 12.24 km of canals, 3 check dams, 6 wells, 36 hand pumps and 3 farm ponds. Solar pumps are installed at 3 villages to lift water from nearby water resources and provide water to around 1,500 community members. 101 pregnant and lactating women were given water wheels to reduce their hardship of fetching water from water source located far from village for their daily needs. 15 water filters were provided to schools, anganwadis and primary health centres (PHCs) to make provision for clean drinking water to 450 individuals. 2 community ROs were also set up benefitting 900 villagers. Rainwater harvesting systems were constructed at 58 anganwadis to ensure recharge of ground water.

Intervention under infrastructure: Infrastructure which caters to the beneficiaries are constructed, repaired or refurbished as per the need to provide better facilities to the villagers. 10 anganwadis were repaired and refurbished which provides nutrition benefit to 1,258 beneficiaries. 5 schools were repaired and refurbished providing better education facility to 347 students. 5 sanitation units were repaired and refurbished providing sanitation facilities to 962 students. 1PHC was repaired and refurbished which have footfall of 40-50 patients every day. To ensure safety at night, 28 solar streetlights were installed benefitting more than 8,000 villagers.

MANAGEMENT DISCUSSION AND ANALYSIS

(A) INDUSTRY STRUCTURE AND DEVELOPMENT

The year witnessed rapid developments which had significant impact on the Food Industry. The recurrent waves of Covid-19 pandemic continued to affect business activities. Economic recovery, after the second and third waves of the Covid-19 pandemic in India, was fairly subdued due to rising inflation, supply side constraints, currency and commodity volatility and unforeseen geo-political tensions.

Dealing with rising input costs in a low demand environment was the critical challenge confronting businesses during the year. The severity of the inflation in essential inputs like refined palm oil and crude oil was a source of particular concern for the Food Industry. Just as these challenges were being addressed, the Russia-Ukraine crisis resulted in a further aggravation of inflationary tendencies across the board, resulting in price increases and concerns over availability of commodities like wheat and sugar which form the core inputs for the food industry.

Despite these challenges, your Company was able to ensure consistent growth by creating and sustaining an ecosystem of efficiencies through planned cost efficiency programs, innovations, IT transformation, process improvements and supply chain management.

The importance of adopting sustainable practices has acquired greater urgency for businesses due to the pace of environmental, social and economic developments. As a responsible corporate citizen, your Company has also undertaken major initiatives to integrate sustainability into all aspects of its business.

BAKERY BUSINESS

Biscuit

Biscuits is the largest category in the food business in India. It is present in the consumption basket of virtually every Indian family as an essential product. It is one of the most deeply penetrated categories in the country, reaching over 90% of the households. However, the per capita consumption of biscuits in India is relatively low at 2 kgs versus 10 kgs in certain developed countries. The low per capita consumption and high levels of penetration continue to provide excellent opportunities to increase consumption through proactive interventions and strategies.

Cake

Cake is a category in which product innovation at affordable price points has accelerated, thereby leading to intense competition. The category growth has been affected due to school closures on account of the pandemic, decline in out of home consumption and sluggish economic conditions.

Rusk

Rusk as a category witnessed significant growth on account of prolonged lockdowns and rise of in-home consumption. However, the demand has now stabilized. Product innovation in this category in India remains low and offers significant opportunity for disruption with new value added offerings.

Bread

Bread is considered as a staple food in many parts of India. With increasing consumer preference for healthy and value added products, this category provides significant opportunities for established players and new entrants.

DAIRY BUSINESS

India is ranked No.1 in milk production and currently contributes ~23% of global milk production. Organized dairy segment, which constitutes about 26%-30% of the Indian dairy industry (by value) has seen faster growth compared to the unorganized segment. The organized dairy industry is likely to witness 12% revenue growth this financial year to reach ₹ 1.6 lakh Crore, mainly due to recovery in demand for value-added products, steady liquid milk sales and a hike in the retail price. While packaged liquid milk will remain a key driver of the industry growth, value added dairy products are also expected to witness healthy growth.

ADJACENT BUSINESS

Cream Wafers

Wafers is a ~ ₹ 750 Crore category which is growing at a healthy pace year-on-year. Your Company is one of the pioneering brands to enter this space. The category is highly unorganized and fragmented. This presents your Company with an opportunity for leveraging the strengths of nationwide presence and innovation to rapidly grow in this category.

Center Filled Croissants

Croissant continues to be a new category in India. However, there is an increase in consumer interest and market activity in this category. Consumption patterns are changing owing to lifestyle changes, people are getting exposed to global foods and seeking on-the-go-convenient packaged options. Croissants, being one of them, has enormous potential for acceptance in the domestic market. Your Company has a promising opportunity to pioneer and actively drive growth in this category by making Croissants readily available to the masses.

Salted Snacks

Salted Snacks is a category of significant interest to your Company. Savory snacking is inherent and integral to Indian food and entertainment culture. This category is primarily driven by delightful sensorial experience viz., flavor, texture, shapes, formats, color and mouthfeel. This is a large category within the packaged food segment which is witnessing intense competition from multiple players, national as well as regional. The category growth was impacted in the last few years due to restrictions in movements during Covid-19 pandemic.

With growing consumer preference for snacks in healthier formats and migration from unorganized/local products to branded products, your Company expects more growth in this category.

International Business

International Business for your Company is largely centered on Middle East, America, Africa, Asia Pacific and SAARC. The business environment in these geographies is highly competitive with the presence of large local and international players. International business is also increasingly fraught with other challenges such as middle east oil price shocks, geo-political conflicts, exodus of expatriates, localisation of work force, increasing tariff & non-tariff barriers, exchange rate fluctuations etc. There is an increased emphasis on locally manufactured products in emerging economies. After the Covid-19 pandemic, there has been an accelerated growth of E-commerce channels especially in GCC, Americas and some emerging markets.

(B) BUSINESS STRATEGY

BAKERY BUSINESS

Biscuit

Continue to build a strategy to win in ‘Many Indias’: As part of this strategy, your Company continued its march in Hindi speaking states with Milk Bikis Atta. The proposition of ‘Doodh Roti Ki Shakti’ resonates with this part of the country where consumers have grown up with these foods. Your Company has also launched Britannia 50-50 Golmaal which is a product created especially for the palate of the consumer from the East who loves her ‘kalo jeere’. Your Company also innovated and co-created a new Marie Gold variant (Marie Gold Jeera) in partnership with selected homemakers in Tamil Nadu. This was done by curating local flavours from their kitchens to eventually launch the perfect fit that would cater to the taste buds of this state. Your Company recognizes that India is a composite of ‘many Indias’ with diverse regional preferences and will continue to build on such localized strategies.

Renovate to Strengthen the Core: In its continuous endeavor to provide excitement and goodness, your Company renovated its largest biscuit brand Good Day with the introduction of different smiles on the product. Every pack of Britannia Good Day now comes with not just one, but four different smiles packed into it. The chocochip variant under the brand Good Day was also renovated to deliver superior tasting products in an attractive packaging.

Engineer upgrades and tap into consumers moving up the economic ladder: Your Company continued to nourish its long term strategy of driving upgrades through launches such as Good Day Harmony and Milk Bikis Classic aimed at upgrading consumers of these brands to more premium offerings.

Cake

Your Company’s strategy is to strengthen its portfolio by launching new products, premiumizing and growing the base cake portfolio with exciting products and creating new-to-market formats at affordable price points.

Rusk

Your Company’s strategy to grow in this category is to build capabilities through technology upgradation, renovate recipes and expand the portfolio with new

varieties, thereby offering superior taste and quality products at affordable prices to consumers. This will help your Company to meet consumer preferences and gain market share in this category.

Bread

In accordance with your Company's strategy of gaining leadership in healthier choice segment and increasing the share of the value added portfolio, new products such as High Fiber Bread, Hot Dogs, Choco-Bun and Choco-Bread were added to the portfolio during the year.

Your Company continued its focus on improvements in infrastructure and distribution to ensure better quality products and greater reach, particularly in E-commerce and Modern Trade.

DAIRY BUSINESS

Product & Innovation - Your Company's strategy is to continue its focus on the core brands as well as building a portfolio to cater to various palates and taste preferences. As part of this strategy, your Company emphasized the relevance of 'Britannia Cheese' in meeting the need for 'Good Quality Protein' and created a fun and youthful imagery for 'Winkin' Cow' Brand.

Your Company also plans to incubate the 'fresh business' through the launch of multiple products viz., Dahi, Paneer, Greek Yogurt and Smoothies under the 'Come Alive' brand.

Dairy Backend Capabilities - Your Company has invested in a state-of-the-art manufacturing facility at Ranjangaon, which is fully compliant with global standards. It has the infrastructure to function as a multi category dairy plant with capabilities ranging from yogurt, ghee, cheddar, processed cheese, skimmed milk powder etc. Milk collection has also been scaled-up to 65,000 litres per day from 2,450 farmers. Your Company has also commissioned a state-of-the art aseptic PET line with 1,800 tons per month capacity to enable shift to PET packaging which has a superior consumer imagery.

Growth through Channel Mix - Scaling up availability is key to meeting the business goals and your Company has improved distribution of Cheese and Winkin' Cow across traditional channels, while developing E-commerce as a pivotal part of its distribution strategy. Your Company is also evaluating partnerships with Quick Service Restaurants (QSRs) and restaurants in the coming year.

ADJACENT BUSINESS

Cream Wafers

Cream Wafers is one of the fastest growing categories. The consumer acceptance of Treat Crème Wafers accompanied by the recent launch of Treat Stix has encouraged your Company to innovate and launch differentiated products in the market.

With robust in-house research and manufacturing capabilities, your Company is striving to attain leadership position in this category.

Center Filled Croissants

'Britannia Treat Centre-filled Croissants' which was launched in select geographies and trade channels, has received positive response from the consumers. Your Company's strategy is to build awareness of this category among consumers through brand building and scale up distribution across the country. Your Company also has plans to offer consumers greater choices of their favourite Croissants through launch of exciting variants in the coming year.

Your Company has research capabilities and state-of-the-art manufacturing facility in Ranjangaon, Maharashtra to implement its strategies and achieve leadership in this category.

Salted Snacks

This is one of the important categories for your Company's vision to become a 'Global Total Foods Company'. Your Company intends to strengthen its brand "Time Pass" to achieve a significant position in this category through launch of differentiated products at competitive prices.

INTERNATIONAL BUSINESS

Your Company's strategy to achieve growth and market share in International Business is to:

- a. Strengthen brand equity and affinity for its products among the Indian diaspora to retain its competitive edge over other international players;
- b. Offer new product experiences to existing consumers and ethnicity inspired offerings to recruit other nationalities;
- c. Establish and grow local operations in fast growing emerging markets through evaluation of available opportunities like contract manufacturing, acquisitions, joint ventures, etc.

- d. Customize its distribution strategy in Middle East North Africa (MENA) markets to address the dynamic business requirements.
- e. Build on the favorable consumer response and growth potential in the export markets in Americas, Asia and Africa that were developed in the past years by intensifying presence in mainstream & E-commerce channels and opening white space markets.

Volatility in commodity prices is being addressed through efficient procurement plans, robust review mechanisms and extracting more savings by efficient management of end-to-end supply chain costs. The International Business also successfully upgraded its ERP system during the year.

(C) SEGMENT INFORMATION

The primary business segment of your Company is Foods.

(D) OUTLOOK

The economy was beset by a multitude of challenges all through the year. With humanity beginning to come to terms with recurring waves of Covid-19 pandemic and the progressive re-opening of economies, there were noticeable signs of recovery. However, the severe and sustained inflation in commodities, especially edible oils, due to supply disruptions and export restrictions in producer nations, impacted the economy and food companies severely. The unabated inflation in edible and fuel oils eventually affected the nascent recovery in consumer demand, thereby hampering the ability of companies to effect proportionate price hikes to offset the effects of inflation.

Just as economies and Companies were beginning to come to terms with the situation, geopolitical tensions coupled with the consequent economic disruptions arising from the Russian invasion of Ukraine has led to the compounding of inflation pressures and further deterioration in the global economy.

Your Company was also affected by these developments and is addressing the twin challenges of rising inflation and muted consumer demand through product innovation, sustainable cost saving measures and calibrated price increases.

These measures and the innate strengths of its brands, distribution network, human resources and technology interventions are expected to be of significant

support to the Company in maintaining growth and profitability in a challenging environment, the likes of which the world has not seen in a long time.

(E) OPPORTUNITIES AND THREATS

BAKERY BUSINESS

Biscuit

Due to high levels of household penetration in biscuits category, the potential for growth is immense. The per capita consumption of biscuits in India continues to lag behind the levels seen in developed countries. The possibilities for increasing consumption through innovative, healthy and superior offerings in this category are numerous, which augurs well for your Company in view of the established brands and capabilities.

The immediate threat in this category is from the sustained inflation in commodity prices and increasing competition.

Cake

This category offers various opportunities for launch of innovative products at different price points and expansion in rural markets. The primary threat in this category is inflation in commodity prices and emergence of disruptive formats at entry level price points.

Rusk

This category holds enormous promise and offers opportunities for growth to companies with national presence, due to its fragmented and unorganized nature. The consumer base can be further expanded by offering differentiated products of superior quality at attractive prices.

The possibility of reduced consumption and consumer preference for local players in an inflationary environment is a major threat in this category.

Bread

There are significant opportunities to grow in this category by offering healthy and value added products and expanding in newer geographies. Since demand for consumers is spread among unorganized and organized players, there are opportunities for consolidation in this category.

However, increasing competition and high commodity prices pose challenges to the Company's business.

DAIRY BUSINESS

This category is expanding with the addition of value added products to meet changing consumer needs and experiences. The potential to leverage technology, scale and reach to achieve growth is attractive in this industry. Since the dairy business is environment friendly, it has high salience for your Company's long term quest to develop sustainable businesses.

The challenges continue to come from our dependencies in milk procurement and manufacturing through co-packers. To address this, your Company has been using the power of technology through an app to monitor procurement and secure quality and productivity while curbing dependency on co-packers by commissioning a state-of-the-art Dairy Manufacturing facility in Ranjangaon, Maharashtra. The increasing trend in inputs prices such as labour and raw material in recent times also pose major challenges to this business.

ADJACENT BUSINESS

Cream Wafers

This category offers immense potential for growth due to its fragmented nature, low category penetration and few large competitors. However, there is an increase in competitive activities with the launch of many differentiated and premium products by new entrants from the International Market at very competitive price points. This could impact the category expansion strategy.

Center Filled Croissants

Since this is a new category, it provides opportunities to scale up the business to attain leadership in the domestic market. Increasing consumers awareness and interests in this category continues to be a challenge to make Croissant the preferred choice of consumers.

Salted Snacks

Salted Snacks is a large category which provides ample opportunities for growth through disruptive innovations. Since it is highly unorganized category, established organizations with national presence and prominent brands would leverage their strengths to gain market share.

The requirement of significant investment in advertisement, consumer promotions and discounts

to address competition continues to pose challenges. Further, the presence of regional players also affects the prospects for growth in this category.

INTERNATIONAL BUSINESS

The International business was affected by decline in demand due to Covid-19 pandemic, skyrocketing commodity prices and abnormally high ocean freight rates with disruption in shipping lead times.

International Business continues to innovate with unique and tailor made launches such as Toastea Dry cake, Goodday Chunkies Soft baked cookies, Britannia Black-seed digestives, etc. to cater to the needs of various markets and ethnicities. Additionally, International Business has embarked on local manufacturing in several emerging markets in MENA region.

(F) RISKS AND CONCERNS

The broader trends in the economy are expected to have a direct impact on your Company's growth prospects as well. Inflation is expected to remain elevated for the foreseeable future, driven by war-induced commodity price increases and broadening price pressures. In addition, the anticipated increase in interest rates by Central Banks in the coming year are also expected to lower growth and exert pressure on economies particularly those in emerging markets.

In these circumstances, the ability to successfully navigate cost pressures would have a significant bearing on the overall performance of your Company.

Diminishing purchasing power and demand due to the economic circumstances could result in fundamental shifts in consumer behaviors and adversely impact the market for packaged food products. Migration to value for money options could also lead to reduced growth and profitability for your Company.

(G) FINANCIAL AND OPERATIONAL PERFORMANCE

The key highlights of the standalone financials are:

Particulars	₹ In Crores

Holistic Wellness: One of the key pillars of sustainability under the People Agenda is Employee Well-Being. Your Company focused on holistic wellness of colleagues as well as family members:

- a. Physical Wellness – Fitness Fridays, medical concierge desk, continuous access to doctor and nutritionist on call and expert sessions focused on physical wellness.
- b. Emotional Wellness – Mindful Monday focused expert talks, 24/7 psychologist on call and hope circles for employees to have open conversations to reinforce the importance of mental wellness.
- c. Financial Wellness – Counselling on financial planning and support in tax filing.
- d. Social Wellness – Parenting tips, career guidance programs, Little B Junior and Senior summer camps for the children of employees.

Britannia for Britannians: Your Company nurtures home grown talent and provides opportunities for employees to enhance their potential for bigger and more challenging roles. Your Company continued to champion 'Britannia for Britannians' philosophy.

An objective talent intervention was undertaken to enhance potential of leaders for higher roles and provide them a career visibility as part of succession planning. This was done through a thorough assessment via a leadership simulation, 360 feedback and personality assessment of high potential future leaders. Individual development plans were then built, and personalized interventions / learning journeys were charted out.

Industrial Relations: Your Company continues to maintain harmonious Industrial Relations in all its Factories through regular connect with the Employees and their representatives.

(K) CAUTIONARY STATEMENT

Statements in this Management Discussion and Analysis describing the Company's objectives, expectations or predictions may be forward looking within the meaning of applicable laws and regulations. Actual results could differ materially from those expressed or implied. Important factors that could make a difference to your Company's operations include raw material availability and prices, cyclical demand and pricing in the Company's principal markets, competitive actions, disruptions caused by pandemic and natural calamities, changes in government regulations, tax regimes, economic developments in India and in countries in which the Company conducts business and other incidental factors.

INDEPENDENT AUDITORS' REPORT

To the Members of Britannia Industries Limited

Report on the Audit of the Standalone Financial Statements

Opinion

1. We have audited the accompanying standalone financial statements of Britannia Industries Limited ('the Company'), which comprise the Balance Sheet as at 31 March 2022, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Cash Flow, the Statement of Changes in Equity for the year then ended and a summary of the significant accounting policies and other explanatory information.
2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ('the Act') in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards ('Ind AS') specified under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015 and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2022, its profit (including other comprehensive income), its cash flows and the changes in equity for the year ended on that date.

5. We have determined the matters described below to be the key audit matters to be communicated in our report.

Key audit matter	How our audit addressed the key audit matter
<p>Revenue Recognition (refer note 3(h) and 26 to the standalone financial statements)</p> <p>The revenue of the Company consists primarily of sale of food products that are sold through distributors, modern trade and direct sale channels amongst others. Revenue is recognized when the control of products is transferred to the customer and there is no unfulfilled obligation.</p> <p>Owing to the volume of sales transactions, size of the distribution network and varied terms of contracts with customers, revenue is determined to be an area involving significant risk in line with the requirements of the Standards on Auditing and hence, requiring significant auditor attention.</p>	<p>Our key audit procedures around revenue recognition included, but were not limited to, the following:</p> <ul style="list-style-type: none"> • Assessed the appropriateness of the revenue recognition accounting policies of the Company including those relating to rebates and trade discounts, by evaluating compliance with the applicable accounting standards. • Evaluated the design and tested the operating effectiveness of the relevant key controls with respect to revenue recognition including general and specific information technology controls. • Performed substantive testing on selected samples of revenue transactions recorded during the year by testing the underlying documents including contracts, invoices, goods dispatch notes, shipping documents and customer receipts, wherever applicable. • Understood and evaluated the Company's process for recording of the accruals for discounts and rebates and ongoing incentive schemes and on a test basis, verified the year-end provisions made in respect of such schemes.

Basis for Opinion

3. We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

4. Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter	How our audit addressed the key audit matter
<p>The management is required to make certain key judgements around determination of transaction price in accordance with the requirements of Ind AS 115, “Revenue from Contracts with Customers” on account of consideration payable to customers in the form of various discount schemes, returns and rebates.</p> <p>The Company and its external stakeholders focus on revenue as a key performance indicator and this could create an incentive for revenue to be overstated or recognised before control has been transferred.</p> <p>Considering the aforesaid significance to our audit and the external stakeholders, revenue recognition has been considered as a key audit matter for the current year’s audit.</p>	<ul style="list-style-type: none"> • Performed analytical review procedures on revenue recognised during the year to identify any unusual and/or material variances. • Performed confirmation and alternative procedures on selected invoices outstanding as at the year end. • Tested a select sample of revenue transactions recorded before the financial year end date to determine whether the revenue has been recognised in the appropriate financial period. • Tested a sample of manual journal entries posted to revenue ledgers to identify any unusual items. • Evaluated the appropriateness and adequacy of disclosures in the standalone financial statements in respect of revenue recognition in accordance with the applicable requirements.
Key audit matter	How our audit addressed the key audit matter
<p>Related Party Transactions (refer note 43 to the standalone financial statements)</p> <p>The Company has entered into several transactions with related parties during the year ended 31 March 2022 and also has outstanding balances as at the year end.</p> <p>We identified related party transactions as a key audit matter due to the risk with respect to completeness of disclosures made in the standalone financial statements due to a volume of such transactions, recoverability of balances outstanding, compliance with statutory regulations governing related party transactions such as the Companies Act, 2013 and Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations 2015 (‘the SEBI listing regulations’), and the judgements involved in assessing whether transactions with related parties are undertaken at an arms’ length.</p>	<p>Our key audit procedures around related party transactions included, but were not limited to, the following:</p> <ul style="list-style-type: none"> • Evaluated the design and tested the operating effectiveness of the relevant key controls to identify and disclose related party relationships and transactions in accordance with the relevant accounting standards. • Assessed the compliance with the SEBI listing regulations and the regulations under the Companies Act, 2013, including authorization and approvals as specified in Sections 177 and 188 of the Companies Act, 2013 with respect to the related party transactions, as applicable. In cases where the matter was subject to interpretation, we assessed reasonableness of management’s judgement by considering the advice obtained by management from legal practitioners. • On a sample basis, inspected relevant ledgers, agreements and other information that may indicate the existence of related party relationships or transactions. We also assessed the completeness of related parties with reference to the various statutory registers and declarations maintained by the Company’s management. • Verified the management’s assessment of recoverability of dues from related parties by reference to underlying supporting documents such as valuation of underlying assets of such entities and settlement of such transactions subsequent to the balance sheet date. • On a sample basis, tested the Company’s assessment of related party transactions for arms’ length pricing. • Considered the adequacy and appropriateness of the disclosures made in the standalone financial statements of related party relationships and transactions in accordance with the requirements of applicable accounting standard.

Key audit matter	How our audit addressed the key audit matter
<p>Litigations, provisions and contingencies (refer note 25 and 35 to the standalone financial statements)</p> <p>The Company is involved in various direct tax, indirect tax and other litigations ('litigations') that are pending with different statutory authorities.</p> <p>Provisions are recognized when the Company has a present obligation (legal/ constructive) as a result of a past event for which it is probable that a cash outflow will be required and a reliable estimate can be made of the amount of the obligation.</p> <p>A disclosure for contingent liabilities is made where there is a possible obligation or a present obligation that may probably not require an outflow of resources. When there is a possible or a present obligation where the likelihood of outflow of resources is remote, no provision or disclosure is made.</p> <p>The aforesaid assessment requires the Management to make judgements and estimates in relation to the matters and exposures arising from a range of matters relating to direct tax, indirect tax, claims, general legal proceedings and other claims against the Company arising in the regular course of business.</p> <p>The level of management judgement associated with determining the need for, and the quantum of, provisions for any liabilities and disclosures of any contingent liabilities arising from these litigations is considered to be high.</p> <p>This judgement is dependent on a number of significant assumptions and assessments which involves interpreting the various applicable rules, regulations, practices and considering precedents in the various jurisdictions, for which the management uses various subject matter experts.</p> <p>In view of the uncertainty relating to the outcome of these litigations, the significance of the amounts involved, and the subjectivity involved in management's judgement, this matter has been considered as a key audit matter for the current year audit.</p>	<p>Our key audit procedures around litigations, provisions and contingencies included, but were not limited to, the following:</p> <ul style="list-style-type: none"> • Assessed the appropriateness of the Company's accounting policies relating to provisions and contingent liability by comparing with the applicable accounting standards. • Evaluated the design and tested the operating effectiveness of the relevant key controls around the recording and assessment of litigations, provisions and contingent liabilities. • Engaged subject matter specialists to gain an understanding of the current status of litigations and monitored changes in the disputes, if any, through discussions with the management and by reading external advice received by the Company from legal counsel, where relevant, to validate management's conclusions. • Obtained and assessed the Company's assumptions and estimates in respect of litigations, including the liabilities or provisions recognized or contingent liabilities disclosed in the standalone financial statements. This involved comparing the same to the assessment of our subject matter specialists and assessing the probability of an unfavorable outcome of a given proceeding and the reliability of estimates of related amounts. • On a test basis, performed substantive procedures on the underlying calculations supporting the provisions recorded. • Assessed the appropriateness and adequacy of the disclosures made in relation to related provisions and contingencies in the standalone financial statements.

Information other than the Standalone Financial Statements and Auditor's Report thereon

6. The Company's Board of Directors are responsible for the other information. The other information comprises the information included in the Board's report but does not include the standalone financial statements and our auditor's report thereon, which we obtained prior to the date of this auditor's report, and the Annual report, which is expected to be made available to us after that date.

Our opinion on the standalone financial statements does not cover the other information and we do not and will not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

When we read the Annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

7. The accompanying standalone financial statements have been approved by the Company's Board of Directors. The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation and presentation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS specified under Section 133 of the Act and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.
8. In preparing the standalone financial statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.
9. Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

10. Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.
11. As part of an audit in accordance with Standards on Auditing, specified under Section 143(10) of the Act, we exercise professional judgment and maintain professional skepticism throughout the audit.

We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system with reference to standalone financial statements in place and the operating effectiveness of such controls;
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management;
- Conclude on the appropriateness of management's use of the going concern basis

of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern;

- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation; and
 - Obtain sufficient appropriate audit evidence regarding the standalone financial statements of the Company to express an opinion on the standalone financial statements.
12. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
 13. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
 14. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

15. As required by Section 197(16) of the Act based on our audit, we report that the Company has paid remuneration to its directors during the year in accordance with the provisions of and limits laid down under Section 197 read with Schedule V to the Act.
16. As required by the Companies (Auditor's Report) Order, 2020 ('the Order') issued by the Central Government of India in terms of Section 143(11) of the Act we give in the Annexure I, a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
17. Further to our comments in Annexure I, as required by Section 143(3) of the Act based on our audit, we report, to the extent applicable, that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit of the accompanying standalone financial statements;
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
 - c) The standalone financial statements dealt with by this report are in agreement with the books of account;
 - d) In our opinion, the aforesaid standalone financial statements comply with Ind AS specified under Section 133 of the Act;
 - e) On the basis of the written representations received from the directors and taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2022 from being appointed as a director in terms of Section 164(2) of the Act;
 - f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company as on 31 March 2022 and the operating effectiveness of such controls, refer to our separate Report in Annexure II wherein we have expressed an unmodified opinion; and

- g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our information and according to the explanations given to us:
- i. As detailed in note 25 and 35 to the standalone financial statements, the Company has disclosed the impact of pending litigations on its financial position as at 31 March 2022;
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses as at 31 March 2022;
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company during the year ended 31 March 2022;
 - iv.
 - a) The Management has represented that, to the best of its knowledge and belief, as disclosed in the note 50 to the standalone financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other persons or entities, including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the "Ultimate Beneficiaries".
 - b) The Management has represented, that, to the best of its knowledge and belief, as disclosed in the note 50 to the standalone financial statements, no funds have been received by the Company from any persons or entities, including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and
 - c) Based on such audit procedures performed as considered reasonable and appropriate in the circumstances, nothing has come to our attention that causes us to believe that the management representations under sub-clauses (a) and (b) above contain any material misstatement;
 - v. The interim dividend paid by the Company during the year in respect of the same declared for the previous year is in accordance with Section 123 of the Companies Act 2013 to the extent it applies to payment of dividend.
- As stated in note 19 to the standalone financial statements, the Board of Directors of the Company has proposed final dividend for the year which is subject to the approval of the members at the ensuing Annual General Meeting. The dividend declared is in accordance with Section 123 of the Act to the extent it applies to declaration of dividend.

ANNEXURE I REFERRED TO IN PARAGRAPH 16 OF THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE TO THE MEMBERS OF BRITANNIA INDUSTRIES LIMITED ON THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2022

In terms of the information and explanations sought by us and given by the Company and the books of account and records examined by us in the normal course of audit, and to the best of our knowledge and belief, we report that:

- (i) (a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of property, plant and equipment including right of use assets and investment property.
- (B) The Company has maintained proper records showing full particulars of intangible assets.
- (b) The Company has a regular program of physical verification of its property, plant and equipment including right of use assets and investment property under which the assets are physically verified in a phased manner over a period of three years, which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. In accordance with this program, certain property, plant and equipment including right of use assets and investment property were verified during the year and no material discrepancies were noticed on such verification.
- (c) The title deeds of all the immovable properties (including investment properties) held by the Company (other than properties where the Company is the lessee and the lease agreements are duly executed in favour of the lessee) disclosed in the standalone financial statements are held in the name of the Company. For properties where the Company is a lessee and the lease agreements are duly executed in favour of the lessee, the Company has entered into sub-leasing arrangements in a certain case.
- (d) The Company has not revalued its Property, Plant and Equipment including Right of Use assets and intangible assets during the year.
- (e) As per explanation and representations provided to us, no proceedings have been initiated or are pending against the Company for holding any benami property under the Benami Transactions

(Prohibition) Act, 1988 (45 of 1988) and rules made thereunder. Accordingly, reporting under Clause 3(i)(e) of the Order is not applicable to the Company.

- (ii) (a) The management has conducted physical verification of inventory at reasonable intervals during the year, except for goods-in-transit. In our opinion, the coverage and procedure of such verification by the management is appropriate and no discrepancies of 10% or more in the aggregate for each class of inventory were noticed.
- (b) The Company has not been sanctioned working capital limits by banks or financial institutions on the basis of security of current assets during any point of time of the year. Accordingly, reporting under Clause 3(ii)(b) of the Order is not applicable to the Company.
- (iii) (a) The Company has provided loans and guarantees to four companies. The details of the same are given below:

(in ₹ crores)

Particulars	Guarantees	Loans
Aggregate amount during the year		
- Subsidiaries	64.34	-
- Associates	-	-
- Others	-	740
Balance outstanding as at balance sheet date		
- Subsidiaries	63.67	-
- Associates	-	-
- Others	-	798

- (b) The investments made, guarantees provided and terms and conditions of the grant of all loans and guarantees provided are not, prima facie, prejudicial to the Company's interest.
- (c) In respect of loans granted by the Company, the schedule of repayment of principal and payment of interest has been stipulated and the repayments/receipts of principal and interest are regular.

- (d) There is no overdue amount in respect of loans granted to such companies or other parties.
- (e) The Company had granted loans which have fallen due during the year and were repaid on or before the due date. Further, no fresh loans were granted to any party to settle the overdue loans.
- (f) The Company has not granted any loan, which is repayable on demand or without specifying any terms or period of repayment.
- (iv) In our opinion, and according to the information and explanations given to us, the Company has complied with the provisions of Sections 185 and 186 of the Act in respect of loans, investments, guarantees and security, as applicable.
- (v) The Company has not accepted any deposits or there is no amount which has been considered as deemed deposit within the meaning of Sections 73 to 76 of the Act and the Companies (Acceptance of Deposits) Rules, 2014 (as amended). Accordingly, reporting under Clause 3(v) of the Order is not applicable to the Company.
- (vi) The Central Government has not specified maintenance of cost records under sub-section (1) of Section 148 of the Act, in respect of Company's products. Accordingly, reporting under Clause 3(vi) of the Order is not applicable.
- (vii) (a) In our opinion, and according to the information and explanations given to us, the Company is regular in depositing undisputed statutory dues including goods and services tax, provident fund, employees' state insurance, income-tax, sales-tax, service tax, duty of customs, cess and other material statutory dues, as applicable, with the appropriate authorities. Further, no undisputed amounts payable in respect thereof were outstanding at the year-end for a period of more than six months from the date they became payable.
- (b) According to the information and explanations given to us, there are no statutory dues referred in sub-clause (a) which have not been deposited with the appropriate authorities on account of any dispute except for the following:

- (xiii) In our opinion and according to the information and explanations given to us, all transactions entered into by the Company with the related parties are in compliance with Sections 177 and 188 of the Act, where applicable. Further, the details of such related party transactions have been disclosed in the standalone financial statements, as required under Indian Accounting Standard (Ind AS) 24, Related Party Disclosures specified in Companies (Indian Accounting Standards) Rules 2015 as prescribed under Section 133 of the Act.
- (xiv) (a) In our opinion and according to the information and explanations given to us, the Company has an internal audit system as required under Section 138 of the Act which is commensurate with the size and nature of its business.
- (b) We have considered the reports issued by the Internal Auditors of the Company till date for the period under audit.
- (xv) According to the information and explanation given to us, the Company has not entered into any non-cash transactions with its directors or persons connected with them and accordingly, provisions of Section 192 of the Act are not applicable to the Company.
- (xvi) (a) The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, reporting under Clause 3(xvi) of the Order is not applicable to the Company.
- (b) The Company has not conducted any Non-Banking Financial or Housing Finance activities during the year without a valid Certificate of Registration (CoR) from the RBI as per the Reserve Bank of India Act, 1934.
- (c) According to the information and explanations given to us, the Company is not a Core Investment Company (CIC) as defined in the regulations made by the RBI. Accordingly, reporting under Clause 3(xvi)(c) of the Order is not applicable to the Company.
- (d) Based on the information and explanations given to us and as represented by the management of the Company, the Group (as defined in Core Investment Companies (Reserve Bank) Directions, 2016) has one CIC as part of the Group.
- (xvii) The Company has not incurred any cash loss in the current as well as the immediately preceding financial year.
- (xviii) There has been no resignation of the statutory auditors during the year. Accordingly, reporting under Clause 3(xviii) of the Order is not applicable to the Company.
- (xix) According to the information and explanations given to us and on the basis of the financial ratios, ageing and expected dates of realisation of financial assets and payment of financial liabilities, other information accompanying the standalone financial statements, our knowledge of the plans of the Board of Directors and management, we are of the opinion that no material uncertainty exists as on the date of the audit report that Company is capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.
- (xx) According to the information and explanations given to us, the Company does not have any unspent amount in respect of any ongoing or other than ongoing project as at the expiry of the financial year. Accordingly, reporting under clause 3(xx) of the Order is not applicable to the Company.

ANNEXURE II TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE TO THE MEMBERS OF BRITANNIA INDUSTRIES LIMITED ON THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2022

Independent Auditor's Report on the internal financial controls with reference to the financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

1. In conjunction with our audit of the standalone financial statements of Britannia Industries Limited ('the Company') as at and for the year ended 31 March 2022, we have audited the internal financial controls with reference to financial statements of the Company as at that date.

Responsibilities of Management and Those Charged with Governance for Internal Financial Controls

2. The Company's Board of Directors is responsible for establishing and maintaining internal financial controls based on internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the Company's business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility for the Audit of the Internal Financial Controls with Reference to Financial Statements

3. Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India ('ICAI') prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements, and the Guidance Note on Audit of Internal Financial Controls Over Financial

Reporting ('the Guidance Note') issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and if such controls operated effectively in all material respects.

4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements includes obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Meaning of Internal Financial Controls with Reference to Financial Statements

6. A Company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone financial statements in accordance with generally accepted accounting principles, and that receipts and

expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the standalone financial statements.

Inherent Limitations of Internal Financial Controls with Reference to Financial Statements

7. Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such controls were operating effectively as at 31 March 2022, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

1 Reporting entity

Britannia Industries Limited (the 'Company') is a company domiciled in India, with its registered office situated at 5/1A, Hungerford Street, Kolkata, West Bengal - 700017. The Company has been incorporated under the provisions of Indian Companies Act and its equity shares are listed on the National Stock Exchange (NSE) and the Bombay Stock Exchange (BSE) in India. The Company is primarily involved in manufacturing and sale of various food products.

2 Basis of preparation

A. Statement of compliance

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules 2015, as amended, notified under Section 133 of Companies Act, 2013, (the 'Act') and other relevant provisions of the Act.

The standalone financial statements were authorised for issue by the Company's Board of Directors on 2 May 2022.

Details of the Company's accounting policies are included in Note 3.

B. Functional and presentation currency

These standalone financial statements are presented in Indian Rupees (₹), which is also the Company's functional currency. All amounts have been rounded-off to two decimal places to the nearest crores, unless otherwise indicated.

C. Basis of measurement

The standalone financial statements have been prepared on the historical cost basis except for the following items:

Items	Measurement basis
Certain financial assets and liabilities	Fair value
Share-based payments	Fair value
Net defined benefit asset/(liability)	Fair value of plan assets less present value of defined benefit obligations

D. Use of estimates and judgements

In preparing these standalone financial statements, the Company has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

Judgements

Information about judgements made in applying accounting policies that have the most significant effects on the amounts recognised in the standalone financial statements is included in the following notes:

- Note 36 - leases: whether an arrangement contains a lease and lease classification

Assumptions and estimation uncertainties

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment in the year ending 31 March 2022 is included in the following notes:

NOTES TO STANDALONE FINANCIAL STATEMENTS (CONTINUED)

- Note 44 - measurement of defined benefit obligations: key actuarial assumptions;
- Note 40 - recognition and measurement of provisions and contingencies: key assumptions about the likelihood and magnitude of an outflow of resources;
- Note 4 - useful life of property, plant and equipment
- Notes 7 to 9 and Notes 12,13,15 and 16 - impairment of financial assets.

E. Measurement of fair values

Certain accounting policies and disclosures of the Company require the measurement of fair values, for both financial and non financial assets and liabilities.

The Company has an established control framework with respect to the measurement of fair values.

The valuation team regularly reviews significant unobservable inputs and valuation adjustments.

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Further information about the assumptions made in the measuring fair values is included in the following notes:

- Note 5 - investment property
- Note 18 (e) - Share based payments / Phantom Option Scheme
- Note 50 - financial instruments.

3. Significant accounting policies

(a) Property, plant and equipment

i. Recognition and measurement

Items of property, plant and equipment, are measured at cost (which includes capitalised borrowing costs, if any) less accumulated depreciation and accumulated impairment losses, if any.

Cost of an item of property, plant and equipment includes its purchase price, duties, taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

NOTES TO STANDALONE FINANCIAL STATEMENTS (CONTINUED)

The cost of a self-constructed item of property, plant and equipment comprises the cost of materials, direct labour and any other costs directly attributable to bringing the item to its intended working condition and estimated costs of dismantling, removing and restoring the site on which it is located, wherever applicable.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognised in the Statement of Profit and Loss.

ii. Subsequent expenditure

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Company.

iii. Depreciation

Depreciation is calculated on cost of items of property, plant and equipment less their estimated residual value using straight line method over the useful lives of assets as per schedule II of the Companies Act, 2013 and is recognised in the Statement of Profit and Loss. Assets acquired under lease are depreciated over the shorter of the lease term and their useful lives unless it is reasonably certain that the Company will obtain ownership by the end of the lease term. Depreciation for assets purchased / sold during the period is proportionately charged.

The range of estimated useful lives of items of property, plant and equipment are as follows:

Asset	Useful life
Plant and equipment	7.5 - 15 years
Furniture and fixtures	10 years
Motor vehicles	8 years
Office equipment	3 - 5 years
Buildings	30 - 60 years

Freehold land is not depreciated.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year-end and adjusted prospectively, if appropriate.

iv. Reclassification to investment property

When the use of a property changes from owner-occupied to investment property, the property is reclassified as investment property at its carrying amount on the date of classification.

v. Capital work-in-progress (CWIP)

Capital work-in-progress includes cost of property, plant and equipment/ intangible assets under installation / under development as at the balance sheet date.

(b) Investment property

Investment property is property held either to earn rental income or for capital appreciation or for both, but not for sale in the ordinary course of business, use in the production or supply of goods or services or for administrative purposes. Upon initial recognition, an investment property is measured at cost. Subsequent to initial recognition, investment property is measured at cost less accumulated depreciation and accumulated impairment losses, if any.

NOTES TO STANDALONE FINANCIAL STATEMENTS (CONTINUED)

The Company depreciates investment properties on a straight-line basis over the useful life of the asset as specified in the table above.

Any gain or loss on disposal of an investment property is recognised in the Statement of Profit and Loss.

The fair values of investment property is disclosed in the notes accompanying these financial statements. Fair values are determined by an independent valuer who holds recognised and relevant professional qualification and has recent experience in the location and category of the investment property being valued.

(c) Intangible assets

Internally generated: Research and development

Expenditure on research activities is recognised in the Statement of Profit and Loss as incurred.

Development expenditure is capitalised as part of the cost of the resulting intangible asset only if the expenditure can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable, and the Company intends to and has sufficient resources to complete the development and to use or sell the asset. Otherwise, it is recognised in the Statement of Profit and Loss as incurred. Subsequent to initial recognition, the asset is measured at cost less accumulated amortisation and accumulated impairment losses, if any.

Others

Other intangible assets including those acquired by the Company in a business combination are initially measured at cost. Such intangible assets are subsequently measured at cost less accumulated amortisation and accumulated impairment losses, if any.

Amortisation

Amortisation is calculated to write off the cost of intangible assets less their estimated residual values over their estimated useful lives using the straight-line method, and is included in depreciation and amortisation in Statement of Profit and Loss.

The estimated useful lives are as follows:

Asset	Useful life
Computer software	6 years

Amortisation method, useful lives and residual values are reviewed at the end of each financial year and adjusted if appropriate.

(d) Impairment

(i) Financial assets

The Company recognises loss allowances using the expected credit loss (ECL) model for the financial assets which are not fair valued through Statement of Profit and Loss. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognised is recognised as an impairment gain or loss in the Statement of Profit and Loss.

NOTES TO STANDALONE FINANCIAL STATEMENTS (CONTINUED)

(ii) Non-financial assets**Intangible assets and property, plant and equipment**

Intangible assets and property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash generated units to which the asset belongs. If such assets are considered to be impaired, the impairment to be recognised in the Statement of Profit and Loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the Statement of Profit and Loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortisation or depreciation) had no impairment loss been recognised for the asset in prior years.

(e) Leases

The Company at the inception of a contract, assesses whether a contract, is or contains a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. A lessee recognises a Right-of-use asset representing its right to use the underlying asset and a lease liability representing its obligation to make lease payments. The Company does not recognise right-of-use of assets and lease liabilities for short term leases that have a lease term of 12 months or less and leases of low value assets. The Company recognises the lease payments associated with these leases as an expense on a straight line basis over the lease term. Lessor accounting remains similar to the accounting under the previous standard i.e. lessor continues to classify leases as finance or operating lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

As a lessee

The Company recognises a right-of-use asset and a lease liability at the lease commencement date. The right of use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct cost incurred and an estimate of cost to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight line method from the commencement date to the earlier of the end of the useful life or the end of the lease term. The estimated useful life of the right-of-use assets are determined on the same basis as those of property, plant and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Company's incremental borrowing rate. The lease payments shall include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the Company is reasonably certain to exercise that option and payment of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease. Subsequent to initial measurement, the

NOTES TO STANDALONE FINANCIAL STATEMENTS (CONTINUED)

liability is reduced for payments made and increased for interest. It is remeasured to reflect any reassessment or modification, or if there are changes in in-substance fixed payments. When the lease liability is remeasured, the corresponding adjustment is reflected in the right-of-use asset, or profit and loss if the right-of-use asset is already reduced to zero. On the Balance Sheet, right-of-use assets have been included under property, plant and equipment and lease liabilities have been included under financial liabilities.

As a lessor

Lease income from operating leases, where the Company is a lessor, is recognised on a straight-line basis over the lease term unless the receipts are structured to increase in line with expected general inflation to compensate for the expected inflation.

(f) Inventories

Inventories are valued at the lower of cost (including prime cost, non-refundable taxes and duties and other overheads incurred in bringing the inventories to their present location and condition) and estimated net realisable value, after providing for obsolescence, where appropriate. The comparison of cost and net realisable value is made on an item-by-item basis. The net realisable value of materials in process is determined with reference to the selling prices of related finished goods. Raw materials, packing materials and other supplies held for use in production of inventories are not written down below cost except in cases where material prices have declined, and it is estimated that the cost of the finished products will exceed their net realisable value.

The provision for inventory obsolescence is assessed regularly based on estimated usage and shelf life of products.

Raw materials, packing materials and stores and spares are valued at cost computed on moving weighted average basis. The cost includes purchase price, inward freight and other incidental expenses net of refundable duties, levies and taxes, where applicable.

Work-in-progress is valued at input material cost plus conversion cost as applicable.

Finished goods and stock-in-trade are valued at the lower of net realisable value and cost (including prime cost, non-refundable taxes and duties and other overheads incurred in bringing the inventories to their present location and condition), computed on a moving weighted average basis.

(g) Financial instruments

i. *Recognition and initial measurement*

The Company initially recognises financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are measured at fair value on initial recognition. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, that are not at fair value through profit or loss, are added to the fair value on initial recognition.

ii. *Classification and subsequent measurement*

Financial assets

Financial assets carried at amortised cost

A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

NOTES TO STANDALONE FINANCIAL STATEMENTS (CONTINUED)

Financial assets at fair value through other comprehensive income

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through profit or loss

A financial asset which is not classified in any of the above categories are subsequently fair valued through profit or loss.

Financial liabilities

Financial liabilities are subsequently carried at amortised cost using the effective interest method. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

Investment in subsidiaries, joint venture and associates

Investment in equity shares in subsidiaries, joint venture and associates is carried at cost in the financial statements.

iii. Derecognition*Financial assets*

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the right to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial assets are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset.

If the Company enters into transactions whereby it transfers assets recognised on its balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognised.

Financial liabilities

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire.

The Company also derecognises a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and a new financial liability with modified terms is recognised in the Statement of Profit and Loss.

iv. Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the Balance Sheet when, and only when, the Company has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or realise the asset and settle the liability simultaneously.

NOTES TO STANDALONE FINANCIAL STATEMENTS (CONTINUED)

(h) Revenue recognition

The Company recognises revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. A 5-step approach is used to recognise revenue as below:

Step 1: Identify the contract(s) with a customer

Step 2: Identify the performance obligation in contract

Step 3: Determine the transaction price

Step 4: Allocate the transaction price to the performance obligations in the contract

Step 5: Recognise revenue when (or as) the entity satisfies a performance obligation

(i) Sale of goods:

Revenue is recognised when a customer obtains control of the goods which is ordinarily upon delivery at the customer premises. Revenue is measured at fair value of the consideration received or receivable, after deduction of any trade discounts, volume rebates and any taxes or duties collected on behalf of the government which are levied on sales such as goods and services tax, etc. For certain contracts that permit the customer to return an item, revenue is recognised to the extent that it is probable that a significant reversal in the amount of cumulative revenue recognised will not occur. As a consequence, for those contracts for which the Company is unable to make a reasonable estimate of return, revenue is recognised when the return period lapses or a reasonable estimate can be made. A refund liability and an asset for recovery is recognised for these contracts and presented separately in the balance sheet.

(ii) Deferred revenue:

The Company has a customer loyalty programme for selected customers. The Company grants credit points to those customers as part of a sales transaction which allows them to accumulate and redeem those credit points. The consideration is allocated between the loyalty programme and the goods based on their relative stand-alone selling prices. The credit points have been deferred and will be recognised as revenue when the reward points are redeemed or lapsed.

(iii) Income from royalties are recognised based on contractual agreements.

(iv) Dividend income is recognised when the Company's right to receive the payment is established, which is generally when shareholders approve the dividend.

(v) For all financial instruments measured at amortised cost, interest income is recorded using the effective interest rate (EIR), which is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset. Interest income is included in other income in the Statement of Profit and Loss.

(i) Business combination

Business combinations arising from transfers of interest in entities that are under the control of the shareholder who control the Company are accounted for as if the acquisition had occurred at the beginning of the earliest comparative period presented or, if later, at the date that common control was established; for this purpose comparatives are revised. The assets and liabilities acquired are recognised at their carrying amounts. The identity of the reserves is preserved and they appear in the financial statements of the Company in the same form in which they appeared in the financial statements of the acquired entity. The difference, if any, between the value of net assets and the consequent reduction in value of investment held by the Company is transferred to the capital reserve or to the accumulated balance of profit and loss.

NOTES TO STANDALONE FINANCIAL STATEMENTS (CONTINUED)

(j) Foreign currencies

Transactions in foreign currencies are initially recorded by the Company at their functional currency spot rates at the date of the transaction. Monetary assets and liabilities denominated in foreign currency are translated at the functional currency spot rates of exchange at the reporting date. Exchange differences that arise on settlement of monetary items or on reporting at each balance sheet date are recognised as income or expenses in the period in which they arise. Non-monetary items which are carried at historical cost denominated in a foreign currency are reported using the exchange rates at the date of transaction. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined.

(k) Government grants/Incentives

Government grants/incentives are recognised where there is reasonable assurance that the grant/incentives will be received and all attached conditions will be complied with. When the grant/incentives relates to revenue, it is recognised in the Statement of Profit and Loss on a systematic basis over the periods to which they relate. When the grant/incentives relates to an asset, it is treated as deferred income and recognised in the Statement of Profit and Loss on a systematic basis over the useful life of the asset.

(l) Income tax

Income tax comprises current and deferred tax. It is recognised in the Statement of Profit and Loss except to the extent that it relates to a business combination or to an item recognised directly in equity or in other comprehensive income.

i. Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

ii. Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognised in respect of carried forward tax losses and tax credits. Deferred tax is not recognised for:

- temporary differences arising on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss at the time of transaction.

- temporary differences related to investments in subsidiaries, associates and interests in joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used.

Deferred tax assets recognised or unrecognised are reviewed at each reporting date and are recognised / reduced to the extent that it is probable / no longer probable respectively that the related tax benefit will be realised.

NOTES TO STANDALONE FINANCIAL STATEMENTS (CONTINUED)

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

The Company offsets, the current tax assets and liabilities (on a year on year basis) and deferred tax assets and liabilities, where it has a legally enforceable right and where it intends to settle such assets and liabilities on a net basis.

(m) Borrowing costs

Borrowing costs directly attributable to the acquisition or construction of those property, plant and equipment which necessarily takes a substantial period of time to get ready for their intended use are capitalised. All other borrowing costs are expensed in the period in which they incur in the Statement of Profit and Loss.

(n) Provisions and contingent liabilities

i. General

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, the expense relating to a provision is presented in the Statement of Profit and Loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

ii. Contingent liabilities

A disclosure for contingent liabilities is made where there is a possible obligation or a present obligation that may probably not require an outflow of resources. When there is a possible or a present obligation where the likelihood of outflow of resources is remote, no provision or disclosure is made.

iii. Onerous contracts

Provision for onerous contracts. i.e. contracts where the expected unavoidable cost of meeting the obligations under the contract exceed the economic benefits expected to be received under it, are recognised when it is probable that an outflow of resources embodying economic benefits will be required to settle a present obligation as a result of an obligating event based on a reliable estimate of such obligation.

(o) Employee benefits

i. Short-term employee benefits

All employee benefits falling due wholly within twelve months of rendering the services are classified as short-term employee benefits, which include benefits like salaries, wages, short-term compensated absences and performance incentives and are recognised as expenses in the period in which the employee renders the related service.

NOTES TO STANDALONE FINANCIAL STATEMENTS (CONTINUED)

ii. Post-employment benefits

Contributions to defined contribution schemes such as Provident Fund, Pension Fund, etc., are recognised as expenses in the period in which the employee renders the related service. In respect of certain employees, Provident Fund contributions are made to a Trust administered by the Company. The interest rate payable to the members of the Trust shall not be lower than the statutory rate of interest declared by the Central Government under the Employees' Provident Funds and Miscellaneous Provisions Act, 1952 and shortfall, if any, after considering the accumulated reserves with the Trust, shall be made good by the Company. To this extent, the Provident Fund scheme could be considered as a defined benefit plan. In respect of contributions made to government administered Provident Fund, the Company has no further obligations beyond its monthly contributions. The Company also provides for post-employment defined benefit in the form of gratuity and medical benefits. The cost of providing benefit is determined using the projected unit credit method, with actuarial valuation being carried out at each balance sheet date. Remeasurement of the net benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interests) and the effect of the assets ceiling (if any, excluding interest) are recognised in other comprehensive income. The effect of any plan amendments are recognised in net profit in the Statement of Profit and Loss.

The Britannia Industries Limited Covenanted Staff Pension Fund Trust ('BILCSPF') and Britannia Industries Limited Officers' Pension Fund Trust ('BILOPF') were established by the Company to administer pension schemes for its employees. These trusts are managed by the Trustees. The Pension Scheme is applicable to all the managers and officers of the Company who have been employed up to the date of 15 September 2005 and any manager or officer employed after that date, if he has opted for the membership of the Scheme. The Company makes a contribution of 15% of basic salary in respect of the members, each month to the trusts. On retirement, subject to the vesting conditions as per the rules of the trust, the member becomes eligible for pension, which is paid from annuity purchased in the name of the member by the trusts.

iii. Other long-term employee benefits

All employee benefits (other than post-employment benefits and termination benefits) which do not fall due wholly within twelve months after the end of the period in which the employees render the related services are determined based on actuarial valuation or discounted present value method carried out at each balance sheet date. The expected cost of accumulating compensated absences is determined by actuarial valuation performed by an independent actuary as at 1 January every year using projected unit credit method on the additional amount expected to be paid / availed as a result of the unused entitlement that has accumulated at the balance sheet date. Expense on non-accumulating compensated absences is recognised in the period in which the absences occur.

iv. Voluntary retirement scheme benefits

Voluntary retirement scheme benefits are recognised as an expense in the year they are incurred.

(p) Share based payment/Cash-settled share-based payments

The cost of equity-settled transactions is determined by the fair value on the date when the grant is made using an appropriate valuation model. That cost is recognised in employee benefits expense, together with a corresponding increase in share-based payment (share options outstanding account) reserves in equity, over the period in which the performance and/or service conditions are fulfilled. The dilutive effect of outstanding options is reflected as additional share dilution in the computation of diluted earnings per share.

For cash-settled share-based payments, the fair value of the amount payable to employees is recognised as employee benefits expense with a corresponding increase in liabilities, over the vesting period. The liability is remeasured at each reporting period up to, and including the settlement date, with changes in fair value recognised in employee benefits expense.

NOTES TO STANDALONE FINANCIAL STATEMENTS (CONTINUED)

(q) Cash and cash equivalents

Cash and cash equivalents includes cash on hand, cheques on hand and demand deposits with banks with original maturities of three months or less.

(r) Earnings per share

Basic Earnings Per Share ('EPS') is computed by dividing the net profit attributable to the equity shareholders by the weighted average number of equity shares outstanding during the year. Diluted earnings per share is computed by dividing the net profit by the weighted average number of equity shares considered for deriving basic earnings per share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as of the beginning of the year, unless issued at a later date. In computing diluted earnings per share, only potential equity shares that are dilutive and that either reduces earnings per share or increases loss per share are included. The number of shares and potentially dilutive equity shares are adjusted retrospectively for all periods presented in case of share splits.

(s) Cash flow statement

Cash flows are reported using indirect method, whereby net profits before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments and items of income or expenses associated with investing or financing cash flows. The cash flows from regular revenue generating (operating activities), investing and financing activities of the Company are segregated.

(t) Recent accounting pronouncements**Standards issued but not effective on Balance Sheet date:**

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 23, 2022, MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2022, as below;

Ind AS 109 - Financial Instruments

The amendment clarifies that the terms are substantially different if the discounted present value of the cash flows under the new terms, including any fees paid net of any fees received and discounted using the original effective interest rate, is at least 10 per cent different from the discounted present value of the remaining cash flows of the original financial liability. In determining those fees paid net of fees received, a borrower includes only fees paid or received between the borrower and the lender, including fees paid or received by either the borrower or lender on the other's behalf.

If an exchange of debt instruments or modification of terms is accounted for as an extinguishment, any costs or fees incurred are recognised as part of the gain or loss on the extinguishment. If the exchange or modification is not accounted for as an extinguishment, any costs or fees incurred adjust the carrying amount of the liability and are amortised over the remaining term of the modified liability.

Ind AS 16 – Property Plant and equipment - The amendment clarifies that excess of net sale proceeds of items produced over the cost of testing, if any, shall not be recognised in the profit or loss but deducted from the directly attributable costs considered as part of cost of an item of property, plant, and equipment. The Company has evaluated the amendment and there is no impact on its standalone financial statements.

Ind AS 37 – Provisions, Contingent Liabilities and Contingent Assets – The amendment specifies that the 'cost of fulfilling' a contract comprises the 'costs that relate directly to the contract'. Costs that relate directly to a contract can either be incremental costs of fulfilling that contract (examples would be direct labour, materials) or an allocation of other costs that relate directly to fulfilling contracts (an example would be the allocation of the depreciation charge for an item of property, plant and equipment used in fulfilling the contract). The Company has evaluated the amendment and there is no impact on its standalone financial statements.

(e) Share based payments / Phantom Option Scheme

During the financial year 2008-09, the Company introduced Britannia Industries Limited Employee Stock Option Scheme ('the Scheme'). As per the Scheme, the Remuneration / Compensation Committee grants options to the employees and Executive Directors of the Company. The vesting period of the option is one to three years from the date of grant. Options granted under the Scheme can be exercised within a period of three years from the date of vesting.

Under the old ESOS Scheme, the Company granted 15,000 options on 29 October 2008 at an exercise price of ₹ 1,125.30/-; 15,000 options on 27 May 2009 at an exercise price of ₹ 1,698.15/-; 20,000 options on 27 May 2010 at an exercise price of ₹ 1,668.55/-; 125,000 options on 27 May 2011 at an exercise price of ₹ 391.75/-; 100,000 options on 28 May 2012 at an exercise price of ₹ 528.75/-; 50,000 options on 26 May 2014 at an exercise price of ₹ 870.35/-, 75,000 options on 21 May 2015 at an exercise price of ₹ 2,332.05/-, 100,000 options on 30 June 2016 at an exercise price of ₹ 2,771.40/-, 125,000 options on 25 May 2017 at an exercise price of ₹ 3,533.30/-, 150,000 options on 15 May 2018 at an exercise price of ₹ 5,464.10/-, 350,000 options on 1 May 2019 at an exercise price of ₹ 2,896.05/- and 250,000 options on 2 June 2020 at an exercise price of ₹ 3,434.85/- to the Managing Director of the Company. Each option represents one equity share of ₹ 10/- each (for options granted between the years 2008 to 2010) and one equity share of ₹ 2/- each (for options granted between the years 2011 to 2018) and one equity share of ₹ 1/- each (for options granted after the year 2018). The said price was determined in accordance with the pricing formula approved by the shareholders i.e. the latest available closing price, prior to the date of the meeting of the Board of Directors or Remuneration / Compensation Committee in which options were granted, on the stock exchange having higher trading volume. Exercise prices as stated above were adjusted downwards by ₹ 170/- per share for options granted on 29 October 2008 and 27 May 2009, being the face value of bonus debentures issued pursuant to the Scheme of Arrangement approved by the Honourable Calcutta High Court on 11 February 2010. The number of options have been appropriately adjusted, consequent upon the sub-division of the equity shares.

Nature and purpose of other reserves*Share options outstanding account*

The share options outstanding account is used to recognise the grant date fair value of options issued under Britannia Industries Limited Employee Stock Option Scheme.

Securities premium reserve

Securities premium reserve is used to record the premium on issue of shares. The reserve is utilised in accordance with the provisions of the Act.

Capital redemption reserve

The Company had purchased its own shares and as per the provisions of the applicable laws, a sum equal to the nominal value of the shares so purchased was required to be transferred to the capital redemption reserve.

Capital reserve

Capital reserve represents subsidy received for industrial undertaking under Central Capital Investment Subsidy Scheme, 2003.

Debenture redemption reserve

The Company has issued bonus debentures and as per the provisions of the applicable laws, a sum equal to 25% of the issue size of bonus debentures was required to be transferred to debenture redemption reserve.

General reserve

General reserve is created from time to time by way of transfer profits from retained earnings for appropriation purposes. General reserve is created by a transfer from one component of equity to another and is not an item of other comprehensive income.

Retained earnings

Retained earnings are the accumulated profits earned by the Company till date, less transfer to general reserve, if any, dividend and other distributions made to the shareholders.

Dividends

The following dividends were declared and paid by the Company during the year:

As at	31 March 2022	31 March 2021

- (b) Bank guarantees and letters of credit for ₹ 62.13 (31 March 2021 : ₹ 84.62)

Notes:

- (i) Contingent liabilities disclosed above represent possible obligations where possibility of cash outflow to settle the obligations is not remote.
- (ii) The above does not include non-quantifiable industrial disputes and other legal disputes pending before various judicial authorities [Also Refer note 40 and 46].
- (iii) The Supreme court of India in the month of February 2019 had passed a judgement relating to definition of wages under the Provident Fund Act, 1952. Considering that there are numerous interpretative issues relating to this judgement and in the absence of reliable measurement of the provision for the earlier periods, the Company had made a suitable provision for provident fund contribution during the Financial Year 2018-19. The Company will evaluate its position and update its provision, if required, on receiving further clarity on the subject. The Company does not expect any material impact of the same.
- (ii) Commitments:**

- (i) The Company has certain operating leases for office facilities and residential premises. Such leases are generally with the option of renewal against increased rent and premature termination of agreement on mutual consent of both the parties. Rental expenses of ₹ 8.61 (31 March 2021: ₹ 8.60) in respect of obligation under operating leases have been recognised in the Statement of Profit and Loss.
- (ii) The Company has certain cancellable arrangements with contract packers identified to be in the nature of lease and have been classified as operating lease arrangements. Rental expenses of ₹ 28.72 (31 March 2021: ₹ 26.81) in respect of obligation under operating leases have been recognised in the Statement of Profit and Loss.

(b) Lease liabilities

- (i) The Company has taken motor vehicles on lease. The total minimum lease payments and present value of minimum lease payments are as follows:

	31 March 2022		31 March 2021	
	Minimum lease payments	Present value of minimum lease payments	Minimum lease payments	Present value of minimum lease payments
Not later than 1 year	0.59	0.57	0.86	0.77
Later than 1 year and not later than 5 years	0.04	0.03	0.62	0.60
	0.63	0.60	1.48	1.37

The difference between minimum lease payments and the present value of minimum lease payments of ₹ 0.03 (31 March 2021: ₹ 0.11) represents interest not due. The lease liability is secured by the relevant vehicles acquired under lease.

- (ii) The Company has taken certain land on lease for factory purposes. Since these are entirely prepaid, the Company does not have any future lease liability towards the same.

The fair value of cash and cash equivalents, bank balances, trade receivables, loans receivable, investments in tax-free bonds, investments in debentures/bonds, investments in preference shares, investments in government securities, borrowings, trade payables and other financial assets and liabilities approximate their carrying amount largely due to the nature of these instruments. The Company's loans have been contracted at market rates of interest. Accordingly, the carrying value of such loans approximate fair value.

Investments in mutual funds, which are classified as FVTPL are measured using net assets value at the reporting date multiplied by the quantity held.

No funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries") with the understanding, whether recorded in writing or otherwise, that the Intermediary shall lend or invest in party identified by or on behalf of the Company (Ultimate Beneficiaries). The Company has not received any fund from any party(s) (Funding Party) with the understanding that the Company shall whether, directly or indirectly lend or invest in other persons or entities identified by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

Financial risk management

The Company's financial risk management is an integral part of how to plan and execute its business strategies. The Company's management risk policy is set by the Board. The Company's activities expose it to a variety of financial risks: credit risk, liquidity risk and market risk. The Company's primary focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. A summary of the risks have been given below.

Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers and loans given. Credit risk arises from cash held with banks and financial institutions, as well as credit exposure to customers, including outstanding accounts receivables. The maximum exposure to credit risk is equal to the carrying value of the financial assets. The objective of managing counterparty credit risk is to prevent losses in financial assets. The Company assesses the credit quality of the counterparties, taking into account their financial position, past experience and other factors. Based on our assessment and current estimates the carrying value and the provisions made as at 31 March 2022 is considered adequate.

Trade and other receivables

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the customer, including the default risk of the industry and country in which the customer operates, also has an influence on credit risk assessment. The Company limits its exposure to credit risk from trade receivables by establishing a appropriate credit period for customer. In monitoring customer credit risk, customers are grouped according to their credit characteristics, including whether they are wholesale, retail or institutional customers, their geographic location, industry, trading history with the Company and existence of previous financial difficulties. The default in collection as a percentage to total receivable is low.

The Company's exposure to credit risk for trade receivables by geographic region is as follows:

	Gross carrying amount	
	31 March 2022	31 March 2021
India	222.09	168.80
Others	34.58	31.92
	256.67	200.72

The Company's exposure to credit risk for trade receivables by type of counterparty is as follows:

	Gross carrying amount	
	31 March 2022	31 March 2021
Institutional	116.08	108.03
Authorised wholesaler	55.62	24.13

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The Company manages its liquidity risk by ensuring, that it will always have sufficient liquidity to meet its liabilities when due. The Company's corporate treasury department is responsible for liquidity, funding as well as settlement management. In addition, processes and policies related to such risks are overseen by the senior management.

The Company aims to maintain the level of its cash and cash equivalents and other highly marketable debt investments at an amount in excess of expected cash outflows on financial liabilities (other than trade payables) over the next six months. The Company also monitors the level of expected cash inflows on trade receivables and loans together with expected cash outflows on trade payables and other financial liabilities. At 31 March 2022, the expected cash flows from trade receivables is ₹ 253.85 (31 March 2021: ₹ 198.36). This excludes the potential impact of extreme circumstances that cannot reasonably be predicted, such as natural disasters.

In addition, the Company maintains a line of credit of ₹ 878.00 (31 March 2021: ₹ 744.00) overdraft facility with various banks that is unsecured. Interest would be payable basis prevailing MCLR plus applicable margin (31 March 2021 : prevailing MCLR plus applicable margin)

The table below provides details regarding the contractual maturities of significant financial liabilities as at 31 March 2022 and 31 March 2021:

Market risk

Market risk is the risk that changes in market prices - such as foreign exchange rates and interest rates - will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

Currency risk

The Company is exposed to currency risk to the extent that there is mismatch between the currencies in which sales, purchase are denominated and the respective functional currencies of Company. The Company has export sales (2% of total sales) primarily denominated in US dollars and Euro. At any point in time, the Company hedges 95% to 100% of its estimated foreign currency exposure in respect of sales and purchases over the following 12 months. The Company uses forward exchange contracts to hedge its currency risk, most with a maturity of less than one year from the reporting date.

Exposure to currency risk

The summary quantitative data about the Company's gross exposure to currency risk is as follows:

	31 March 2022		31 March 2021	
	Euro	USD	Euro	USD
Export receivables	-	0.45	-	0.42
Overseas payables	(0.06)	(0.07)	(0.33)	-

The Company uses forward exchange contracts to hedge the currency exposure and is therefore not exposed to significant currency risk at the respective reporting dates.

Sensitivity analysis

The impact of strengthening/weakening of currency on the Company is not material as Company hedges 95% to 100% of the foreign currency exposure.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's debt obligations with floating interest rates. The Company's exposure to risk of changes in market interest rate is minimal.

Sensitivity analysis

The sensitivity analysis have been determined based on the exposure to interest rates for debt obligations with floating rates. The impact on the Company of movement in interest rate by 100 basis points higher or lower and considering all other variables constant, is not material.

INDEPENDENT AUDITOR'S REPORT

To the Members of Britannia Industries Limited

Report on the Audit of the Consolidated Financial Statements

Opinion

1. We have audited the accompanying consolidated financial statements of Britannia Industries Limited ('the Holding Company') and its subsidiaries (the Holding Company and its subsidiaries together referred to as 'the Group') and its associates, as listed in Annexure 1, which comprise the Consolidated Balance Sheet as at 31 March 2022, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Cash Flow, the Consolidated Statement of Changes in Equity for the year then ended and a summary of the significant accounting policies and other explanatory information.
2. In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the reports of the other auditors on separate financial statements and on the other financial information of the subsidiaries and associates the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ('the Act') in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards ('Ind AS') specified under Section 133 of the Act, read with the Companies (Indian Accounting Standards) Rules, 2015, and other accounting principles generally accepted in India of the consolidated state of affairs of the Group and its associates, as at 31 March 2022, their consolidated profit (including other comprehensive income), consolidated cash flows and the consolidated changes in equity for the year ended on that date.

5. We have determined the matters described below to be the key audit matters to be communicated in our report.

Basis for Opinion

3. We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements Section of our report. We are independent of the Group and its associates in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained together with the audit evidence obtained by the other auditors in terms of their reports referred to in paragraph 15 of the Other Matters Section below, is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

4. Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter	How our audit addressed the key audit matter
<p>Revenue Recognition (refer note 3(i) and 29 to the consolidated financial statements)</p> <p>The revenue of the Group consists primarily of sale of food products that are sold through distributors, modern trade and direct sale channels amongst others.</p> <p>Revenue is recognized when the control of products is transferred to the customer and there is no unfulfilled obligation.</p>	<p>Our key audit procedures around revenue recognition included, but were not limited to, the following:</p> <ul style="list-style-type: none"> • Assessed the appropriateness of the revenue recognition accounting policies of the Group including those relating to rebates and trade discounts, by evaluating compliance with the applicable accounting standards. • Evaluated the design and tested the operating effectiveness of the relevant key controls with respect to revenue recognition including general and specific information technology controls.

Key audit matter	How our audit addressed the key audit matter
<p>Owing to the volume of sales transactions, size of the distribution network and varied terms of contracts with customers, revenue is determined to be an area involving significant risk in line with the requirements of the Standards on Auditing and hence, requiring significant auditor attention.</p> <p>The management is required to make certain key judgements around determination of transaction price in accordance with the requirements of</p> <p>Ind AS 115, “Revenue from Contracts with Customers” on account of consideration payable to customers in the form of various discount schemes, returns and rebates.</p> <p>The Group and its external stakeholders focus on revenue as a key performance indicator and this could create an incentive for revenue to be overstated or recognised before control has been transferred.</p> <p>Considering the aforesaid significance to our audit and the external stakeholders, revenue recognition has been considered as a key audit matter for the current year’s audit.</p>	<ul style="list-style-type: none"> • Performed substantive testing on selected samples of revenue transactions recorded during the year by testing the underlying documents including contracts, invoices, goods dispatch notes, shipping documents and customer receipts, wherever applicable. • Understood and evaluated the Company’s process for recording of the accruals for discounts and rebates and ongoing incentive schemes and on a test basis, verified the year-end provisions made in respect of such schemes. • Performed analytical review procedures on revenue recognised during the year to identify any unusual and/or material variances. • Performed confirmation and alternative procedures on selected invoices outstanding as at the year end. • Tested a select sample of revenue transactions recorded before the financial year end date to determine whether the revenue has been recognised in the appropriate financial period. • Tested a sample of manual journal entries posted to revenue ledgers to identify any unusual items. • Evaluated the appropriateness and adequacy of disclosures in the consolidated financial statements in respect of revenue recognition in accordance with the applicable requirements.

Key audit matter	How our audit addressed the key audit matter
<p>Related Party Transactions (refer note 44 to the consolidated financial statements)</p> <p>The Group has entered into several transactions with related parties during the year ended 31 March 2022 and also has outstanding balances as at the year end.</p> <p>We identified related party transactions as a key audit matter due to the risk with respect to completeness of disclosures made in the consolidated financial statements due to a volume of such transactions, recoverability of balances outstanding, compliance with statutory regulations governing related party transactions such as the Companies Act, 2013 and Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations 2015 (‘the SEBI listing regulations’), and the judgements involved in assessing whether transactions with related parties are undertaken at an arms’ length.</p>	<p>Our key audit procedures around related party transactions included, but were not limited to, the following:</p> <ul style="list-style-type: none"> • Evaluated the design and tested the operating effectiveness of the relevant key controls to identify and disclose related party relationships and transactions in accordance with the relevant accounting standards. • Assessed the compliance with the SEBI listing regulations and the regulations under the Companies Act, 2013, including authorization and approvals as specified in Sections 177 and 188 of the Companies Act, 2013 with respect to the related party transactions, as applicable. In cases where the matter was subject to interpretation, we assessed reasonableness of management’s judgement by considering the advice obtained by management from legal practitioners.

Key audit matter	How our audit addressed the key audit matter
	<ul style="list-style-type: none"> • On a sample basis, inspected relevant ledgers, agreements and other information that may indicate the existence of related party relationships or transactions. We also assessed the completeness of related parties with reference to the various statutory registers and declarations maintained by the Group's management. • Verified the management's assessment of recoverability of dues from related parties by reference to underlying supporting documents such as valuation of underlying assets of such entities and settlement of such transactions subsequent to the balance sheet date. • On a sample basis, tested the Group's assessment of related party transactions for arms' length pricing. • Considered the adequacy and appropriateness of the disclosures made in the consolidated financial statements of related party relationships and transactions in accordance with the requirements of applicable accounting standard.

Key audit matter	How our audit addressed the key audit matter
<p>Litigations, provisions and contingencies (refer note 28 and 36 to the consolidated financial statements)</p> <p>The Group is involved in various direct tax, indirect tax and other litigations ('litigations') that are pending with different statutory authorities.</p> <p>Provisions are recognized when the Group has a present obligation (legal/ constructive) as a result of a past event for which it is probable that a cash outflow will be required and a reliable estimate can be made of the amount of the obligation. A disclosure for contingent liabilities is made where there is a possible obligation or a present obligation that may probably not require an outflow of resources. When there is a possible or a present obligation where the likelihood of outflow of resources is remote, no provision or disclosure is made.</p> <p>The aforesaid assessment requires the Management to make judgements and estimates in relation to the matters and exposures arising from a range of matters relating to direct tax, indirect tax, claims, general legal proceedings and other claims against the Group arising in the regular course of business.</p>	<p>Our key audit procedures around litigations, provisions and contingencies included, but were not limited to, the following:</p> <ul style="list-style-type: none"> • Assessed the appropriateness of the Group's accounting policies relating to provisions and contingent liability by comparing with the applicable accounting standards. • Evaluated the design and tested the operating effectiveness of the relevant key controls around the recording and assessment of litigations, provisions and contingent liabilities. • Engaged subject matter specialists to gain an understanding of the current status of litigations and monitored changes in the disputes, if any, through discussions with the management and by reading external advice received by the Company from legal counsel, where relevant, to validate management's conclusions.

Key audit matter	How our audit addressed the key audit matter
<p>The level of management judgement associated with determining the need for, and the quantum of, provisions for any liabilities and disclosures of any contingent liabilities arising from these litigations is considered to be high.</p> <p>This judgement is dependent on a number of significant assumptions and assessments which involves interpreting the various applicable rules, regulations, practices and considering precedents in the various jurisdictions, for which the management uses various subject matter experts.</p> <p>In view of the uncertainty relating to the outcome of these litigations, the significance of the amounts involved and the subjectivity involved in management’s judgement, this matter has been considered as a key audit matter for the current year audit.</p>	<ul style="list-style-type: none"> • Obtained and assessed the Company’s assumptions and estimates in respect of litigations, including the liabilities or provisions recognized or contingent liabilities disclosed in the consolidated financial statements. This involved comparing the same to the assessment of our subject matter specialists and assessing the probability of an unfavorable outcome of a given proceeding and the reliability of estimates of related amounts. • On a test basis, performed substantive procedures on the underlying calculations supporting the provisions recorded. • Assessed the appropriateness and adequacy of the disclosures made in relation to related provisions and contingencies in the consolidated financial statements.

Information other than the Consolidated Financial Statements and Auditor’s Report thereon

6. The Holding Company’s Board of Directors are responsible for the other information. The other information comprises the information included in the Board report but does not include the consolidated financial statements and our auditor’s report thereon, which we obtained prior to the date of this auditor’s report, and the Annual report, which is expected to be made available to us after that date.

Our opinion on the consolidated financial statements does not cover the other information and we do not and will not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditor’s report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

When we read the Annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

7. The accompanying consolidated financial statements have been approved by the Holding Company’s Board of Directors. The Holding Company’s Board of Directors are responsible for the matters stated in Section 134(5) of the Act with respect to the preparation and presentation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated changes in equity and consolidated cash flows of the Group including its associates in accordance with the Ind AS specified under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, and other accounting principles generally accepted in India. The Holding Company’s Board of Directors are also responsible for ensuring accuracy of records including financial information considered necessary for the preparation of consolidated Ind AS financial statements. Further, in terms of the provisions of the Act the respective Board of Directors of the companies included in the Group, and its associate companies covered under the Act are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate

internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error. These financial statements have been used for the purpose of preparation of the consolidated financial statements by the Board of Directors of the Holding Company, as aforesaid.

8. In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group and of its associates are responsible for assessing the ability of the Group and of its associates to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intend to liquidate the Group or to cease operations, or has no realistic alternative but to do so.
9. Those respective Board of Directors are also responsible for overseeing the financial reporting process of the companies included in the Group and of its associates.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

10. Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.
11. As part of an audit in accordance with Standards on Auditing specified under Section 143(10) of the Act we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
 - Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher

than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act we are also responsible for expressing our opinion on whether the Holding Company has adequate internal financial controls system with reference to consolidated financial statements in place and the operating effectiveness of such controls.;
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management;
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and its associates to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its associates to cease to continue as a going concern;
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation; and
- Obtain sufficient appropriate audit evidence regarding the financial information/ financial statements of the entities or business activities within the Group, and its associates, to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of financial statements of such entities included in the consolidated financial statements, of which we are the independent auditors. For the other entities included in the consolidated financial

statements, which have been audited by the other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

12. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
13. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
14. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

15. We did not audit the financial statements of nine subsidiaries, whose financial statements reflect total assets of ₹ 876.44 crores and net assets of ₹ 457.28 crores as at 31 March 2022, total revenues of ₹ 648.82 crores and net cash inflows amounting to ₹ 39.98 crores for the year ended on that date, as considered in the consolidated financial statements. These financial statements have been audited by other auditors whose reports have been furnished to us by the management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries are based solely on the reports of the other auditors.

Further, these subsidiaries are located outside India whose financial statements and other financial information have been prepared in accordance with accounting principles generally accepted in their respective countries and which have been audited by other auditors under generally accepted auditing standards applicable in their respective countries. The Holding Company's management has converted the

financial statements of such subsidiaries located outside India from accounting principles generally accepted in their respective countries to accounting principles generally accepted in India. We have audited these conversion adjustments made by the Holding Company's management. Our opinion on the consolidated financial statements, in so far as it relates to the balances and affairs of such subsidiaries located outside India, is based on the report of other auditors and the conversion adjustments prepared by the management of the Holding Company and audited by us.

Our opinion above on the consolidated financial statements, and our report on other legal and regulatory requirements below, are not modified in respect of the above matters with respect to our reliance on the work done by and the reports of the other auditors.

16. We did not audit the financial information of one subsidiary, whose financial information reflect total assets of ₹ 0.35 crores and net assets of ₹ 0.35 crores as at 31 March 2022, total revenues of ₹ nil and net cash flows amounting to ₹ nil for the year ended on that date, as considered in the consolidated financial statements. The consolidated financial statements also include the Group's share of net loss (including other comprehensive income) of ₹ 0.20 crores for the year ended 31 March 2022, as considered in the consolidated financial statements, in respect of two associates, whose financial information has not been audited by us. These financial information are unaudited and have been furnished to us by the management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of the aforesaid subsidiary and associates are based solely on such unaudited financial information.

In our opinion and according to the information and explanations given to us by the management, these financial information are not material to the Group.

Our opinion above on the consolidated financial statements, and our report on other legal and regulatory requirements below, are not modified in respect of the above matter with respect to our reliance on the financial information certified by the management.

Report on Other Legal and Regulatory Requirements

17. As required by Section 197(16) of the Act, based on our audit, we report that the Holding Company has paid remuneration to its directors during the year in accordance with the provisions of and limits laid down under Section 197 read with Schedule V to the Act.

ANNEXURE 2 TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE TO THE MEMBERS OF BRITANNIA INDUSTRIES LIMITED ON THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2022

Independent Auditor's Report on the internal financial controls with reference to financial statements under Clause (i) of sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

1. In conjunction with our audit of the consolidated financial statements of Britannia Industries Limited ('the Holding Company') and its subsidiaries (the Holding Company and its subsidiaries together referred to as 'the Group') and its associates as at and for the year ended 31 March 2022, we have audited the internal financial controls with reference to financial statements of the Holding Company and its subsidiary companies, which are companies covered under the Act, as at that date.

Responsibilities of Management and Those Charged with Governance for Internal Financial Controls

2. The respective Board of Directors of the Holding Company, its subsidiary companies and its associate companies, which are companies covered under the Act, are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting ('the Guidance Note') issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the Company's business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility for the Audit of the Internal Financial Controls with Reference to Financial Statements

3. Our responsibility is to express an opinion on the internal financial controls with reference to financial statements of the Holding Company and its subsidiary

companies, as aforesaid, based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India ('ICAI') prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements, and the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ('the Guidance Note') issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and if such controls operated effectively in all material respects.

4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements includes obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to financial statements of the Holding Company and its subsidiary companies as aforesaid.

Meaning of Internal Financial Controls with Reference to Financial Statements

6. A Company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial controls with reference to financial statements include

those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of consolidated financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the consolidated financial statements.

Inherent Limitations of Internal Financial Controls with Reference to Financial Statements

7. Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Holding Company and its subsidiary companies, which are companies covered under the Act, have in all material respects, adequate internal financial controls with reference to financial statements and such controls were operating effectively as at 31 March 2022, based on the internal financial controls with reference to financial statements criteria

established by the Holding Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

Other Matter

9. We did not audit the internal financial controls with reference to financial statements in so far as it relates to two associate companies, which are companies covered under the Act, in respect of which, the Group's share of net loss (including other comprehensive income) of ₹ 0.2 crores for the year ended 31 March 2022 has been considered in the consolidated financial statements. The internal financial controls with reference to financial statements of these associate companies, which are companies covered under the Act, are unaudited and our opinion under Section 143(3)(i) of the Act on adequacy and operating effectiveness of the internal financial controls with reference to financial statements insofar as it relates to the aforesaid associate companies, which are companies covered under the Act, is solely based on the corresponding internal financial controls with reference to financial statements reports certified by the management of such companies. In our opinion and according to the information and explanations given to us by the management, these financial statements are not material to the Group. Our opinion is not modified in respect of the above matter with respect to our reliance on the internal financial controls with reference to financial statements reports certified by the management.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

1 Reporting entity

Britannia Industries Limited (the 'Company') is a company domiciled in India, with its registered office situated at 5/1A, Hungerford Street, Kolkata, West Bengal - 700017. The Company has been incorporated under the provisions of Indian Companies Act and its equity shares are listed on the National Stock Exchange (NSE) and the Bombay Stock Exchange (BSE) in India. These consolidated financial statements comprise the Company and its subsidiaries (referred to collectively as the 'Group') and the Group's interest in associates. The Group is primarily involved in manufacturing and sale of various food products.

2 Basis of preparation

A. Statement of compliance

These consolidated financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015, as amended, notified under Section 133 of Companies Act, 2013, (the 'Act') and other relevant provisions of the Act.

The consolidated financial statements were authorised for issue by the Company's Board of Directors on 2 May 2022.

Details of the Group's accounting policies are included in Note 3.

B. Functional & presentation currency

These consolidated financial statements are presented in Indian Rupees (₹), which is also the Company's functional currency. All amounts have been rounded-off to two decimal places to the nearest crores, unless otherwise indicated.

C. Basis of measurement

These consolidated financial statements have been prepared on the historical cost basis except for the following items:

Items	Measurement basis
Certain financial assets and liabilities	Fair value
Share based payments	Fair value
Net defined benefit asset/ (liability)	Fair value of plan assets less present value of defined benefit obligations

D. Use of estimates and judgments

In preparing these consolidated financial statements, the Group has made judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

Judgements

Information about judgements made in applying accounting policies that have the most significant effects on the amounts recognised in these consolidated financial statements is included in the following notes:

- Note 37 - leases: whether an arrangement contains a lease and lease classification.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

Assumptions and estimation uncertainties

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment in the year ending 31 March 2022 is included in the following notes:

- Note 45 - measurement of defined benefit obligations: key actuarial assumptions;
- Note 40 - recognition and measurement of provisions and contingencies: key assumptions about the likelihood and magnitude of an outflow of resources;
- Note 4 - useful life of property, plant and equipment;
- Note 8 - 10, 13,14,16 and 17 - impairment of financial assets.

E. Measurement of fair values

Certain accounting policies and disclosures of the Group require the measurement of fair values, for both financial and non financial assets and liabilities.

The Group has an established control framework with respect to the measurement of fair values.

The valuation team regularly reviews significant unobservable inputs and valuation adjustments.

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

When measuring the fair value of an asset or a liability, the Group uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

Further information about the assumptions made in the measuring fair values is included in the following notes:

- Note 5 - investment property;
- Note 20 (e) - share-based payment / Phantom Option Scheme; and
- Note 50 - financial instruments.

3. Significant accounting policies

(a) Basis of consolidation

i. Subsidiaries

Subsidiaries are all the entities over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity. Subsidiaries are fully consolidated from the date on which the control is transferred to the Group. They are deconsolidated from the date that control ceases.

The acquisition method of accounting is used to account for business combinations by the Group.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

The Group combines the financial statements of the parent and its subsidiaries line by line adding together like items of assets, liabilities, equity, income and expenses. Intercompany transactions, balances and unrealised gains on transactions between Group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

ii. **Non - controlling interests (NCI)**

NCI are measured at their proportionate share of the acquiree's net identifiable assets on the date of acquisition.

iii. **Associates**

These are entities over which the group has significant influence but not control or joint control over the financial and operating policies.

Interests in associates are accounted using the equity method. They are initially recognised at cost which includes transaction cost. Subsequent to initial recognition, the consolidated financial statements include the Group's share of profit or loss and other comprehensive income of equity accounted investees until the date on which significant influence ceases.

iv. **Equity method**

Under the equity method of accounting, the investments are initially recognised at cost and adjusted thereafter to recognise the Group's share of the post-acquisition profits or losses of the investee in profit and loss, and the Group's share of other comprehensive income of the investee in other comprehensive income. Dividends received or receivable from associates and joint ventures are recognised as a reduction in the carrying amount of the investment.

When the Group's share of losses in an equity-accounted investment equals or exceeds its interest in the entity, including any other unsecured long-term receivables, the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the other entity.

v. **Transactions eliminated on consolidation**

Intra-group balances and transactions, and any unrealised income and expenses arising from intra-group transactions, are eliminated. Unrealised gains arising from transactions with equity accounted investees are eliminated against the investment to the extent of the Group's interest in the investee. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

vi. **Subsidiaries and associate companies considered in the consolidated financial statements:**

The following subsidiary companies are excluded from consolidation as they are not significant:

Name of the entity	Relationship	Country of incorporation
Vasana Agrex and Herbs Private Limited	Subsidiary	India
Snacko Bisc Private Limited	Subsidiary	India

viii. The financial statements of Nalanda Biscuits Company Limited and Sunandaram Foods Private Limited have been incorporated in the consolidated financial statements of Britannia Industries Limited based on unaudited financial statements.

(b) Property, plant and equipment

i. Recognition and measurement

Items of property, plant and equipment are measured at cost (which includes capitalised borrowing costs, if any) less accumulated depreciation and accumulated impairment losses, if any.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

Cost of an item of property, plant and equipment includes its purchase price, duties, taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

The cost of a self-constructed item of property, plant and equipment comprises the cost of materials, direct labour and any other costs directly attributable to bringing the item to its intended working condition and estimated costs of dismantling, removing and restoring the site on which it is located, wherever applicable.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognised in the Statement of Profit or Loss.

ii. *Subsequent expenditure*

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Group.

iii. *Depreciation*

Depreciation is calculated on cost of items of property, plant and equipment less their estimated residual value using straight line method over the useful lives of assets as per Schedule II of the Companies Act, 2013 and is recognised in the Statement of Profit and Loss. Assets acquired under lease are depreciated over the shorter of the lease term and their useful lives unless it is reasonably certain that the Group will obtain ownership by the end of the lease term. Depreciation for assets purchased / sold during the period is proportionately charged.

The range of estimated useful lives of items of property, plant and equipment are as follows:

Asset	Useful life
Plant and equipment	7.5 - 15 years
Furniture and fixtures	10 years
Motor vehicles	8 years
Office equipment	3 - 5 years
Buildings	30 - 60 years

Freehold land is not depreciated.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year-end and adjusted prospectively, if appropriate.

iv. *Reclassification to investment property*

When the use of a property changes from owner-occupied to investment property, the property is reclassified as investment property at its carrying amount on the date of classification.

v. *Capital work-in-progress (CWIP)*

Capital work-in-progress includes cost of property, plant and equipment/ other intangible assets under installation / under development as at the balance sheet date.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

(c) Intangible assets

Internally generated: Research and development

Expenditure on research activities is recognised in the Statement of Profit and Loss as incurred.

Development expenditure is capitalised as part of the cost of the resulting intangible asset only if the expenditure can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable, and the Group intends to and has sufficient resources to complete the development and to use or sell the asset. Otherwise, it is recognised in the Statement of Profit or Loss as incurred. Subsequent to initial recognition, the asset is measured at cost less accumulated amortisation and accumulated impairment losses, if any.

Others:

Other intangible assets including those acquired by the Group in a business combination are initially measured at cost. Such intangible assets are subsequently measured at cost less accumulated amortisation and accumulated impairment losses, if any.

Goodwill arising on consolidation represents the excess of cost to the Group of its investment in a subsidiary company over the Group's portion of net worth of the subsidiary, and is net of capital reserve.

Amortisation

Amortisation is calculated to write off the cost of intangible assets less their estimated residual values over their estimated useful lives using the straight-line method, and is included in depreciation and amortisation in the Statement of Profit and Loss.

The estimated useful lives are as follows:

Asset	Useful life
Computer software	6 years

Amortisation method, useful lives and residual values are reviewed at the end of each financial year and adjusted if appropriate.

(d) Investment property

Investment property is property held either to earn rental income or for capital appreciation or for both, but not for sale in the ordinary course of business, use in the production or supply of goods or services or for administrative purposes. Upon initial recognition, an investment property is measured at cost. Subsequent to initial recognition, investment property is measured at cost less accumulated depreciation and accumulated impairment losses, if any.

The Group depreciates investment properties on a straight-line basis over the useful life of the asset as specified in point b (iii) above.

Any gain or loss on disposal of an investment property is recognised in the Statement of Profit or Loss.

The fair values of investment property is disclosed in the notes accompanying these consolidated financial statements. Fair values are determined by an independent valuer who holds recognised and relevant professional qualification and has recent experience in the location and category of the investment property being valued.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

(e) Impairment**(i) Financial assets**

The Group recognises loss allowances using the expected credit loss (ECL) model for the financial assets which are not fair valued through profit or loss. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognised is recognised as an impairment gain or loss in the Statement of Profit or Loss.

(ii) Non -financial assets**Intangible assets and property, plant and equipment**

Intangible assets and property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash generated units to which the asset belongs. If such assets are considered to be impaired, the impairment to be recognised in the Statement of Profit and Loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the Statement of Profit and Loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortisation or depreciation) had no impairment loss been recognised for the asset in prior years.

(f) Leases

The Group at the inception of a contract, assesses whether a contract, is or contains a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. A lessee recognises a Right-of-use asset representing its right to use the underlying asset and a lease liability representing its obligation to make lease payments. The Group does not recognise right-of-use of assets and lease liabilities for short term leases that have a lease term of 12 months or less and leases of low value assets. The Group recognises the lease payments associated with these leases as an expense on a straight line basis over the lease term. Lessor accounting remains similar to the accounting under the previous standard i.e. lessor continues to classify leases as finance or operating lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

As a lessee

The Group recognises a right-of-use asset and a lease liability at the lease commencement date. The right of use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct cost incurred and an estimate of cost to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

The right-of-use asset is subsequently depreciated using the straight line method from the commencement date to the earlier of the end of the useful life or the end of the lease term. The estimated useful life of the right-of-use assets are determined on the same basis as those of property, plant and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Group's incremental borrowing rate. The lease payments shall include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the Group is reasonably certain to exercise that option and payment of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease. Subsequent to initial measurement, the liability is reduced for payments made and increased for interest. It is remeasured to reflect any reassessment or modification, or if there are changes in in-substance fixed payments. When the lease liability is remeasured, the corresponding adjustment is reflected in the right-of-use asset, or profit and loss if the right-of-use asset is already reduced to zero. On the Balance Sheet, right-of-use assets have been included under property, plant and equipment and lease liabilities have been included under financial liabilities.

As a lessor

Lease income from operating leases, where the Group is a lessor, is recognised on a straight-line basis over the lease term.

(g) Inventories

Inventories are valued at the lower of cost (including prime cost, non-refundable taxes and duties and other overheads incurred in bringing the inventories to their present location and condition) and estimated net realisable value, after providing for obsolescence, where appropriate. The comparison of cost and net realisable value is made on an item-by-item basis. The net realisable value of materials in process is determined with reference to the selling prices of related finished goods. Raw materials, packing materials and other supplies held for use in production of inventories are not written down below cost except in cases where material prices have declined, and it is estimated that the cost of the finished products will exceed their net realisable value.

The provision for inventory obsolescence is assessed regularly based on estimated usage and shelf life of products.

Raw materials, packing materials and stores and spares are valued at cost computed on moving weighted average basis. The cost includes purchase price, inward freight and other incidental expenses net of refundable duties, levies and taxes, where applicable.

Work-in-progress is valued at input material cost plus conversion cost as applicable.

Finished goods and stock-in-trade are valued at the lower of net realisable value and cost (including prime cost, non-refundable taxes and duties and other overheads incurred in bringing the inventories to their present location and condition), computed on a moving weighted average basis.

In respect of the following subsidiary, inventories are valued at cost, computed under first-in-first-out basis. The value of the inventories are as given below:

	₹ in Crores

Britannia Dairy Private Limited	16.31	15.15

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

(h) Financial instruments**i. Recognition and initial measurement**

The Group initially recognises financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are measured at fair value on initial recognition. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, that are not at fair value through profit or loss, are added to the fair value on initial recognition.

ii. Classification and subsequent measurement**Financial assets***Financial assets carried at amortised cost*

A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through other comprehensive income

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through profit or loss

A financial asset which is not classified in any of the above categories are subsequently fair valued through profit or loss.

Financial liabilities

Financial liabilities are subsequently carried at amortised cost using the effective interest method. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the nature of these instruments.

Investment in associates and joint venture

Investment in equity shares / preference shares in joint venture and associates is carried at cost in the financial statements.

iii. Derecognition*Financial assets*

The Group derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the right to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial assets are transferred or in which the Group neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset.

If the Group enters into transactions whereby it transfers assets recognised on its balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognised.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

Financial liabilities

The Group derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire.

The Group also derecognises a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and a new financial liability with modified terms is recognised in the Statement of Profit and Loss.

iv. *Offsetting*

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when, and only when, the Group has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or realise the asset and settle the liability simultaneously.

(i) **Revenue recognition**

The Group recognises revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. A 5-step approach is used to recognise revenue as below:

Step 1: Identify the contract(s) with a customer

Step 2: Identify the performance obligation in contract

Step 3: Determine the transaction price

Step 4: Allocate the transaction price to the performance obligations in the contract

Step 5: Recognise revenue when (or as) the entity satisfies a performance obligation

(i) Sale of goods:

Revenue is recognised when a customer obtains control of the goods which is ordinarily upon delivery at the customer premises. Revenue is measured at fair value of the consideration received or receivable, after deduction of any trade discounts, volume rebates and any taxes or duties collected on behalf of the government which are levied on sales such as goods and services tax, etc. For certain contracts that permit the customer to return an item, revenue is recognised to the extent that it is probable that a significant reversal in the amount of cumulative revenue recognised will not occur. As a consequence, for those contracts for which the Group is unable to make a reasonable estimate of return, revenue is recognised when the return period lapses or a reasonable estimate can be made. A refund liability and an asset for recovery is recognised for these contracts and presented separately in the balance sheet.

(ii) Deferred revenue:

The Group has a customer loyalty programme for select customers. The Group grants credit points to those customers as part of a sales transaction which allows them to accumulate and redeem those credit points. The consideration is allocated between the loyalty programme and the goods based on their relative stand-alone selling prices. The credit points have been deferred and will be recognised as revenue when the reward points are redeemed or lapsed.

(iii) Income from royalties are recognised based on contractual agreements.

(iv) Dividend income is recognised when the Group's right to receive the payment is established, which is generally when shareholders approve the dividend.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

(v) For all financial instruments measured at amortised cost, interest income is recorded using the effective interest rate (EIR), which is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset. Interest income is included in other income in the Statement of Profit and Loss.

(j) Foreign currencies

Transactions in foreign currencies are initially recorded by the Group at their functional currency spot rates at the date of the transaction. Monetary assets and liabilities denominated in foreign currency are translated at the functional currency spot rates of exchange at the reporting date. Exchange differences that arise on settlement of monetary items or on reporting at each balance sheet date are recognised as income or expenses in the period in which they arise. Non-monetary items which are carried at historical cost denominated in a foreign currency are reported using the exchange rates at the date of transaction. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined.

(k) Foreign operations

The assets and liabilities of foreign operations including goodwill and fair value adjustments arising on acquisition, are translated into ₹, the functional currency of the Company, at the exchange rates on the reporting date. The income and expenses of foreign operations are translated into ₹ at the exchange rates at the dates of the transactions or an average rate if the average approximates the actual rate at the date of the transaction.

When a foreign operation is disposed of in its entirety or partially, such that control, significant influence or joint control is lost, the cumulative amount of exchange differences related to that foreign operation recognised in OCI is reclassified to profit or loss as part of the gain or loss on disposal. If the Group disposes off part of its interest in a subsidiary but retains control, then the relevant proportion of the cumulative amount is re-allocated to OCI. When the Group disposes off only a part of its interest in an associate while retaining significant influence, the relevant proportion of the cumulative amount is reclassified to Statement of Profit or Loss.

(l) Government grants/Incentives

Government grants/incentives are recognised where there is reasonable assurance that the grant/incentives will be received and all attached conditions will be complied with. When the grant/incentives relates to revenue, it is recognised in the Statement of Profit and Loss on a systematic basis over the periods to which it relates. When the grant/incentives relates to an asset, it is treated as deferred income and recognised in the Statement of Profit and Loss on a systematic basis over the useful life of the asset.

(m) Income tax

Income tax comprises current and deferred tax. It is recognised in the Statement of Profit or Loss except to the extent that it relates to a business combination or to an item recognised directly in equity or in other comprehensive income.

i. Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

ii. *Deferred tax*

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognised in respect of carried forward tax losses and tax credits. Deferred tax is not recognised for:

- temporary differences arising on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss at the time of transaction.
- temporary differences related to investments in subsidiaries, associates and interests in joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used.

Deferred tax assets recognised or unrecognized are reviewed at each reporting date and are recognised/reduced to the extent that it is probable / no longer probable respectively that the related tax benefit will be realised. Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Group expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

The Group offsets, the current tax assets and liabilities (on a year on year basis) and deferred tax assets and liabilities, where it has a legally enforceable right and where it intends to settle such assets and liabilities on a net basis.

Minimum Alternate Tax (MAT) credit is recognised as an asset only when and to the extent there is convincing evidence that the respective Group Company will pay normal income tax during the specified period. Such asset is reviewed at each balance sheet date and the carrying amount of the MAT credit asset is written down to the extent there is no longer a convincing evidence to the effect that the company will pay normal income tax during the specified period.

(n) **Borrowing costs**

Borrowing costs directly attributable to the acquisition or construction of those property, plant and equipment, which necessarily takes a substantial period of time to get ready for their intended use are capitalised. All other borrowing costs are expensed in the period in which they incur in the Statement of Profit and Loss.

(o) **Provisions and contingent liabilities**

i. *General*

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Group expects some or all of a provision to be reimbursed, the expense relating to a provision is presented in the Statement of Profit and Loss net of any reimbursement.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

ii. Contingent liabilities

A disclosure for contingent liabilities is made where there is a possible obligation or a present obligation that may probably not require an outflow of resources. When there is a possible or a present obligation where the likelihood of outflow of resources is remote, no provision or disclosure is made.

iii. Onerous contracts

Provision for onerous contracts. i.e. contracts where the expected unavoidable cost of meeting the obligations under the contract exceed the economic benefits expected to be received under it, are recognised when it is probable that an outflow of resources embodying economic benefits will be required to settle a present obligation as a result of an obligating event based on a reliable estimate of such obligation.

(p) Employee benefits

i. Short-term employee benefits

All employee benefits falling due wholly within twelve months of rendering the services are classified as short-term employee benefits, which include benefits like salaries, wages, short-term compensated absences and performance incentives and are recognised as expenses in the period in which the employee renders the related service.

ii. Post-employment benefits

Contributions to defined contribution schemes such as Provident Fund, Pension Fund, etc., are recognised as expenses in the period in which the employee renders the related service. In respect of certain employees, Provident Fund contributions are made to a Trust administered by the Group. The interest rate payable to the members of the Trust shall not be lower than the statutory rate of interest declared by the Central Government under the Employees' Provident Funds and Miscellaneous Provisions Act, 1952 and shortfall, if any, after considering the accumulated reserves with the Trust, shall be made good by the Group. In respect of contributions made to government administered Provident Fund, the Group has no further obligations beyond its monthly contributions. The Group also provides for post-employment defined benefit in the form of gratuity and medical benefits. The cost of providing benefit is determined using the projected unit credit method, with actuarial valuation being carried out at each balance sheet date. Remeasurement of the net benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interests) and the effect of the assets ceiling (if any, excluding interest) are recognised in other comprehensive income. The effect of any plan amendments are recognized in the Statement of Profit and Loss.

The Britannia Industries Limited Covenanted Staff Pension Fund Trust ('BILCSPF') and Britannia Industries Limited Officers' Pension Fund Trust ('BILOPF') were established by the Group to administer pension schemes for its employees. These trusts are managed by the Trustees. The Pension Scheme is applicable to all the managers and officers of the Group who have been employed up to the date of 15 September 2005 and any manager or officer employed after that date, if he has opted for the membership of the Scheme. The Group makes a contribution of 15% of basic salary in respect of the members, each month to the trusts. On retirement, subject to the vesting conditions as per the rules of the trust, the member becomes eligible for pension, which is paid from annuity purchased in the name of the member by the trusts.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

iii. Other long-term employee benefits

All employee benefits (other than post-employment benefits and termination benefits) which do not fall due wholly within twelve months after the end of the period in which the employees render the related services are determined based on actuarial valuation or discounted present value method carried out at each balance sheet date. The expected cost of accumulating compensated absences is determined by actuarial valuation performed by an independent actuary as at 1 January every year using projected unit credit method on the additional amount expected to be paid / availed as a result of the unused entitlement that has accumulated at the balance sheet date. Expense on non-accumulating compensated absences is recognised in the period in which the absences occur.

iv. Voluntary retirement scheme benefits

Voluntary retirement scheme benefits are recognised as an expense in the year they are incurred.

(q) Share based payment/Cash-settled share-based payments

The cost of equity-settled transactions is determined by the fair value at the date when the grant is made using an appropriate valuation model. That cost is recognised in employee benefits expense, together with a corresponding increase in share-based payment (share options outstanding account) reserves in equity, over the period in which the performance and/or service conditions are fulfilled. The dilutive effect of outstanding options is reflected as additional share dilution in the computation of diluted earnings per share.

For cash-settled share-based payments, the fair value of the amount payable to employees is recognised as employee benefits expense with a corresponding increase in liabilities, over the vesting period. The liability is remeasured at each reporting period up to, and including the settlement date, with changes in fair value recognised in employee benefits expense.

(r) Cash and cash equivalents

Cash and cash equivalents includes cash on hand, cheques on hand and demand deposits with banks with original maturities of three months or less.

(s) Earnings per share

Basic Earnings Per Share ('EPS') is computed by dividing the net profit attributable to the equity shareholders by the weighted average number of equity shares outstanding during the year. Diluted earnings per share is computed by dividing the net profit by the weighted average number of equity shares considered for deriving basic earnings per share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as of the beginning of the year, unless issued at a later date. In computing diluted earnings per share, only potential equity shares that are dilutive and that either reduces earnings per share or increases loss per share are included. The number of shares and potentially dilutive equity shares are adjusted retrospectively for all period in case of share splits.

(t) Cash flow statement

Cash flows are reported using indirect method, whereby net profits before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments and items of income or expenses associated with investing or financing cash flows. The cash flows from regular revenue generating (operating activities), investing and financing activities of the Group are segregated.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

(u) Recent accounting pronouncements

Standards issued but not effective on Balance Sheet date;

Ministry of Corporate Affairs (“MCA”) notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 23, 2022, MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2022, as below.

Ind AS 109 – Financial Instruments

The amendment clarifies that the terms are substantially different if the discounted present value of the cash flows under the new terms, including any fees paid net of any fees received and discounted using the original effective interest rate, is at least 10 per cent different from the discounted present value of the remaining cash flows of the original financial liability. In determining those fees paid net of fees received, a borrower includes only fees paid or received between the borrower and the lender, including fees paid or received by either the borrower or lender on the other’s behalf.

If an exchange of debt instruments or modification of terms is accounted for as an extinguishment, any costs or fees incurred are recognised as part of the gain or loss on the extinguishment. If the exchange or modification is not accounted for as an extinguishment, any costs or fees incurred adjust the carrying amount of the liability and are amortised over the remaining term of the modified liability.

Ind AS 16 – Property Plant and equipment – The amendment clarifies that excess of net sale proceeds of items produced over the cost of testing, if any, shall not be recognised in the profit or loss but deducted from the directly attributable costs considered as part of cost of an item of property, plant and equipment. The Group has evaluated the amendment and there is no impact on its consolidated financial statements.

Ind AS 37 – Provisions, Contingent Liabilities and Contingent Assets – The amendment specifies that the ‘cost of fulfilling’ a contract comprises the ‘costs that relate directly to the contract’. Costs that relate directly to a contract can either be incremental costs of fulfilling that contract (examples would be direct labour, materials) or an allocation of other costs that relate directly to fulfilling contracts (an example would be the allocation of the depreciation charge for an item of property, plant and equipment used in fulfilling the contract). The Group has evaluated the amendment and there is no impact on its consolidated financial statements.

- (b) Impairment analysis was performed for the goodwill on consolidation. The recoverable amount was determined using value in use of the cash generating units. The recoverable amount exceeds the carrying value, accordingly no impairment charges were identified for the year ended 31 March 2022 (31 March 2021: Nil).

Following key assumptions were considered while performing impairment testing:

Weighted Average Cost of Capital % (WACC)	6% - 13%
Perpetual growth rate	1% - 5%
Average sales growth	4% - 6%
Average gross margin	25% - 45%

The projections cover a period of five years, as we believe this to be the most appropriate time scale over which to review and consider annual performances before applying a fixed terminal value multiple to the final year cash flows.

The growth rates used to estimate future performance are based on the conservative estimates from past performance.

(e) Share based payments / Phantom Option Scheme

During the financial year 2008-09, the Company introduced Britannia Industries Limited Employee Stock Option Scheme ('the Scheme'). As per the Scheme, the Remuneration / Compensation Committee grants options to the employees and Executive Directors of the Company. The vesting period of the option is one to three years from the date of grant. Options granted under the Scheme can be exercised within a period of three years from the date of vesting.

Under the Scheme, the Company granted 15,000 options on 29 October 2008 at an exercise price of ₹ 1,125.30/-; 15,000 options on 27 May 2009 at an exercise price of ₹ 1,698.15/-; 20,000 options on 27 May 2010 at an exercise price of ₹ 1,668.55/-; 125,000 options on 27 May 2011 at an exercise price of ₹ 391.75/-; 100,000 options on 28 May 2012 at an exercise price of ₹ 528.75/-; 50,000 options on 26 May 2014 at an exercise price of ₹ 870.35/-, 75,000 options on 21 May 2015 at an exercise price of ₹ 2,332.05/-, 100,000 options on 30 June 2016 at an exercise price of ₹ 2,771.40/-, 125,000 options on 25 May 2017 at an exercise price of ₹ 3,533.30/- and 150,000 options on 15 May 2018 at an exercise price of ₹ 5,464.10/-, 350,000 options on 1 May 2019 at an exercise price of ₹ 2,896.05/- and 250,000 options on 2 June 2020 at an exercise price of ₹ 3,434.85/- to the Managing Director of the Company. Each option represents one equity share of ₹ 10/- each (for options granted between the years 2008 to 2010) and one equity share of ₹ 2/- each (for options granted between the years 2011 to 2018) and one equity share of ₹ 1/- each (for options granted after the year 2018). The said price was determined in accordance with the pricing formula approved by the shareholders i.e. the latest available closing price, prior to the date of the meeting of the Board of Directors or Remuneration / Compensation Committee in which options were granted, on the stock exchange having higher trading volume. Exercise prices as stated above were adjusted downwards by ₹ 170/- per share for options granted on 29 October 2008 and 27 May 2009, being the face value of bonus debentures issued pursuant to the Scheme of Arrangement approved by the Honourable Calcutta High Court on 11 February 2010. The number of options have been appropriately adjusted, consequent upon the sub-division of the equity shares.

The fair value of cash and cash equivalents, bank balances, trade receivables, loans receivables, investments in tax-free bonds, investments in debentures/bonds, investments in equity instruments, investment in government securities, borrowings, trade payables and other financial assets and liabilities approximate their carrying amount largely due to the nature of these instruments. The Group's loans have been contracted at market rates of interest. Accordingly, the carrying value of such loans approximate fair value.

Investments in mutual funds, which are classified as FVTPL are measured using net assets value at the reporting date multiplied by the quantity held.

No funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries") with the understanding, whether recorded in writing or otherwise, that the Intermediary shall lend or invest in party identified by or on behalf of the Company (Ultimate Beneficiaries). The Company has not received any fund from any party(s) (Funding Party) with the understanding that the Company shall whether, directly or indirectly lend or invest in other persons or entities identified by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

Financial risk management

The Group's financial risk management is an integral part of how to plan and execute its business strategies. The Group's management risk policy is set by the Board. The Group's activities expose it to a variety of financial risks: credit risk, liquidity risk and market risk. The Group's primary focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. A summary of the risks have been given below.

Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's receivables from customers and loans given. Credit risk arises from cash held with banks and financial institutions, as well as credit exposure to clients, including outstanding accounts receivables. The maximum exposure to credit risk is equal to the carrying value of the financial assets. The objective of managing counterparty credit risk is to prevent losses in financial assets. The Group assesses the credit quality of the counterparties, taking into account their financial position, past experience and other factors. Based on our assessment and current estimates the carrying value and the provisions made as at 31 March 2022 is considered adequate.

Trade and other receivables

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the customer, including the default risk of the industry and country in which the customer operates, also has an influence on credit risk assessment. The Group limits its exposure to credit risk from trade receivables by establishing appropriate credit period for customer. In monitoring customer credit risk, customers are grouped according to their credit characteristics, including whether they are wholesale, retail or institutional customers, their geographic location, industry, trading history with the Group and existence of previous financial difficulties. The default in collection as a percentage to total receivable is low.

The Group's exposure to credit risk for trade receivables by geographic region is as follows:

	Carrying amount	
	31 March 2022	31 March 2021
India	228.70	174.62
Others	106.40	85.36
	335.10	259.98

The Group's exposure to credit risk for trade receivables by type of counterparty is as follows:

	Carrying amount	
	31 March 2022	31 March 2021
Institutional	125.32	117.97
Authorised wholesaler	59.93	26.54
Exports	106.40	85.36
Others	43.45	30.11

Liquidity risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they become due. The Group manages its liquidity risk by ensuring, that it will always have sufficient liquidity to meet its liabilities when due. The Group's corporate treasury department is responsible for liquidity, funding as well as settlement management. In addition, processes and policies related to such risks are overseen by the senior management.

The Group aims to maintain the level of its cash and cash equivalents and other highly marketable debt investments at an amount in excess of expected cash outflows on financial liabilities (other than trade payables) over the next six months. The Group also monitors the level of expected cash inflows on trade receivables and loans together with expected cash outflows on trade payables and other financial liabilities. At 31 March 2022, the expected cash flows from trade receivables is ₹ 331.93 (31 March 2021: ₹ 257.27). This excludes the potential impact of extreme circumstances that cannot reasonably be predicted, such as natural disasters.

In addition, the Company maintains a line of credit, ₹ 878 (31 March 2021: ₹ 744) overdraft facility with various banks that is unsecured. Interest would be payable basis prevailing MCLR rates plus applicable margin (31 March 2021 : MCLR rates plus applicable margin).

The table below provides details regarding the contractual maturities of significant financial liabilities as at 31 March 2022 and 31 March 2021:

Market risk

Market risk is the risk that changes in market prices - such as foreign exchange rates and interest rates - will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

Currency risk

The Company is exposed to currency risk to the extent that there is mismatch between the currencies in which sales, purchase are denominated and the respective functional currencies of Group companies. The Group has export sales (5% of total sales) primarily denominated in US dollars and Euro. At any point in time, the Company hedges 95% to 100% of its estimated foreign currency exposure in respect of sales and purchases over the following 12 months. The Company uses forward exchange contracts to hedge its currency risk, most with a maturity of less than one year from the reporting date.

The Company's investment in foreign subsidiaries is not hedged.

Exposure to currency risk

The summary quantitative data about the Group's exposure to currency risk is as follows:

	31 March 2022		31 March 2021	
	Euro	USD	Euro	USD
Export receivables	-	0.45	-	0.42
Overseas payables	(0.06)	(0.07)	(0.33)	-

The Group uses forward exchange contracts to hedge the currency exposure and therefore, not exposed to significant currency risk at the respective reporting dates.

Sensitivity analysis

The impact of strengthening/weakening of currency on the Group is not material as Group hedges 95% to 100% of the foreign currency exposure.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's debt obligations with floating interest rates. The Group's exposure to risk of changes in market interest rate is minimal.

Sensitivity analysis

The sensitivity analysis have been determined based on the exposure to interest rates for debt obligations with floating rates. The impact on the Group of movement in interest rate by 100 basis points higher or lower and considering all other variables constant, is not material.

Note 51 During the year ended 31 March 2016, based on queries received from Securities Exchange Board of India ('SEBI'), the Company conducted a preliminary internal investigation and discovered certain irregularities by M/s Sharepro Services (India) Private Limited ('Sharepro'), the Company's erstwhile Registrar and Share Transfer Agent. Subsequently, the Company filed a criminal complaint against Sharepro and its employees. Pursuant to the directions issued by SEBI in its interim order dated 22 March 2016, the Company appointed an independent external agency to conduct an audit of the records and systems of Sharepro with respect to past transactions. The report of the external agency was submitted with SEBI by the Company vide its letter dated 12 July 2016. In 2019-20, following the receipt of a Show Cause Notice dated 8 November 2019 from SEBI in a related matter, the Company filed a Settlement Application and SEBI passed the settlement order on 17 September, 2020. The Company continues to evaluate additional steps, if any, based on the directions of SEBI or any other regulatory authorities.

Based on consultations with its legal counsel, the Company has been advised that the liability will not devolve on the Company and thus no provision is considered necessary.
