

**Island Horti-Tech Holdings Pte. Ltd.**  
**Registration Number: 198303588Z**

Annual Report  
Year ended 31 March 2022

## **Directors' statement**

We submit this annual report to the member of the Company, together with the audited financial statements for the financial year ended 31 March 2022.

In our opinion:

- (a) the financial statements set out on pages FS1 to FS20 are drawn up so as to give a true and fair view of the financial position of the Company as at 31 March 2022 and the financial performance, changes in equity and cash flows of the Company for the year ended on that date in accordance with the provision of the Companies Act 1967 and Financial Reporting Standards in Singapore; and
- (b) at the date of this statement, there are reasonable grounds to believe that the Company will be able to pay its debts as and when they fall due.

The Board of Directors has, on the date of this statement, authorised these financial statements for issue.

## **Directors**

The directors in office at the date of this statement are as follows:

Jayant Shripad Gadgil  
Ness Wadia  
Nusli Neville Wadia  
Pandit Jaideep Dattatraya  
Nitin Hariyantlal Datanwala

## **Directors' interests**

According to the register kept by the Company for the purposes of Section 164 of the Companies Act 1967 (the "Act"), particulars of interests of directors who held office at the end of the financial year (including those held by their spouses and infant children) in shares, debentures, warrants and share options in the Company and in related companies are as follows:

<b>Name of directors and company in which interests are held</b>	<b>Holdings at beginning of the year</b>	<b>Holdings at end of the year</b>
--	--	--

### **Ultimate holding company**

**The Bombay Burmah Trading Corporation Ltd**

#### Ordinary shares fully paid

Jayant Shripad Gadgil	750	750
Ness Wadia	21,600	21,600
Nusli Neville Wadia	6,980,356	6,980,356

Except as disclosed in this statement, no director who held office at the end of the financial year had interests in shares, debentures, warrants or share options of the Company, or of related companies, either at the beginning or at the end of the financial year.

Neither at the end of, nor at any time during the financial year, was the Company a party to any arrangement whose objects are, or one of whose objects is, to enable the directors of the Company to acquire benefits by means of the acquisition of shares in or debentures of the Company or any other body corporate.

### **Share options**

During the financial year, there were:

- (i) no options granted by the Company to any person to take up unissued shares in the Company; and
- (ii) no shares issued by virtue of any exercise of option to take up unissued shares of the Company.

As at the end of the financial year, there were no unissued shares of the Company under option.

### **Auditors**

The auditors, KPMG LLP, have indicated their willingness to accept re-appointment.

On behalf of the Board of Directors

## **Independent auditors' report**

Member of the Company  
Island Horti-Tech Holdings Pte. Ltd.

### **Report on the audit of the financial statements**

#### *Opinion*

We have audited the financial statements of Island Horti-Tech Holdings Pte. Ltd. ('the Company'), which comprise the statement of financial position as at 31 March 2022, the statements of profit or loss and other comprehensive income, changes in equity and cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, as set out on pages FS1 to FS20.

In our opinion, the accompanying financial statements are properly drawn up in accordance with the provisions of the Companies Act 1967 ('the Act') and Financial Reporting Standards in Singapore ('FRSs') so as to give a true and fair view of the financial position of the Company as at 31 March 2022 and of the financial performance, changes in equity and cash flows of the Company for the year ended on that date.

#### *Basis for opinion*

We conducted our audit in accordance with Singapore Standards on Auditing ('SSAs'). Our responsibilities under those standards are further described in the '*Auditors' responsibilities for the audit of the financial statements*' section of our report. We are independent of the Company in accordance with the Accounting and Corporate Regulatory Authority *Code of Professional Conduct and Ethics for Public Accountants and Accounting Entities* ('ACRA Code') together with the ethical requirements that are relevant to our audit of the financial statements in Singapore, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ACRA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### *Other information*

Management is responsible for the other information contained in the annual report. Other information is defined as all information in the annual report other than the financial statements and our auditors' report thereon.

We have obtained all other information prior to the date of this auditors' report.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

*Responsibilities of management and directors for the financial statements*

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the provisions of the Act and FRSs, and for devising and maintaining a system of internal accounting controls sufficient to provide a reasonable assurance that assets are safeguarded against loss from unauthorised use or disposition; and transactions are properly authorised and that they are recorded as necessary to permit the preparation of true and fair financial statements and to maintain accountability of assets.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The directors' responsibilities include overseeing the Company's financial reporting process.

*Auditors' responsibilities for the audit of the financial statements*

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls.
- Obtain an understanding of internal controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal controls that we identify during our audit.

#### **Report on other legal and regulatory requirements**

In our opinion, the accounting and other records required by the Act to be kept by the Company have been properly kept in accordance with the provisions of the Act.

## **Notes to the financial statements**

These notes form an integral part of the financial statements.

The financial statements were authorised for issue by the Board of Directors on 31 May 2022.

### **1 Domicile and activities**

Island Horti-Tech Holdings Pte. Ltd. (the “Company”) is a company incorporated in Singapore. The address of the Company’s registered office and place of business is at Plot 13, PSA Nursery, 3 Joan Road, Singapore 298897.

The principal activity of the Company is that relating to investment holding.

During the financial year, the immediate holding company is Leila Lands Sdn Bhd, incorporated in Malaysia and its ultimate holding company is The Bombay Burmah Trading Corporation Limited, incorporated in India.

### **2 Basis of preparation**

#### **2.1 Statement of compliance**

The financial statements have been prepared in accordance with Financial Reporting Standards in Singapore (“FRS”).

#### **2.2 Basis of measurement**

The financial statements have been prepared on the historical cost basis except as otherwise described in the notes below.

#### **2.3 Functional and presentation currency**

These financial statements are presented in Singapore dollars, which is the Company’s functional currency. All financial information are presented in Singapore dollars, unless otherwise stated.

#### **2.4 Use of estimates and judgements**

The preparation of the financial statements in conformity with FRSs requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

There are no significant areas of critical judgements in the application of accounting policies that have significant effect on the amount recognised in the financial statements. Information about significant areas of estimation uncertainty that have a significant risk of resulting in a material adjustment within the next financial year are included in note 4 – impairment in subsidiaries.

### 3 Significant accounting policies

The accounting policies set out below have been applied consistently to all periods presented in these financial statements.

#### 3.1 Subsidiaries

Subsidiaries are entities controlled by the Company. Control exists when the Company has the power to govern the financial and operating policies of an entity so as to obtain benefits from their activities. In assessing control, potential voting rights presently exercisable are taken into account.

Investment in subsidiaries in the Company's statement of financial position is stated at cost less accumulated impairment losses.

#### 3.2 Foreign currency transactions

Transactions in foreign currencies are translated to the functional currency of the Company at exchange rates at the date of the transactions. Monetary assets and liabilities denominated in foreign currencies at the reporting date are retranslated to the functional currency at the exchange rate at that date. The foreign currency gain or loss on monetary items is the difference between amortised cost in the functional currency at the beginning of the year, adjusted for effective interest and payments during the year, and the amortised cost in foreign currency translated at the exchange rate at the end of the year.

Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are retranslated to the functional currency at the exchange rate at the date that the fair value was determined. Non-monetary items in a foreign currency that are measured in terms of historical cost are translated using the exchange rate at the date of the transaction. Foreign currency differences arising on retranslation are recognised in profit or loss.

#### 3.3 Intangible assets

##### ***Other intangible assets***

Other intangible assets that are acquired by the Company and have finite useful lives are measured at cost less accumulated amortisation and accumulated impairment losses.

##### ***Amortisation***

Amortisation is calculated based on the cost of the asset less its residual value.

Amortisation is recognised in profit or loss on a straight-line basis over the estimated useful lives of intangible assets from the date that they are available for use. The estimated useful lives for the current and comparative years are as follows:

Club membership	15 years
-----------------	----------

Amortisation methods, useful lives and residual values are reviewed at the end of each reporting period and adjusted if appropriate.

### 3.4 Financial instruments

#### (i) **Recognition and initial measurement**

##### **Non-derivative financial assets and financial liabilities**

Trade receivables are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Company becomes a party to the contractual provisions of the instrument.

A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value plus, for an item not at fair value to profit or loss (“FVTPL”), transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at the transaction price.

#### (ii) **Classification and subsequent measurement**

##### **Non-derivative financial assets**

On initial recognition, a financial asset is classified as measured at amortised cost.

Financial assets are not reclassified subsequent to their initial recognition unless the Company changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

##### ***Financial assets at amortised cost***

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

##### **Financial assets: Business model assessment**

The Company makes an assessment of the objective of the business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:

- the stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether management’s strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realising cash flows through the sale of the assets;
- how the performance of the portfolio is evaluated and reported to the Company’s management;

- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- how managers of the business are compensated – e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for derecognition are not considered sales for this purpose, consistent with the Company's continuing recognition of the assets.

**Non-derivative financial assets: Assessment whether contractual cash flows are solely payments of principal and interest**

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Company considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Company considers:

- contingent events that would change the amount or timing of cash flows;
- terms that may adjust the contractual coupon rate, including variable rate features;
- prepayment and extension features; and
- terms that limit the Company's claim to cash flows from specified assets (e.g. non-recourse features).

**Non-derivative financial assets: Subsequent measurement and gains and losses**

***Financial assets at amortised cost***

These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.

**Non-derivative financial liabilities: Classification, subsequent measurement and gains and losses**

Financial liabilities are classified as measured at amortised cost .

Financial liabilities are recognised initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition, these financial liabilities are measured at amortised cost using the effective interest method.

**(iii) Derecognition**

**Financial assets**

The Company derecognises a financial asset when:

- the contractual rights to the cash flows from the financial asset expire; or
- it transfers the rights to receive the contractual cash flows in a transaction in which either:
  - substantially all of the risks and rewards of ownership of the financial asset are transferred;
  - or
  - the Company neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

Transferred assets are not derecognised when the Company enters into transactions whereby it transfers assets recognised in its statement of financial position, but retains either all or substantially all of the risks and rewards of the transferred assets.

**Financial liabilities**

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire. The Company also derecognises a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognised at fair value.

On derecognition of a financial liability, the difference between the carrying amount extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognised in profit or loss.

**(iv) Offsetting**

Financial assets and liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Company has a legal right to offset the amounts and intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

**(v) Cash and cash equivalents**

Cash and cash equivalents comprise cash at bank and on hand.

**(vi) Share capital**

*Ordinary shares*

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of ordinary shares are recognised as a deduction from equity, net of any tax effects.

**3.5 Impairment**

**(i) Non-derivative financial assets**

The Company recognises loss allowances for expected credit loss (“ECLs”) on financial assets measured at amortised costs.

Loss allowances of the Company are measured on either of the following bases:

- 12-month ECLs: these are ECLs that result from default events that are possible within the 12 months after the reporting date (or for a shorter period if the expected life of the instrument is less than 12 months); or
- Lifetime ECLs: these are ECLs that result from all possible default events over the expected life of a financial instrument.

### ***Simplified approach***

The Company applies the simplified approach to provide for ECLs for all trade receivables. The simplified approach requires the loss allowance to be measured at an amount equal to lifetime ECLs.

### ***General approach***

The Company applies the general approach to provide for ECLs on all other financial instruments. Under the general approach, the loss allowance is measured at an amount equal to 12-month ECLs at initial recognition.

At each reporting date, the Company assesses whether the credit risk of a financial instrument has increased significantly since initial recognition. When credit risk has increased significantly since initial recognition, loss allowance is measured at an amount equal to lifetime ECLs.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and includes forward-looking information.

If credit risk has not increased significantly since initial recognition or if the credit quality of the financial instruments improves such that there is no longer a significant increase in credit risk since initial recognition, loss allowance is measured at an amount equal to 12-month ECLs.

The Company considers a financial asset to be in default when:

- the debtor is unlikely to pay its credit obligations to the Company in full, without recourse by the Company to actions such as realising security (if any is held); or
- the financial asset is more than 90 days past due.

The maximum period considered when estimating ECLs is the maximum contractual period over which the Company is exposed to credit risk.

### ***Measurement of ECLs***

ECLs are probability-weighted estimates of credit losses. Credit losses are measured at the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Company expects to receive). ECLs are discounted at the effective interest rate of the financial asset.

### ***Credit-impaired financial assets***

At each reporting date, the Company assesses whether financial assets carried at amortised cost and debt investments at FVOCI are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable data:

- significant financial difficulty of the debtor;
- a breach of contract such as a default or being more than 90 days past due;
- the restructuring of a loan or advance by the Company on terms that the Company would not consider otherwise;
- it is probable that the debtor will enter bankruptcy or other financial reorganisation; or
- the disappearance of an active market for a security because of financial difficulties.

### ***Presentation of allowance for ECLs in the statement of financial position***

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of these assets.

### ***Write-off***

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Company determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

## **(ii) Non-financial assets**

The carrying amounts of the Company's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. An impairment loss is recognised if the carrying amount of an asset exceeds its estimated recoverable amount.

The recoverable amount of an asset is the greater of its value in use and its fair value less costs of disposal. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets.

Impairment losses are recognised in profit or loss.

Impairment losses recognised in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation, if no impairment loss had been recognised.

### 3.6 Employee benefits

#### ***Defined contribution plan***

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contribution into a separate entity and will have no legal or constructive obligation to pay further amounts. Obligations for contributions to defined contribution pension plans are recognised as an employee benefit expense in profit or loss in the periods during which services are rendered by employees.

#### ***Short-term benefits***

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognised for the amount expected to be paid under short-term cash bonus or profit-sharing plans if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the obligation can be estimated reliably.

### 3.7 Revenue

Revenue from services in the ordinary course of business is recognised when the Company satisfies a performance obligation (PO) by transferring control of a promised service to the customer. The amount of revenue recognised is the amount of the transaction price allocated to the satisfied PO.

The transaction price is allocated to each PO in the contract on the basis of the relative stand-alone prices of the promised services. The individual standalone price of a service that has not previously been sold on a stand-alone basis, or has a highly variable selling price, is determined based on the residual portion of the transaction price after allocating the transaction price to services with observable stand-alone prices. A discount or variable consideration is allocated to one or more, but not all, of the performance obligations if it relates specifically to those performance obligations.

The transaction price is the amount of consideration in the contract to which the Company expects to be entitled in exchange for transferring the promised services. The transaction price may be fixed or variable and is adjusted for time value of money if the contract includes a significant financing component. Consideration payable to a customer is deducted from the transaction price if the Company does not receive a separate identifiable benefit from the customer. When consideration is variable, the estimated amount is included in the transaction price to the extent that it is highly probable that a significant reversal of the cumulative revenue will not occur when the uncertainty associated with the variable consideration is resolved.

#### ***Interest income***

Interest income is recognised using the effective interest method.

### 3.8 Borrowing costs

Borrowing costs are recognised in the statement of comprehensive income as incurred except to the extent that they are capitalised. Borrowing costs are capitalised if they are directly attributable to the acquisition, construction or production of a qualifying asset. Capitalisation of borrowing costs commences when the activities to prepare the asset for its intended use or sale are in progress and the expenditures and borrowing costs are incurred. Borrowing costs are capitalised until the assets are ready for their intended use or sale.

### 3.9 Government grants

Government grants related to assets are initially recognised as deferred income at fair value when there is reasonable assurance that they will be received and the Company will comply with the conditions associated with the grant. Grants that compensate the Company for expenses incurred are recognised in profit or loss on a systematic basis in the same periods in which the expenses are recognised, unless the conditions for receiving the grant are met after the related expenses have been recognised. In this case, the grant is recognised when it becomes receivable.

### 3.10 Tax

Tax expense comprises current and deferred tax. Current tax and deferred tax are recognised in profit or loss except to the extent that it relates to a business combination, or items recognised directly in equity or in other comprehensive income.

The Company has determined that interest and penalties related to income taxes, including uncertain tax treatments, do not meet the definition of income taxes, and therefore accounted for them under FRS 37 *Provisions, Contingent Liabilities and Contingent Assets*.

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, measured using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years. The amount of current tax payable or receivable is the best estimate of the tax amount expected to be paid or received that reflects uncertainty related to income taxes, if any. Current tax also includes any tax arising from dividends.

Current tax assets and liabilities are offset only if certain criteria are met.

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognised for temporary differences on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss.

The measurement of deferred taxes reflects the tax consequences that would follow the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities. Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on tax rates and tax laws that have been enacted or substantively enacted by the reporting date, and reflects uncertainty related to income taxes, if any.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to taxes levied by the same tax authority on the same taxable entity.

Deferred tax assets are recognised for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be used. Future taxable profits are determined based on the reversal of relevant taxable temporary differences. If the amount of taxable temporary difference is insufficient to recognise a deferred tax asset in full, then future taxable profits, adjusted for reversals of existing temporary differences, are considered, based on business plan for the Company. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised; such reductions are reversed when the probability of future taxable profits improves.

Unrecognised deferred tax assets are reassessed at each reporting date and recognised to the extent that it has become probable that future taxable profits will be available against which they can be used.

### 3.11 New standards and interpretations not adopted

A number of new standards and interpretations and amendments to standards are effective for annual periods beginning after 1 April 2022 and earlier application is permitted; however, the Company has not early adopted the new or amended standards and interpretations in preparing these financial statements.

None of these new standards and interpretations and amendments to standards are expected to have a significant effect on the financial statements of the Company.

## 4 Subsidiaries

	2022	2021
	\$	\$
Unquoted equity shares, at cost	2,340,575	2,340,575

Details of the subsidiaries are as follows:

Name of subsidiary	Principal activities	Place of incorporation/ business	Effective equity held by the Company	
			2022 %	2021 %
<i>Held by the Company:</i>				
Island Landscape & Nursery Pte Ltd	Provision of decorative plants and landscape services	Singapore	100	100
Myanmar Island Horti-Tech Ltd	Dormant	Myanmar	100	100
Innovative Organics Inc.*	Investment holding	United States of America	–	–

\* In 2021, the Company received additional funds from Innovative Organics Inc. resulting in additional gain of \$395,428.

Consolidated financial statements of the Company and its subsidiaries have not been prepared as the Company is itself a wholly-owned subsidiary of The Bombay Burmah Trading Corporation Limited, a company incorporated in India. Consolidated financial statements are published by The Burmah Trading Corporation Limited, whose registered office is at 9, Wallace Street, Fort, Mumbai 400,001.

***Impairment losses investment in subsidiaries***

The Company evaluates, amongst other factors, the financial health of and near-term business outlook for the investment and operational and financing cash flows, to assess the recoverable amounts of its investments in subsidiaries.

Differences between the actual performance of the subsidiaries and management’s annual impairment review will affect the results of the period in which such differences are determined. The recoverable amount of the Company’s investment in subsidiaries could change significantly as a result of changes in market conditions and the assumptions used in determining the recoverable amount. An increase in impairment losses will increase other expense and decrease non-current assets.

**5 Club memberships**

	\$
<b>Cost</b>	
At 1 April 2020, 31 March 2021 and 31 March 2022	<u>66,600</u>
<b>Accumulated amortisation and impairment loss</b>	
At 1 April 2020, 31 March 2021 and 31 March 2022	<u>66,600</u>

**6 Trade and other receivables**

	2022	2021
	\$	\$
Deposits	10,650	10,650
Other receivables	–	681
Advances to related company	12,974,492	12,873,967
Amounts due from related company	31,011	23,678
Amounts due from related party	4,362	16,448
Amounts due from subsidiary	44,111	–
	<u>13,064,626</u>	<u>12,925,424</u>

Amounts due from related company, related party and subsidiary are non-trade, interest-free, unsecured and repayable on demand.

The advances to related company are non-trade related, unsecured, bear interest at LIBOR plus 1% (2021: LIBOR plus 1%) per annum and are repayable on demand.

All balances with related company, related party and subsidiary are not past due and accordingly, there are no allowance for ECL arising from these outstanding balances as the ECL are not material.

The Company’s exposure to credit, foreign currency and interest rate risks related to trade and other receivables is disclosed in note 11.

## 7 Share capital

	<b>No. of shares</b>	
	<b>2022</b>	<b>2021</b>
<b>Issued and fully paid ordinary shares, with no par value:</b>		
At beginning and end of financial year	2,000,000	2,000,000

The holder of ordinary shares is entitled to receive dividends as declared from time to time, and is entitled to one vote per share at meetings of the Company. All shares rank equally with regard to the Company's residual assets.

## 8 Trade and other payables

	<b>2022</b>	<b>2021</b>
	<b>\$</b>	<b>\$</b>
Amounts due to subsidiary	–	83
Amounts due to related company	16,750	47,086
Amounts due to related party	17,008	17,008
Accrued expenses	26,825	47,606
	60,583	111,783

Amounts due to subsidiary, related company and related party are non-trade, interest-free, unsecured and repayable on demand.

The Company's exposure to currency and liquidity risks related to trade and other payables is disclosed in note 11.

## 9 Tax expense

	<b>2022</b>	<b>2021</b>
	<b>\$</b>	<b>\$</b>
<b>Current tax expense</b>		
Current year	33,432	29,600
 <i>Reconciliation of effective tax rate</i>		
Profit/(Loss) before tax	398,673	(133,480)
Tax using the Singapore tax rate of 17% (2021: 17%)	67,774	(22,692)
Tax exempt income and tax incentives	(34,537)	(84,608)
Non-deductible expenses	48	144,929
Other	147	(8,029)
	33,432	29,600

## **10 Related parties**

### ***Key management personnel compensation***

None of the directors earned any directors' fees or other remuneration in respect of their appointments as directors of the Company during the current year and prior year. The directors are not paid directly by the Company but receive remuneration from the Company's related companies, in respect of their services to the larger group which includes the Company. No apportionment has been made as the services provided by these directors to the Company are incidental to their responsibilities to the larger group.

### ***Other related party transactions***

Other than disclosed elsewhere in the financial statements, there are no significant transactions with related parties.

## **11 Financial risk management**

### ***Overview***

The Company has exposure to the following risks from its use of financial instruments:

- credit risk
- liquidity risk
- interest rate risk
- foreign currency risk

This note presents information about the Company's exposure to each of the above risks, the Company's objectives, policies and processes for measuring and managing risk, and the Company's management of capital.

### ***Risk management framework***

Risk management is integral to the whole business of the Company. The Company has a system of controls in place to create an acceptable balance between the cost of risks occurring and the cost of managing the risks. The management continually monitors the Company's risk management process to ensure that an appropriate balance between risk and control is achieved.

### ***Credit risk***

Credit risk is the potential financial loss resulting from the failure of a customer or a counter party to settle its financial and contractual obligations to the Company, as and when they fall due.

The Company has established credit limits for customers and monitors their balances.

The Company places its cash and cash equivalents with financial institutions of high credit rating. The maximum exposure to credit risk is represented by the carrying amount of each financial asset in the statements of financial position.

The Company's primary exposure to credit risk arises through balances with related parties. Management believes that no allowance is required on these balances.

*Advances to related company and amounts due from related company, related party and subsidiary*

In determining the ECL, the management has taken into account the historical default experience and the financial position of the related company and related party adjusted for factors that specific to the related company and related party, and general economic conditions of the industry in which related company, related party and subsidiary operate, in estimating the probability of default of the financial assets occurring within their respective loss assessment time horizon, as well as the loss upon default in each case.

Amounts due from related company, related party and subsidiary are considered to have low credit risk and there has no significant increase in the risk of default since initial recognition. Impairment on amounts due from related company and related party have been measured on the 12-months expected loss basis. The amount of the allowance on these balances are insignificant.

*Cash and cash equivalents*

Cash at bank balances are placed with banks and financial institutions which are regulated. Impairment on cash and cash equivalent has been measured on the 12-month expected loss basis and reflects the short maturities of the exposures. The Company considers that its cash and cash equivalents have low credit risk based on the external credit ratings of the counterparties. The amount of the allowances on cash and cash equivalents is negligible.

***Liquidity risk***

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company monitors its liquidity risk and maintains a level of cash and cash equivalents deemed adequate by management to finance the Company's operations and to mitigate the effects of fluctuations in cash flows.

The expected contractual undiscounted cash outflows of trade and other payables are expected to be repaid within one year.

***Interest rate risk***

Interest rate risk is the potential changes in the value of assets and liabilities as a result of movements in interest rates. The Company's exposure to market risk for changes in interest rate relates primarily to the Company's advances to related company.

At the reporting date, the interest rate profile of the interest-bearing financial instrument is:

	<b>2022</b>	<b>2021</b>
	<b>\$</b>	<b>\$</b>
Advances to related company	<u>12,974,492</u>	<u>12,873,967</u>

*Sensitivity analysis*

A change of 100 basis points in interest rates at the reporting date would have increased profit or loss by \$129,745 (2021: \$128,740). This analysis assumes that all other variables, in particular foreign currency rates, remain constant.

***Foreign currency risk***

The Company incurs foreign currency risk on balances with related company that are denominated in currencies other than its functional currencies. The currency giving rise to this risk is primarily United States dollars (USD).

The Company's exposures to foreign currency are as follows:

	<b>USD</b> <b>\$</b>
<b>2022</b>	
Advances to related company	12,974,492
Amounts due to related company	<u>(16,750)</u>
	<u>12,957,742</u>
<b>2021</b>	
Advances to related company	12,873,967
Amounts due to related company	<u>(47,086)</u>
	<u>12,826,881</u>

***Sensitivity analysis***

A 10% strengthening of Singapore dollar as indicated below, against USD at 31 March would have increased/(decreased) profit or loss by the amounts shown below. This analysis is based on foreign currency exchange rate variances that the Company considered to be reasonably possible at the end of the reporting period. The analysis assumes that all other variables, in particular interest rates, remain constant as indicated below:

	<b>Profit or loss</b>	
	<b>2022</b>	<b>2021</b>
	<b>\$</b>	<b>\$</b>
USD	<u>(1,295,774)</u>	<u>(1,282,688)</u>

A 10% weakening of the Singapore dollar against the above currencies at 31 March would have had the equal but opposite effect on the above currency to the amounts shown above, on the basis that all other variables remain constant.

***Capital management***

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to provide returns for shareholders and to maintain an optimal capital structure to reduce the cost of capital. The Company does not have specific capital management policy as this is managed by the ultimate holding company.

The Company defined capital as share capital and retained earnings.

The Company manages its capital structure and makes adjustments to it, in light of changes in economic conditions. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders or issue new shares.

There were no changes in the Company's approach to capital management during the year.

The Company is not subject to externally imposed capital requirements.

***Fair values***

The notional amounts of financial assets and liabilities with a maturity of less than one year (including trade and other receivables, cash and cash equivalents, and trade and other payables) are assumed to approximate their fair values because of the short period to maturity.

***Financial instruments by category***

Set out below is a comparison by category of carrying amounts of all the Company's financial instruments that are carried in the financial statements.

	<b>Financial assets at amortised cost</b>	<b>Financial liabilities at amortised cost</b>	<b>Total</b>
	\$	\$	\$
<b>2022</b>			
<b>Assets</b>			
Trade and other receivables	13,064,626	–	13,064,626
Cash and cash equivalents	705,348	–	705,348
	<u>13,769,974</u>	<u>–</u>	<u>13,769,974</u>
<b>Liabilities</b>			
Trade and other payables	–	60,583	60,583
	<u>–</u>	<u>60,583</u>	<u>60,583</u>
<b>2021</b>			
<b>Assets</b>			
Trade and other receivables	12,925,424	–	12,925,424
Cash and cash equivalents	552,921	–	552,921
	<u>13,478,345</u>	<u>–</u>	<u>13,478,345</u>
<b>Liabilities</b>			
Trade and other payables	–	111,783	111,783
	<u>–</u>	<u>111,783</u>	<u>111,783</u>
